Suction hose connection in the machine head

- The suction hose port in the machine head makes for a larger usable container volume.
- Emptying the container is simple thanks to the connection of hose and machine head.

Storage rack and fixing options

- Toolboxes can be placed on the flat machine head without slipping thanks to its rubberised surfaces.
- Transport eyelets allow for the machined to be securely fastened with conventional lashing straps.

Optional push handle

- The optional push handle can be fitted quickly and easily for hassle-free transport to the place of use.
