

# SHARP CUT

*Affordable To Buy...  
Affordable To Own*

## VACUUM

The work surface is divided into six zones for the 5' X 10' model. Each zone has its own vacuum pump controlled by individual electrical "on/off" buttons on the front panel. The power of the pumps is configured for most substrates used in Wide Format Printing.

## VISION REGISTRATION SYSTEMS CAMERA AND SOFTWARE

The Sharpcut is a fully integrated hardware and software solution that turns your digital cutting table into a true, short-run production system. This powerful solution provides unmatched productivity by intelligently finishing your graphics with the highest accuracy and efficiency. It includes a camera system that individually adjusts your cut files to accurately match your printed graphics. With industry leading vision registration, powerful dynamic routing, an intuitive user interface and true production workflow, it is the world's standard in finishing. It is compatible with the industry's leading RIP and printer manufacturers. It's means of distortion compensation enables the **Colex** Sharpcut Flatbed Cutter to produce error free results.
