[1] The EWM 2 achieves up to 20% better cleaning results than a traditional wiping mop with a wiping cloth cover in the "Wiping" test category. Refers to average test results for cleaning efficiency and edge cleaning. [2] When cleaning with direct contact with the surface to be cleaned, up to 99% of all common household bacteria on common household smooth hard surfaces are killed (test germ: Enterococcus hirae). According to the 4-field test (based on DIN EN 16615:2015-06).
