Compact Drying Oven

Fast, compact, technological

Drying oven perfect for small or fully automatic lines.

- The modern technological systems added to the ventilation device allow drying in short times fast
 - reticulation paints or flashing off paints at UV hardness
 - or curing glues to subsequently veneer panels.
 - Compact structure, with 6 overlapped belted-trays, housed in a highly insulated chamber, the machine can work very reduced spaces.
- Euro 4 Filtering system. No contact with external agents. Adjustable temperature.
- Air heated through a hot water battery.

- ✓ Available version 5500 e 7000 mm
- ✓ Compact Drying and storing solution
- ✓ Fast change of level, due to the handling system through ball recirculation screws.
