IDEAL 4705  
with optional stand

### MEASURING SCALE

The precise measuring scale (mm/inches) for the backgauge positioning can be read easily and is located on the front table.

### SPINDLE CLAMP

The variable clamp pressure is applied via the hand wheel to both ends of the clamp for firm pressure across the entire cutting line.

### SAFETY CATCH FOR BLADE

The safety catch locks the blade lever in upper position. The required two-hand operation is an important safety feature.
