OptiPunch XL Professional Modular Punching

Power, precision, and productivity in one robust package - the ultimate solution for wire, coil, comb, and calendar binding up to 430mm in length.

Key Benefits

- **Oversized Punch Width** – Punch sheets up to 430mm, perfect for A3 calendars and landscape formats
- **Fast Punch Cycle** – Punch up to 30 sheets per second (die dependent)
- **Versatile Binding Styles** – Interchangeable dies support wire, coil, comb, and calendar formats
- **Quick Changeovers** – Swap dies in under 60 seconds with the quick-release locking system
- **Built for Production** – All-metal construction ensures long-term durability
- **Precision Control** – Foot pedal or electronic button operation for hands-free accuracy

Overview

The OptiPunch XL is built for fast-paced production environments where flexibility and accuracy are critical. Its extended 430 mm punch width delivers a distinct advantage, enabling operators to handle oversized sheets and wide landscape formats that conventional punches cannot accommodate. This makes it ideal for A3 wall calendars, wide-cover presentations, planners, tabbed dividers, and other specialty documents where larger dimensions are required.

Punching paper, card, and plastics up to 30 sheets per cycle, the OptiPunch XL provides consistently clean results across multiple binding formats. The modular die system allows operators to switch punch styles in under a minute, keeping workflows efficient even during mixed production runs. Built from high-grade metal components for long-term reliability, each die features deselectable punch pins for size adjustment, while overload and reverse functions keep operation smooth and jam-free.

Key Features

- Flexible die options for wire, coil, comb, and calendar production
- Heavy-duty metal chassis ensures years of reliable operation
- Jam-prevention system with overload detection and reverse punch clearing
- Oversized chip tray reduces downtime for waste disposal

Available Punch Die Sets

- 3:1 Wire Round / 2:1 Wire Round
- 3:1 Wire Square / 2:1 Wire Square
- 3:1 with Calendar Thumb Cut (Square or Round)
- 4:1 Plastic Colour Coil
- Plastic Comb

Specification

Model	OptiPunch XL
Maximum Sheet Length	430mm (longer possible as open ended)
Maximum Punching Capacity	30 sheets - 80gsm (die dependent)
Punch speed	1 second cycle
Punching	Electric, via Foot Pedal
Tool Change	Quick Release - 60 Seconds
Overload Function	Included - Reverse Punching
Power	230v 50/60Hz
Machine weight	40kg
Dimensions	(L) 590mm x (W) 450mm x (H) 320mm
