Sawmill Exchange

Sure is getting chillier here in Northern Indiana. On Saturday, I got our camper winterized, covered, and ready for winter. Also got the chimney cleaned out and fired up the wood stove. Hunting season is in full swing here, and my 13-year-old wants to try it this year, so I cleared a few trees and some brush and planted a small food plot to see if we can attract some deer to our woods.

Sounds like the last issue of the year will be canceled, and the Bid Book for the year-end IronRing auction will only be in Busy Beaver. It will be included in all five regions of Busy Beaver, and if you're not currently receiving Busy Beaver, please contact them and have them add you to their mailing list. The November IronRing auction was also included in Busy Beaver as a test run.

Happy Thanksgiving! I hope you take time to spend time with your family and make some memories and traditions with your children.

Exciting Changes Coming to Sawmill Exchange!

We are excited to announce several important changes to Sawmill Exchange as we continue working to better serve our readers, advertisers, and the sawmill industry. Effective immediately, Sawmill Exchange is returning to a FREE publication! We believe valuable industry information, auction listings, and our popular Bid Book should be accessible to everyone, and we don't want subscription costs to stand in the way.

Beginning in January 2027, we will also transition from publishing twice a month to once a month. This change will help reduce printing and mailing expenses while allowing us to focus on delivering a quality publication packed with valuable information and advertising opportunities. Some consignment auctions scheduled later in the month may require earlier advertising deadlines, but we will continue working closely with our auction team to accommodate these needs whenever possible.

With these changes, we are making a major push to expand our circulation to 20,000 copies per month and beyond! Our goal is to put Sawmill Exchange into the hands of more sawmill owners, loggers, equipment buyers, and industry professionals across the country. This expanded reach will provide greater exposure for auction consignments, equipment listings, and our display advertisers while introducing more readers to everything Sawmill Exchange has to offer.

We need your help to make this happen! If you know someone who would benefit from receiving our publication, simply send us their name and mailing address, and we'll gladly add them to our mailing list at no charge. We appreciate your continued support and look forward to making Sawmill Exchange an even more valuable resource for the industry!

Happy fall, y'all!

Have a great week!

Until next time,

Sawmill Exchange

VORTEX™ V6 CHIPPER

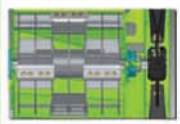

WIDEST INFEED 6" × 17"

With the largest infeed opening available in the 6-inch brush chipper class, the Vortex series allows operators to feed larger limbs and brush with fewer cuts. This expanded capacity minimizes material preparation, increases throughput, and improves overall jobsite efficiency.

HIGH-VELOCITY THROWING DISC

A drum chipper with the throwing power of a disc. The throwing disc blows chips directly from the chamber in a tight, consistent stream into a pile or chip truck.

ANTI-CLOG VORTEX CHAMBERS

The revolutionary open design eliminates clogging by using a skinless drum and an angled discharge chamber that directs chips straight to the thrower wheel. With a pocketless drum, the system delivers consistent flow and performance - unlike traditional drum chippers.

Maximum Feed Capacity:	6"	Number of Knives:	4 Knives
Engine Horsepower:	35 HP	Adjustable Discharge Chute:	Manual Swivel Discharge, Adjustable Height

INFORMATION LOT - PLEASE READ

Please note there's an information lot before every different liquidation. Please review that, and it will have your loadout, your rigging, and payment information in those terms.

RIGGING INFORMATION

Installed Equipment. Rigging is the sole responsibility of the buyer. Bright Star Auctions provides the name of a recommended third-party rigger whom buyers may choose to hire for rigging, load-out, or related services. This rigger is not an employee, agent, or representative of Bright Star Auctions. Buyers who require rigging services must contract directly with the rigger of their choice. Buyers may request a rigging quote from the recommended rigger prior to the auction. Bright Star Auctions highly recommends hiring the recommended rigger. Items requiring rigging include: Any installed equipment that cannot be removed without additional work. Equipment that must be cut, torched, unassembled, or otherwise modified for removal. Any item that is fixed, anchored, or integrated into a structure or system. Buyers have three rigging options: 1. Hire the recommended rigger. 2. Hire a qualified and insured rigger of their own choosing. 3. Perform their own rigging. · If Buyers decide to do their own rigging, they must abide by the Self Rigging Terms and Conditions (See Addendum A) · And by signing proper rigging terms agreement. (See Addendum B) These will be displayed in the documents section. If you click on there, there should be an addendum A and addendum B. For all other items that do not need rigging, these are the loadout terms that may apply. Rolling stock may be loaded out without assistance, · Staff will be available to help start and run equipment during the designated load-out dates. After this initial period: Buyers are fully responsible for all equipment startup and loading. Buyers must schedule an appointment for any loadout after the designated dates. Loading Requirements for Larger Non-Rigging Items: Larger items that do not require rigging but do require specialized equipment—such as cranes, wheel loaders, or other heavy lift machinery —may be subject to a loading fee. Buyers have two options for loading these items: Hire the recommended rigger, schedule an appointment and pay the quoted loading price. Provide their own appropriate equipment and complete the load-out themselves Small & Palletized Item Load-Out: Small and palletized items qualify for free loadout during the designated free loadout timeframe. Staff will be available to assist with loader operated loading when necessary. After this timeframe ends: Minimum of $25 per lot, or other loadout charges will apply. Buyers become fully responsible for arranging their own loading. Items that can be loaded by hand must be loaded by the buyer, without staff assistance. Shipping Services: Shipping is available through US Logistics for all items, (they are a third-party company. They are not employed by Bright Star Auctions) including: Oversized loads Palletized equipment Buyers may contact US Logistics Obtain a shipping quote Arrange trucking Coordinate delivery from pickup to destination Shipping for Small, Non-Palletized Items: Shipping may be available for smaller, non-palletized items that can be boxed, depending on the seller or the specific auction. A shipping and handling fee will apply to all such boxed shipments. Please abide by all terms and conditions above to make the process seamless and as effective as possible.

I want to take a moment to personally thank you and your wonderful staff for an extremely successful auction of our sawmill assets. From the moment I was asked to manage this sale, I feared the amount of work that was involved for me and my team, but in fact, we did very little as your team did all the work for us. The advertising of the auction brought a strong group of bidders. Your team's expertise in lumber assets helped push the bidding to higher levels than we had forecast. And when it was complete, your team's professionalism in getting the process of shipping the sold equipment made our lives here at Missouri Walnut so simple. And as icing on the cake, we exceeded our price expectations as well. Please extend my thanks to your team and we will highly recommend Bright Star to anyone looking to sell industrial assets in the future. - *Timothy Mohs - CFO, Missouri Walnut Group*
