Stansteel® USED

SSS-5738WS

Make: Stansteel **Size:** 10,000# **Type:** Partial Batch Plant

Stansteel Batch Tower:

- Stansteel Batch Tower and Bucket Elevator with a 10,000# capacity pugmill.
- Hot Elevator with 40 HP drive, heavy duty chain with 17" x 10" aggregate style buckets
- NEW buckets, chain, tail shaft, idler wheel, bearings, head pully bearings, drive & driven sprockets, drive chain installed in 2020
- Horizontal Diester 6' x 16' Screen installed in 2014
- Four (4) compartment hot bins with high- and low-level indication and external access ports to the interior for inspection.
- 10,000 Pound hot oil jacketed pugmill with a 200hp motor
- Air Pro fugitive fan with 50hp motor
- NEW pugmill liners, driven sprocket, and drive chain installed in 2020
- NEW pugmill arms, tips, bearings, drive chain, side liner, gate liner, shaft seals installed in 2024

Standard Havens Baghouse:

- Standard Havens Magnum Size 29
- (464) 6' dia x 16'-5" long bags = 12,260 sq ft of cloth (bags & cages not included)
- 66,000 ACFM @ 5.5:1 air to cloth ratio
- Baghouse fan with two (2) 125hp motor
- Ductwork to dryer included
- NEW bearings in Exhaust Fan installed in 2026
- NEW screws installed in 2020

Stansteel Dryer:

- Nominal 9'-1" dia. X 36' long Dryer
- Full perimeter wide flange beam frame with walkway included
- Inlet and outlet shrouds are included
- Gravity type material feed chute to the shell
- Heavy Duty 100hp motor.
- Astec Whisper Jet Burner currently operating on natural gas
- NEW trunnions installed in 2021
- NEW trunnion bearings installed in 2026
- NEW flights installed in 2022 (~500,000 tons since)
- NEW drive sprocket, driven sprocket, and electric motor installed in 2020
- NEW drive chain installed in 2025

SSS-5738WS

Notes:

These are all proven components and operated the majority of the 2026 season, producing quality mix every day for months of the season.

These basic components could be packaged with a Rotary Recycle Mixer and provide the most flexible plant in the hotmix industry. That plant is called a Select-a-Mix® plant. A Select-a-Mix® plant couples the ability for the hotmix producer to have infinite flexibility of a batch plant, but also higher production ton per hour. Also, very high RAP usage with combining components in a continuous mix formula so that all the materials are blended, the tower is bypassed and the superheated hot aggregates combine with RAP to produce quality mix in a continuous mode.

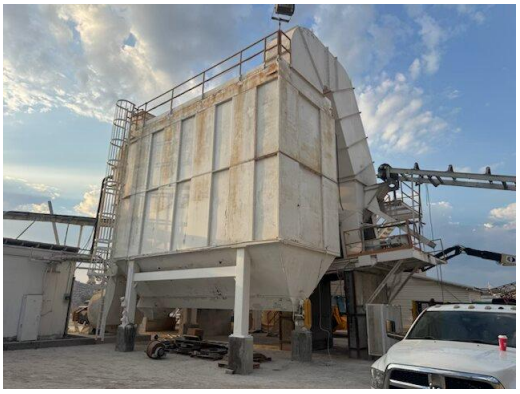

Please contact Stansteel Used at 800-826-0223 / used@stansteel.com or your Stansteel Account Manager to further discuss options.
