

Spiradrill XL

The XL is a completely hydraulic unit designed to provide more drilling capacity than comparably sized rigs while the short mast allows you to get under overhead obstructions. This unit can be mounted on a conventional truck instead of a crane carrier, making it less expensive and easier to transport. The easy to use controls and simplified design make the XL more operator and mechanic friendly. Designed to drill up to 70' deep and diameters as large as 144", the XL combines the power, versatility, and efficiency needed to give you confidence on even the toughest jobs.

TECHNICAL SPECIFICATIONS

	Standard	Metric
Maximum Pile Depth	70 feet	21.34m
Maximum Pile Diameter	144 inches	2.66 m
Maximum Torque	60,000 ft./lbs.	81.33 kNm
Maximum RPM (Low)	18 rpm	18 rpm
Maximum RPM (mid)	45 rpm	45 rpm
Spin off speed	140 rpm	140 rpm
Main Winch	23,000 lbs.	102.31 kN
Service Winch	12,000 lbs.	53.38 kN
Transport Weight*	75,000 lbs.	37.5 tons
Fuel Tank	50 Gallons	189 Liters
Crowd	45,000 lbs.	199 kN
