RVM 4 COMFORT

The RVM 4 Comfort vacuums, mops and offers a high degree of autonomy with its multifunction station. With precise LiDAR navigation, a dual laser system and a camera, obstacles are easily avoided.

Order no.	1.269-130.0

- LiDAR navigation, object detection
- Rotating mops for wet-cleaning (liftable), carpet sensor
- Multifunctional station, 2× wiping mops, 2× side brushes, 2× filters, 1× filter bag

Technical data

EAN code		4066529216595
Battery powered device		1
Battery charging time	**min**	230
Battery type		Lithium-ion battery
Battery voltage	**V**	14.4
Battery capacity	**Ah**	5.2
Sound power level	**dB(A)**	< 67
Suction Power	**Pa**	max. 15000
Waste container	**ml**	300
Running time per charge	**min**	160 (vacuum)
Area performance	**m²/h**	45 (vacuum)
fresh water tank multifunction station	**l**	2.5
dirty water tank multifunction station	**l**	3
filter bag multifunction station	**l**	2.3
Voltage (power supply for battery charger)	**V**	100 – 240
Frequency (power supply for battery charger)	**Hz**	50 – 60
Robot dimensions (L × W × H)	**mm**	100
Robot diameter	**mm**	350
Robot weight	**kg**	3.8
dimensions of multifunction station (L × W × H)	**mm**	310 × 450 × 445.5
weight of multifunction station	**kg**	6

Scope of supply

Cleaning brush

Quantity of filter bags: 1 Piece(s)

Side brush: 1 x

Wiping unit

Wiper disks: 2 Piece(s)

Equipment

Fall sensors

autonomous cleaningautonomous cleaning: Cold water

Carpet sensor

operation using app

Connection via WLAN

Connection via Bluetooth

Voice output

Laser navigation system (LiDAR)

Laser sensor and camera

Timer program: several timers possible

Dry cleaning mode

Wet cleaning mode

Combined cleaning mode (wet and dry)

autonomous mop drying: Hot

Automatic dust emptying

Colour		White
Software updates available until		2032-12-31
Weight without accessories	**kg**	4.1
Weight incl. packaging	**kg**	14.1
Dimensions (L × W × H)	**mm**	350 × 350 × 100

Sweeping close to the edge
Extendable side mop for cleaning edges
automatic extendable wiping unit
liftable mop
Filter bag material: Fleece

Precise navigation using artificial intelligence

- Thanks to its dual laser sensor, the RVM 4 detects obstacles, navigates around them and thus does not get stuck or cause any hard collisions.
- The dual laser sensor even allows it to recognise small or flat objects that are too small for the LiDAR system (e.g. shoes, socks or cables).
- With fast LiDAR navigation, the robot scans and maps the rooms with precision, ensuring the best orientation for reliable cleaning trips even in the dark.

Wiping unit with rotating wiping discs

- The rotating mopping discs with microfibre pads effectively remove dirt thanks to the high speed and strong pressure on the floor.
- As soon as the robot detects a carpet, the mopping discs are raised automatically, preventing the carpet from getting wet.
- The right-hand mopping disc can be extended for edge cleaning, guaranteeing the best cleaning results.

Carpet detection and Auto Boost

- The RVM 4 Comfort automatically detects carpeted areas using an ultrasonic sensor and displays them on the map in the app.
- When the wiping function is activated, the robot avoids the detected carpeted areas or moves over the carpet with its wiping units raised.
- The Auto Boost function increases the suction power on carpets when needed to achieve even better cleaning results.
