From the Editor

Monday, June 29th, 2026

I'm sitting in a hotel in Glenwood Springs, Colorado, as I write this editor's section. We traveled here on Amtrak with our four children. We got on in Chicago on Saturday and had a good ride here.

In Denver, we were exposed to the world around us. We got there on Sunday morning around 8:00 and got off the train to stretch our legs. Denver had a Pride parade scheduled for Sunday morning, and trains were bringing all sorts of people, dressed in all sorts of colors, into the train station. We saw a lot of rainbow-colored clothing and some very peculiar people. One even had a muzzle strapped to his face and a tail (supposedly a dog??). In the train station, a man with a beard wearing a dress went into the ladies' restroom.

WOW. Do we appreciate what we have been taught from a young age—that God created Adam and Eve, male and female; the animals He created, male and female; and that He used His own breath to make man a living soul. *"I will praise thee; for I am fearfully and wonderfully made: marvellous are thy works; and that my soul knoweth right well."* — Psalm 139:14. My 13-year-old son said that was the strangest day he had ever experienced.

Today we plan to go paragliding off the side of a mountain, which none of us has done before. We also want to go whitewater rafting, spend a day at Iron Mountain, and maybe rent bikes and ride some of the trails. Last night the sun went down as a bright red ball and there is a small amount of haze. I've heard that there are some forest fires going on in Utah and that the smoke is blowing in from that. Fire season is something that we are not used to in Indiana.

Enough about us. Hope you enjoy your Fourth of July holiday. Bright Star Auctions' offices will be closed July 7–9 for their annual company retreat.

Catch some lightning bugs. Grill some hot dogs. Spend time with family. Enjoy!

Have a great week!

Until next time,

Wayne Nisley, Editor

Equipment Market Report

Brought to you by Bright Star Auctions
Eugene Hochstetler / Vice President / (574) 242-1100

Hello to the equipment world! I hope everyone is having a great summer! The June 9 Iron Ring Auction featured quality equipment with strong interest from all corners of the nation, including international buyers.

2016 John Deere - Sold for \$80,000

2014 Cat D6 - Sold for \$75,000

The 2016 John Deere 853M Track Feller Buncher rang the bells at \$80,000, while a 2014 CAT D6 dozer sold for \$75,000. Other highlights included a 2025 DYNA SC-16 firewood processor selling for \$73,000, a 2018 Wood-Mizer WM4000 sawmill bringing \$47,500, and a 2018 Mahindra 9110P tractor selling for \$30,000.

On June 19, we were in Sarcoxie, Missouri, for the Heritage Oak LLC Liquidation. Bidding was steady to strong throughout the day. Highlights included a 2013 Taylor TX300 forklift that rang the bells at \$100,000, a 2015 Kentwood moulder selling for \$57,000, and a 2023 Vecoplan grinder bringing \$50,000. A 2006 Taylor T200 forklift sold for \$40,000, while a Hyster H330 forklift brought \$38,000. A Weinig 22 Hydromat moulder rounded out the highlights, selling for \$25,000. At the end of the day, the seller was very pleased with the results of the Heritage Oak auction.

2025 Dyna SC-16 - Sold! \$73,000

2018 Wood-Mizer - Sold! \$47,500

2018 Mahindra - Sold! \$30,000

2013 Taylor - Sold! \$100,000

2023 Vecoplan - Sold! \$50,000

2015 Kentwood - Sold! \$57,000

Then on June 26, we were back at our home yard in Middlebury, Indiana, for the Summer Michiana Equipment Auction. We had an excellent turnout with a strong onsite crowd, while more than 2,000 remote bidders participated from around the world. Highlights included a 2023 CASE compact track loader selling for \$70,000, a 2022 Manitou MC25 diesel forklift bringing \$52,000, and a 2023 Manitou 2550 RT track skid steer selling for \$47,000. A JLG towable boom lift sold for \$21,000, and a 2010 Freightliner tri-axle dump truck brought \$20,000. These were among the top highlights from another successful event.

June 22nd WoodRing Results:

Bugged About Lightning Bugs

Hey Dad,

The lightning bugs are back, and it reminds me of one Sunday evening years ago, after a long, hard weekend, I was enjoying the peace and quiet. A gentle breeze blew through the house, refreshing the very bones within me...if only my wife had brought me a tall, icy glass of freshly squeezed lemonade, all would have been right with the world.

Enter Isaac (5yrs.).

"Hey, Dad...remember, you said we'd catch lightning bugs tonight? Is it time?" He smiled a sunny smile. The kind of annoying 'sunny' that shines through the blinds in the morning and hits you right in the eye. I held my breath and thought about pretending I was dead. He stood before me with the goofiest (and most adorable) grin on his face, waiting for my answer.

Seconds ticked by, and I could hear the beat of my own heart as my mind scrambled for some...any kind of reasonable excuse. Too wet? Nope, dry as a bone. Maybe tomorrow night? Naw, I said that last night. I don't want to risk getting the West Nile Virus from a mosquito? It would take an hour to explain it to him.

"Sure, we'll catch lightning bugs tonight," I heard myself say before I could stop it. "Good," he answered cheerfully and was off like a shot.

An hour later, we were outside scooping up lightning bugs and putting them in a jar. The kids laughed and squealed in excitement during the hunt. Later that night, Ike and Abe fell asleep watching the lightning bug zoo that hung on their closet doorknob. Before I went to bed, I peered in on the sleeping boys and the jar with the glowing bugs and remembered the jars of lightning bugs that I took to bed as a kid.

You see, we did something eternal that night...something that my children will never forget. They may not remember the lightning bug part, but they'll remember the "they did it with dad" part. And to think it all took only ten minutes...and I almost said "No."

How many other things have I missed that would have only taken a few minutes or a few hours? I'd rather not think about it...but I better. We play for keeps, us dads.

Dad, let those little glowing lights in your back yard sound the alarm. They won't be around forever, and before you know it, they'll be gone. So, have you gone on a lightning bug safari yet? Tonight would be perfect. Maybe there's something else the kids have been asking you to do.

Tonight would be perfect for that as well. You 'da Dad! (Don't you get tired of hearing that?!)

You 'da dad!

Todd

YODER'S TIMBER HARVESTING FORESTRY & LOGGING EQUIPMENT

Absolute Auction

SEPTEMBER 18TH - 9 AM ET

LIVE ONSITE AUCTION WITH ONLINE & PHONE BIDDING AVAILABLE

SELLER: Rudy Yoder / Yoder's Timber Harvesting — After more than a decade of building Yoder's Timber Harvesting into a respected logging operation, Rudy has decided to move in a different direction and liquidate the business. This absolute liquidation auction features a complete lineup of logging and support equipment, including trucks, trailers, shop equipment, and machinery that have been integral to the operation. After 17 years in the logging industry, Rudy is offering this equipment at auction, creating an excellent opportunity for buyers to acquire quality forestry and logging equipment. **Accepting consignments to add to this auction!**

- SD models available in 4"x30" and 4"x36" configurations
- HD models offered in 4", 6", and 8" options
- Available with Hydraulic, Electric, or Shaft Drive systems
- Hydraulic or Manual Saw Set options available
- Optional computerized networks for enhanced precision and efficiency

FRONTLINE LOG TURNERS

The Frontline Log Turner is built for durability and dependable performance in demanding mill operations.

Featuring a heavy-duty build, dual-direction chain system, and powerful hydraulic drive, it delivers smooth, efficient log handling with precise control to keep production moving.

INDUSTRIAL STRENGTH. HIGH PERFORMANCE.

260-633-4047 | Wolcottville, IN
ShowcaseEquipment.us

SUPREME

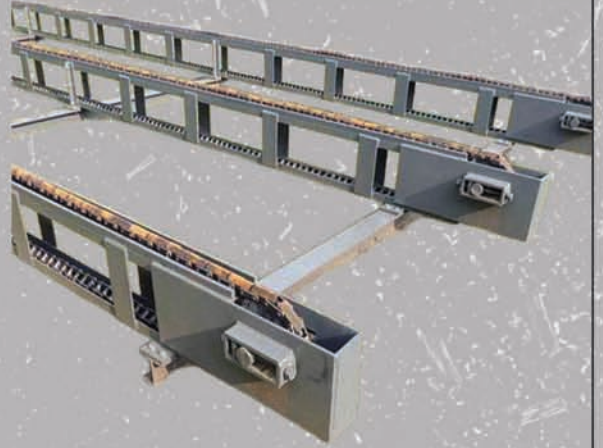

MFG

GREEN CHAIN

Built around a rugged C55 chain platform as standard, with full flexibility to accommodate virtually any chain configuration required. Driven through a heavy-duty reduction gearbox and compatible with the drive system of your choice, this setup is engineered for reliable industrial performance in demanding applications.

DRIVE OPTIONS INLCUDE:

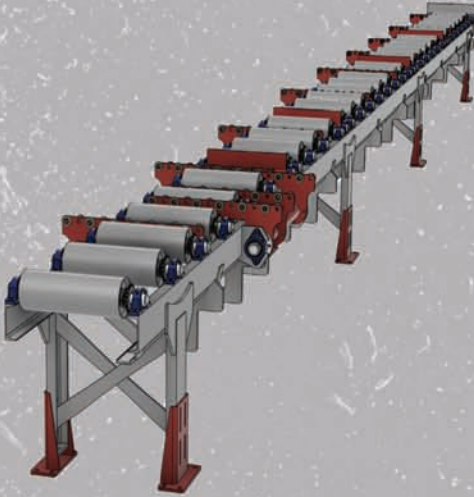

- 2-6 Strand - Any length & width
- Endless Chain options

ROLLCASE

Designed for high-capacity material handling, the Rollcase comes standard with rugged 6" diameter rolls, with custom roll diameters available to meet your operation's exact requirements.

Fully customizable in both length and width, each system can be configured with hydraulic, electric, or line shaft drive options for dependable, industrial-grade performance in demanding environments.

LUMBER CART

Built for rugged material handling, the Lumber Cart features a durable 42" x 92" platform designed to move heavy loads with ease. Complete with heavy-duty casters and two uprights as standard, this cart delivers reliable performance, smooth mobility, and long-lasting durability for industrial lumber operations.

- 42" x 92"
- Heavy Duty casters
- 2 durable uprights

ENGINEERED SOLUTIONS

FROM INDIVIDUAL EQUIPMENT TO COMPLETE TURN-KEY OPERATIONS!

With the purchase of Frontline equipment, we now have more options for different styles of transfer equipment, including log deck, vibrating conveyor, barn sweep, and More!

LOG DECK

The frontline log deck is a heavy-duty material handling system designed to receive, stage, and feed logs efficiently into the production line. Engineered for strength and reliability, it helps maintain a steady flow of timber while improving operational efficiency and reducing downtime.

FEATURES:

WR 82 Chain, AR400 Wear Strip, Anson UHMW Bearings, 2-15/16" Head Shaft w/Tulsa Drive, 6x8x3/8 Double Stack Tubing Strands

VIBRATING CONVEYOR

Designed to efficiently move slabs, edgings, chips, and debris through the production process using controlled vibration. Built for durability and continuous operation, it helps maintain smooth material flow, reduces buildup, and improves overall production efficiency.

Introducing the all new
MODEL 800

Super low ground pressure will make it possible for you to operate in conditions that were impossible or marginal at best.

The 3psi empty and 5psi loaded gives new meaning to low impact logging.

Land owners, Foresters and operators realize very quickly the value this machine brings. Your ability to successfully operate on marginal ground and work in any weather, will make anyone a believer in the value it brings to your operation.

Three Machine sizes available

800-5T

1500-7.5T

2200-10T

DUST AND FUME CONTROL SYSTEMS
STATESVILLE, NC

DUST & FUME CONTROL SYSTEMS

Experts in designing & installing Dust Collection Systems since 1963.

DESIGN

Work directly with our engineers to design and install new systems or repair and retrofit existing systems.

SERVICE & PARTS

Service technicians available for system balancing and fan services.

Spare parts available:
Fans, motors, gears, bearings, bushings, wipers, and replacement

INSTALLATION

Begins in our facility with expert fabrication and installation teams to ensure your system is solid & functional.

Our installation crews are experienced in setting large equipment and structural steel using cranes and heavy machinery for efficient on-site completion.

VALUE ADDED SERVICES

- Comprehensive quoting process
- Individual attention
- Detailed project proposals
- Efficient, cost-effective designs
- Systems designed for long service life
- Multi-industry applications
- Latest technologies & materials
- Emergency system repair

FINANCING AVAILABLE

Offering complete system design, installation, repair, & retrofitting.

Free Weekly Email for Dads

Do you ever wish a guy would come to your house, slug you in the arm, and tell you to straighten up, be a good dad, and be loving to your wife? Well, now your wildest dreams have come true, because I'll come to your home or office each week and do just that. Now, don't be expecting a theological treatise on husbanding, because the Familyman Weekly isn't that. Think of it more as one dad encouraging another over the backyard fence.

LOGGING Life

Downsides of Mechanical Harvesting

By Ethan Royer

Last month, I covered the positive aspects of harvesting timber mechanically. This month, I'll try to detail the other side of the story. As I've admitted before, I am biased toward mechanical cutting. In my experience, the positives outweigh the negatives, but it's not all fun and games. It will not work for all loggers in all situations. Some of these negatives are the very same things listed as positives last month—sometimes too much of a good thing becomes a bad thing. Other times, carelessness turns a good thing into a bad thing.

Cost

The major financial burden of mechanical cutting is a big drawback. Bunchers are expensive machines that depreciate relatively quickly. The used equipment market seems to be softening, but feller bunchers still can't be categorized as cheap. You could expect a new buncher to be \$700 to \$900K, depending on brand, model, options, and attachment. The days of 0% interest loans appear to be history, so borrowing costs add significant expense.

As we discovered, switching to mechanical cutting involves more than just buying a feller buncher. We bought a semi and lowboy to transport it and later acquired a bigger skidder to keep up with pulling wood away from the feller buncher. While not everything has to be purchased in one fell swoop, there is significant upfront cost however you do it.

It was definitely a leap of faith for us to invest so much into a method that was unproven in our area at that time. Perhaps the difference between a leap of faith and a leap of folly depends on whether those you are accountable to approve of the leap. Of course, we had tried to run the numbers before we pulled the trigger, but a lot of our figures were pure speculation: we didn't really know what kind of production to count on or what the operational costs would be. Fear of failure can be paralyzing, but it can also motivate you to figure out ways to make things work. Sometimes desperation drives innovation.

Our first buncher was bought used and served us well, but when we were ready to update in 2021, used equipment prices were soaring while new equipment had not yet spiked. With 0% interest loans available, and my lack of mechanical aptitude, buying new seemed like the logical choice. For anyone getting into mechanical cutting, I would strongly caution against maxed-out borrowing. It is difficult to make good operating decisions when you are heavily leveraged and are struggling to make payments. Monthly payments are due, rain or shine. You don't want to feel forced to work when the ground is too soft. Debt can be a good servant, but it's a terrible master.

A chainsaw can cut all day on a couple gallons of gas; a buncher cannot. Fuel is a major expense that is difficult to accurately project since the price fluctuates so much. In 2023, I paid as much as \$4.10 a gallon; at the time of this writing, fuel is down to \$2.15. I do not carefully track fuel consumption, and I know it varies some, but it is somewhere in the ballpark of 10 gallons per hour for the buncher and 4 gallons per hour for the skidder.

Doing the math reveals a \$218.40 difference per day at 8 hours of run time (112 gal. x \$4.10 = \$459.20; 112 gal. x \$2.15 = \$240.80). I transport fuel to the job via a 100-gal. tank in my pickup, but I cannot keep up with the buncher and skidder on longer days, especially when the skids are long. (We don't usually run for 8 hours since we still buck by hand most days.) Going through this amount of fuel prompted the purchase of a large fuel tank so we can buy by the semi load.

The cost of maintenance and repairs is a known unknown. While maintenance is fairly predictable, repairs are a different story. We know there will be repairs, just not how many or when they will be needed. The price tag on heavy equipment repairs makes chainsaws look downright cheap. A simple and inevitable thing like blowing a 1" hydraulic hose can easily cost over \$500, not figuring labor or downtime.

The cost of a service call from an OEM dealer is out of line with logger's wages. Our new machine purchase came with the Komatsu Care complimentary service program, but after that expired, I began servicing the machine myself. I was a bit startled at the cost of some filters. A routine 1,000-hour service cost over \$1,000 for just the oil and filters. It requires four different types of oil, some are inexpensive and some are not.

Saw teeth run around \$150 per set of twelve. In ideal conditions, we can cut about 200,000 board feet per set, but that is rare. Most often, they dull prematurely by hitting a rock, barbed wire, tree step, or T-post. If the teeth are not damaged, I will sharpen them once.

Downtime for repairs must be accounted for as well. When we switched from hand cutting, we told ourselves that if the buncher were to break down, we could always hand cut for the rest of the day—but that is not how it works. If the buncher goes down, we do everything we can to get it back up and going. Our buncher is under warranty, so repairs are covered, but it was recently at the dealer for three weeks for warranty work. We filled in with some hand jobs, but I struggled to stay charitable. Downtime is all the more costly when we are so limited on working days due to wet weather.

We had no experience with undercarriages before buying a buncher, but we soon discovered that undercarriages alone are a major expense. When the Komatsu 5 series debuted, I remember a company rep telling me that they redesigned the undercarriage to last 8,000 hours. I thought he was trying to be funny, so I laughed, but he was serious. I put 2,000 hours on mine before Komatsu themselves declared it worn out.

There is no warranty on the undercarriage since it's considered a wear item, but they did pay for a portion of the replacement since they said it was premature wear. We sometimes work in sand, and I do track and turn a lot more than a processor would, but I don't understand why the undercarriage didn't last longer. Even if we use aftermarket components, I calculate that the undercarriage alone is costing at least \$15 an hour.

Liability is a real consideration of owning a machine that could be burnt, stolen, or vandalized. We don't have many pine needles (notorious for getting inside guarded machines), but my first buncher nearly caught fire one summer day. It had not rained for some time, and the sawdust inside the engine compartment was tinder dry. As I was tracking out of the woods, I started smelling smoke. I shut down and climbed out to investigate but couldn't find anything. I climbed back in and headed for the landing but began smelling smoke again.

Arriving at the landing, we discovered live coals on the backside of the engine. They had not yet ignited, but the engine fan was blowing on them and I'm confident there soon would've been flames. It appeared the culprit was a nut that fell off an exhaust clamp near the turbo and dropped into the sawdust under the engine. This was one of the only times that I've been thankful for a swamp; we dipped water out of a nearby swamp and doused the coals. I like to pressure wash the engine compartment periodically but don't do it as often as I'd like; few jobs have hydrants handy.

Finding Qualified Operators

As a buncher owner-operator, I cannot identify with the issue of finding a qualified operator, but I know that is a real dilemma for some companies. The learning curve is not short.

A forestry equipment salesman once told me that it takes 1,500 to 2,000 hours before an operator's skill and production plateaus. Based on my experience, I would say this is accurate, but it's also possible that I'm a slow learner. Since mechanical cutting is new to this area, it isn't possible to find a skilled operator for hire. The most important criteria for a good operator are conscientiousness and a working knowledge of forestry (that is, knowing tree species, wood fiber characteristics, and the importance of directional felling).

In other words, a good hand cutter could likely become a good buncher operator. Anyone can learn to run joysticks, but discipline and quality workmanship are more important and more difficult to teach. I recommend starting out a new operator in low-grade timber, clearcuts, or blowdowns to get a handle on machine control. Even the most careful operator can't do a good job until he can make the machine behave.

It is said that "Power corrupts and absolute power corrupts absolutely." Bunchers are powerful tools, and it is easy to be corrupted into laziness. My thoughts might go like this: "Who wants to climb out and hand cut that big Walnut when it's 90° outside?" Or, "If I just leave a high stump, I can do it from the air-conditioned cab." It takes discipline to do a good job regardless of the method, but I think the feller-buncher method requires even more discipline. Little things add up more when you're cutting twice as many trees per day.

Soil Disturbance

This was listed as a positive thing last month, and it is positive in the right circumstances. But it can also be a bad thing. Bare soil enables seed-to-soil contact, promoting regeneration, but this can be good or bad. It might depend on whether the Oaks are dropping acorns or cotton is floating off the Cottonwood trees. Too much soil disturbance can trigger erosion on steeper sites, and no one appreciates a new gully in their woods.

Log Quality

This too was listed as a positive last month, but an operator must know and operate within the buncher's limitations if he is to produce nice logs. The only way to know the buncher's limitations is by testing them occasionally. It is bad news when you find out that you can't quite get that big tree cut off and end up splitting it!

Mechanical cutting removes more bark from the logs than hand cutting. This is especially true during the spring and summer months when the tree is growing, and the bark is loose. Bark is a sawmill by-product, so it may seem efficient to leave it at the woods instead of hauling that extra weight to the mill. But bark is like a protective skin that keeps the wood from drying and cracking; therefore, it is better left on. Veneer logs are likely to sell better when the bark is intact; even if they are fresh, they simply look more attractive with the bark on.

A friend told me that when chainsaws first came on the scene, his grandfather lamented about how much wood was wasted due to the wider chainsaw kerf compared to crosscut saws. Imagine what his grandfather would say if he saw the kerf carved out by a Quadco! While a 1¾" kerf at the stump and at the top is not terribly significant, it is wasted wood.

At certain times of the year, a downside of mechanical cutting is excessive bark removal.

Sometimes you can cheat and fell big trees without cleanly cutting them off—like this Cottonwood. This is too risky to attempt on valuable trees.

Multi-Stemmed Trees

Last month, I said that a benefit of mechanical cutting is the ability to fell multi-stemmed trees into a single opening. This is true, but is possible only up to a certain size. Big doubles and triples are difficult to cut since you cannot access them from both the front and back. Sometimes it is necessary to hand cut the first half of a double, which is fun since there is nearly always dirt or coons—or both—between the two halves.

Mental Fatigue

Hand cutting causes physical fatigue while mechanical cutting causes mental exhaustion. This may be hard to understand, but I think it has to do with the number of decisions an operator is making in a day's time. A good operator must be alert and constantly scrutinizing his surroundings to be efficient and careful. When you cut twice as many trees per day, you must make at least twice as many decisions per day.

Transportation

Moving a 75,000-lb. machine from job to job is challenging and can be a headache due to its oversize, overweight, and over-height load. Indiana and Michigan require single-trip permits for each move over state roads or US highways. These permits are not too expensive, but they are route specific and need state approval. Road construction and road closures are especially problematic during the summer, often requiring a circuitous route. With a gross weight of 125,000 lbs., I am maxed out on allowable axle weight with a three-axle tractor and a tri-axle lowboy.

I prefer to move equipment myself so that I can move when I need to, although navigating narrow back roads, especially if traffic is heavy, is stressful. It's often impossible to get the lowboy off the road to unload equipment. I sometimes lay out tire sidewalls to save the asphalt from track damage, but it's not always 100% effective. In short, transporting a buncher is significantly more complicated and more expensive than transporting chainsaws.

I have tried to be open about the pros and cons of mechanical cutting as I've experienced them. I acknowledge that methods and conditions vary considerably across the country, and I'm sure there are some aspects I have not experienced or may have forgotten to include. While mechanical harvesting has worked well for us, it is not the proverbial "silver bullet."

Transporting a feller buncher is much more complicated and expensive than transporting chainsaws.

Ethan Royer, of Royer Timber, lives with his family in northern Indiana and provides logging services in northern Indiana and southern Michigan. He can be reached at 574.849.0867.

Logger Rescue Training

Several weeks ago we participated in a Logger Rescue Training with our local Fire & Ambulance Company. The training occurred on one of our active logging sites. We had two victims. One was a live victim with supposedly a deep cut to his leg (the makeup looked real, complete with red fluid that was oozing out of the wound). The other was a manikin pinned under a tree.

One of the EMS guys and I, along with the feller buncher operator assisting, set up the scene while the crew was on break. Both victims were about 300 yards from the landing, some hidden by branches and logging debris. They were about one hundred yards apart.

We then signaled the logging crew to start with the rescue effort as if one of the victims called for help. Some of the crew members went to search for the victims while someone else called one of the EMS guys acting as a 911 dispatcher (we provided his cell number prior). The EMS guy then radioed the fire and ambulance crews with a private channel. Meanwhile, once the crew located the victims, they worked on improving access to the victims and also provided directions and assistance to the first responders.

After the victims were extracted, we attended the debriefing at the fire hall. Following are some of the things we learned...

(A) Ideally, the person calling for help should be able to provide the municipality the accident happened in, along with the complete address and the nearest intersections on each end of the road where the scene is. Crew members should have all that information on their job spec sheet.

(B) If possible, someone should take charge of the situation.

(C) When one of the logging crew located the victim with the cut, they applied a makeshift tourniquet, then left him alone and focused on the manikin victim. We were told you should never leave a victim by himself unless it is absolutely necessary.

(D) Never attempt to lift the object off the person that is pinned unless it is done within a minute. They explained that a type of acid can build up that needs to be treated with medication prior to the victim being released from the object, otherwise the victim could go into shock or cardiac arrest.

(E) Any type of rescue or emergency situation is subjected to confusion. Radios tend to fail, directions can get confused, etc.

Overall, the training was a success. The logging crew actually enjoyed it and the fire company expressed gratitude for providing the opportunity. Consider contacting your local fire company to set up a training for your area and normal operations.

My biggest fear is a botched rescue. Not necessarily just as a result of the logging crew, but the first responders as well. They, after all, are only human, performing a rescue in a hostile environment.

The Cost of Waiting: Why Idle Sawmill Equipment Loses Value Fast

By Loren Beachy, President, Bright Star Auctions

The call came in like many others we field at Bright Star Auctions. A sawmill owner in eastern North Carolina had finally decided it was time to liquidate. His operation had been shut down for six years, and now he was ready to sell.

Six years. That's enough time to watch your children go from 3rd grade to graduating school, or apparently, to watch \$400,000 worth of sawmill equipment turn into something considerably less impressive.

When we'd first evaluated his setup years earlier, we'd projected the sawmill itself would fetch around \$400,000. It was a substantial operation with quality equipment. But those six years of sitting idle had taken their toll in ways the owner hadn't anticipated.

By the time we auctioned the equipment, buyers were understandably cautious. Six years is a long time for machinery to sit unused. Seals dry out, rust creeps in, and technology marches forward. The sawmill ended up selling for about a third of what we'd originally projected.

This painful lesson illustrates a truth we've seen play out repeatedly: idle equipment depreciates far faster than operating equipment. The longer equipment sits, the less buyers are willing to pay for it.

The Numbers Tell the Story

Consider another example from western New York. A medium-sized sawmill shut down production and did nothing with the equipment for four years. When we finally liquidated it, their rolling stock that they'd still been using sold well and helped the overall results. But their sawmill setup? Steeply discounted, with far less buyer interest than there would have been if they'd acted quickly.

Now flip to the opposite scenario. A small sawmill in Turbotville, Pennsylvania called us immediately after shutting down. Same marketing approach, same auction methods. The difference? Their results came in two-thirds higher than we'd projected. Fresh equipment that buyers knew had been recently running commanded premium prices.

Glenmont, Ohio tells a similar story. This mill shut down and immediately scheduled a virtual liquidation with us. We marketed the equipment through all our usual channels - print ads, digital campaigns, the BidBook, our targeted buyer lists. The equipment was fresh and recently used. Buyers felt comfortable with it. We ended up exceeding our original projections by 5%, and the seller walked away happy.

Why Buyers Hesitate

Put yourself in a buyer's shoes for a moment. You're looking at two similar band mills. One has been running until last month. The other has been sitting in a shed for three years, quietly contemplating its existence and possibly rusting in interesting patterns. Which one are you more confident will start up without problems? Which one feels like less of a gamble?

Buyers worry about equipment that's been sitting. Did moisture get in somewhere? Are there hidden issues that only show up when you try to fire it back up? Has critical technology moved forward, making this machine harder to service or less efficient? Will it start with a reassuring hum or a concerning clank? These concerns translate directly into lower bids.

The market feels this hesitation even more acutely during slower periods. In a booming market, buyers might overlook concerns about idle time. But when markets cool, that equipment that's been sitting becomes an even harder sell.

The Sunk Cost Trap

Business owners often fall into what economists call the sunk cost fallacy. "The market feels soft right now," they reason. "I'll wait for prices to improve before I sell."

But here's what this thinking misses: while you're waiting for equipment values to recover, that equipment is losing value every month it sits. It's like trying to time the stock market, except your stock is literally rusting. Meanwhile, if you sold now and invested that money into something productive, that investment could be growing.

Let's say the market is indeed down and you'd get 20% less for your equipment today than you would have gotten last year. That's painful. But if you wait another two years hoping for recovery, you might find yourself getting 40% less because the equipment sat idle for so long.

Here's another angle to consider: if the market is down and you're getting 20% less for your equipment, you can likely buy other equipment for 20% less as well. Equipment that you can actually use. Equipment that can generate income for you. The down market that's hurting your sale price is also creating buying opportunities for productive assets.

Add in the carrying costs and the picture gets worse. That equipment is taking up valuable space. If you're paying interest on it, it's costing you money every month. Could that floor space be generating income in another way?

Space, Interest, and Opportunity

When sawmill owners contemplate liquidation, they often focus solely on equipment values. They overlook three significant costs of waiting. First, the space that equipment occupies. Could those square feet house a different operation? Could you lease them out? The longer equipment sits, the longer you're giving up those opportunities.

Second, if you're carrying debt on that equipment, the interest clock keeps ticking. Equipment that's generating no revenue but costing you interest payments is actively draining your business. Third, the opportunity cost of the capital tied up in that equipment. Even if it's paid off, those dollars could be working for you elsewhere. Invested wisely, that capital could be appreciating while your idle equipment depreciates.

Debarker that had been idle for six years from the mill in Eastern North Carolina

Cleereman Carriage from western New York: Idle four years

Moving Forward

If you're contemplating liquidating sawmill equipment, the message is clear: don't wait. Market timing is difficult, but equipment depreciation from sitting idle is predictable. Fresh, recently-used equipment consistently commands better prices than equipment that's been mothballed.

We've seen it play out dozens of times. The sawmill that acts quickly gets strong results. The one that waits and hopes for better market conditions ends up disappointed. Yes, liquidating equipment represents the end of a chapter. That can be emotionally difficult, especially if you've built the operation from nothing. But delaying doesn't make that transition easier. It just makes it more expensive.

The best time to liquidate? When the equipment is still fresh, when you can tell buyers "this was running last month," when you're not asking buyers to take a leap of faith about whether everything still works.

If you're sitting on idle sawmill equipment and you've been putting off the decision, I'd encourage you to at least explore your options. The reward for acting quickly may be higher than you realize.

For anyone considering liquidation of sawmill equipment, we'd be happy to discuss your situation and help you understand your options. You can reach us at Bright Star Auctions at 574-825-0704 or through our website at brightstarauctions.com.

1984 Cornell Gang Edger Combo from Turbotville PA: This 41-year old machine was freshly shut down and still sold well at \$9,000

Roll case from the Glenmont Ohio mill: Fresh out of production and sold for \$5,000

Bright Star Auctions works for sellers of sawmill, logging, woodworking equipment, and real estate around the country. Bright Star has sold millions of dollars of equipment and real estate around the country and has probably dealt with many situations much like yours. Eugene would be happy to meet with you, discuss your situation, and present you with options. Whether it is arranging a cash buyout by a retailer or conducting an auction, the team at Bright Star keeps your best interests in mind, and then lets you make the decision. Their mission is: Showing Christ to the World by Delivering the Most Accessible Heavy Equipment Auctions. Loren Beachy serves as president of the company. For a free consultation, call Vice-President Eugene Hochstetler at 574.825.0704.

WoodRing

Online & Phone Bidding Only

Date: July 13th

Auction start time: 9 AM ET

For phone bidding, please register during the week prior to the auction if possible by calling 574.825.0704 ext 5

The number of loads is subject to change based on sellers' cutting schedules and available stock. All wood is freshly cut the week before the auction. Final load counts are typically available by the Friday prior to auction day. This auction offers a unique opportunity to purchase high-quality notched #1 grade pallet stringers by the truckload. With at least 10 truckloads available, it's an excellent chance to secure bulk quantities at competitive prices. This virtual absolute auction provides a convenient and efficient way for buyers to meet their lumber needs.

Auction Specialist: Jonathon Miller, 574-821-7530.

Preview & Inspection: Buyers are responsible to do their own inspection to determine the condition of the items they purchase. Inspections times are available as follows: Preview times are available by appointment or based on the lot locations. See the Information lot for each site.

Loadout Information: Loadout details may vary based on the location of the item. Please see the information lot for each location or the lot details. Call Nathaniel with US Logistics/ Showcase Shipping for all of your shipping needs, 570-660-4246. To help avoid confusion, please make sure the Trucking Broker and/or the Truck Driver has a copy of your invoice and schedules an appointment before he arrives to pick up your items.

Payment Information: Payment terms: 6% sales tax, unless otherwise noted. 5% Online Buyer's Premium in affect for all purchases. Cash, check, wire transfer. Cash Payments totaling \$10,000 or more will not be accepted. All payments are due immediately upon receipt of your invoice.

Have online access? You can also bid online at brightstarauctions.com.

INFORMATION LOT Fairview Woodyard

The following 8 lots are sourced from Fairview Woodyard, an established sawmill operation established in 1990 and located in Fairview, Michigan. Operating with a team of approximately nine employees, the company produces around 225,000 board feet per week, supplying industrial lumber products to pallet and wood product markets. Fairview Woodyard has built a reputation for consistent output and dependable supply, supported by hands-on ownership and decades of industry experience. Strategically positioned in northern Michigan's timber region, the operation serves regional and multi-state customers requiring reliable hardwood and softwood production.

Online & Phone Bidding Only!

In House Specialist - Myron Nissley - 574.564.6453

This auction provides an excellent opportunity to purchase high-quality pallet pre-cuts in bulk. Each sale will feature up to 10 semi-loads of premium cut stock lumber, supplied by a trusted source and ideal for pallet manufacturers and regional distributors. While specific inventory will vary from sale to sale, buyers can expect notched #1-grade stringers with a 99% usability rate - perfect for restocking at competitive prices. These auctions are conducted weekly, and all items sell absolute with no reserves. For an updated catalog and full details, please call our office at (574) 622-8898, closer to the auction date.

We are also actively seeking more sawmills that want to increase production to help meet our growing buyer demand. If you have cut stock lumber or related materials to sell, we'd love to talk. Our team can help you reach a national audience and turn your inventory into cash - quickly and effectively.

**Got Lumber?

- October 5th

BRIGHT STAR
AUCTIONS

AC32100007 (574) 825-0704

Selling my cut stock lumber through Bright Star's Premium Cut Auction has been a turning point for my business. The process is straightforward and reliable—I know exactly when my lumber will sell, and I always get paid within a week. Bright Star's marketing puts my products in front of serious buyers nationwide, and I've consistently seen strong prices and quick sales. Since partnering with Bright Star, I've reached new customers, moved more inventory, and grown my business. If you want a hassle-free way to sell your lumber and expand your reach, I highly recommend their auction. - John Gusler, Fairview Woodyard, Fairview, MI

WoodRing

Online & Phone Bidding Only

Date: July 20th

Auction start time: 9 AM ET

For phone bidding, please register during the week prior to the auction if possible by calling 574.825.0704 ext 5

The number of loads is subject to change based on sellers' cutting schedules and available stock. All wood is freshly cut the week before the auction. Final load counts are typically available by the Friday prior to auction day. This auction offers a unique opportunity to purchase high-quality notched #1 grade pallet stringers by the truckload. With at least 10 truckloads available, it's an excellent chance to secure bulk quantities at competitive prices. This virtual absolute auction provides a convenient and efficient way for buyers to meet their lumber needs.

Auction Specialist: Noah Yoder 574.821.2801

Payment Information: Payment terms: 6% sales tax, unless otherwise noted. 5% Online Buyer's Premium in affect for all purchases. Cash, check, wire transfer. Cash Payments totaling \$10,000 or more will not be accepted. All payments are due immediately upon receipt of your invoice.

Have online access? You can also bid online at brightstarauctions.com.

INFORMATION LOT Fairview Woodyard

The following 8 lots are sourced from Fairview Woodyard, an established sawmill operation established in 1990 and located in Fairview, Michigan. Operating with a team of approximately nine employees, the company produces around 225,000 board feet per week, supplying industrial lumber products to pallet and wood product markets. Fairview Woodyard has built a reputation for consistent output and dependable supply, supported by hands-on ownership and decades of industry experience. Strategically positioned in northern Michigan's timber region, the operation serves regional and multi-state customers requiring reliable hardwood and softwood production.

INFORMATION LOT

Commonwealth Forest Products

Commonwealth Forest Products – Amelia Court House, Virginia Commonwealth Forest Products was established in the fall of 2020 and began full-time operations by December of that year. The company initially focused on cutting pine cants, side boards, and fulfilling select custom orders, including materials for horse barns. Moving forward, Commonwealth Forest Products is expanding its production into bridge timbers and pallet runners, with continued emphasis on cutting both pine and hardwood lumber.

Online & Phone Bidding Only!

In House Specialist - Myron Nissley - 574.564.6453

This auction provides an excellent opportunity to purchase high-quality pallet pre-cuts in bulk. Each sale will feature up to 10 semi-loads of premium cut stock lumber, supplied by a trusted source and ideal for pallet manufacturers and regional distributors. While specific inventory will vary from sale to sale, buyers can expect notched #1-grade stringers with a 99% usability rate - perfect for restocking at competitive prices. These auctions are conducted weekly, and all items sell absolute with no reserves. For an updated catalog and full details, please call our office at (574) 622-8898, closer to the auction date.

We are also actively seeking more sawmills that want to increase production to help meet our growing buyer demand. If you have cut stock lumber or related materials to sell, we'd love to talk. Our team can help you reach a national audience and turn your inventory into cash - quickly and effectively.

**Got Lumber?

- July 20th
- July 27th
- August 3rd
- August 10th
- August 17th
- August 24th
- August 31st
- September 14th
- September 21st
- September 28th
- October 5th

BRIGHT STAR
AUCTIONS

AC32100007 (574) 825-0704

Selling my cut stock lumber through Bright Star's Premium Cut Auction has been a turning point for my business. The process is straightforward and reliable—I know exactly when my lumber will sell, and I always get paid within a week. Bright Star's marketing puts my products in front of serious buyers nationwide, and I've consistently seen strong prices and quick sales. Since partnering with Bright Star, I've reached new customers, moved more inventory, and grown my business. If you want a hassle-free way to sell your lumber and expand your reach, I highly recommend their auction. - John Gusler, Fairview Woodyard, Fairview, MI

("Auctioneer")

Bidder Terms and Conditions

There is a 13% online buyer's premium in effect for all purchases made online. Buyer's premium is 10% for onsite bidders. All items sell where is as is with no warranties or guarantees. Buyer is responsible to inspect all merchandise prior to placing bids. Payment terms: Cash, check, wire transfer. Cash Payments totaling \$10,000 or more will not be accepted. Credit cards are only accepted on invoices with a total of less than \$2500. All payments are due immediately upon receipt of your invoice. Onsite buyers, payment is due the day of the auction. If onsite bidders wish to send a wire and still be assessed only the onsite buyer's premium, they must present a bank letter of credit (with limit stated equal to or higher than the amount owed by bidder) and wire must be sent no later than one business day after the auction. All items are pick-up only. Smalls must be removed within 2 days. All items must be removed within 30 days unless otherwise noted. Loadout available day of auction, after that by appointment. Please call agent for more info. Buyer shall assume responsibility of all property when auctioneer says sold. Auction company is not responsible for any missing or stolen items.

These Bidder Terms and Conditions ("**Terms**") apply to auctions conducted by BRIGHT STAR REALTY AND AUCTIONS, LLC and constitute a legal, valid, binding, and enforceable contract between Auctioneer and the Bidder. These Terms also form the basis for the final contract of sale between the Seller and the Buyer.

1. **Auctions Conducted Under These Terms.** The Auction is conducted under and in accordance with these Terms, the Terms posted on Auctioneer's website, applicable law, and any announcements or corrections made by Auctioneer during the Auction. By participating in the Auction, whether at the auction site, online, telephonically, or through any other means (including Absentee Bid), Bidder agrees to be bound by, and to abide by, these Terms.

Auctioneer's Licensing and Bonding. Auctioneer is licensed and bonded where required.

2. **Definitions.** The following definitions apply to these Bidder Terms for each auction conducted by Auctioneer:

"Absentee Bid" means a bid submitted in advance by an Absentee Bidder for the execution during the Auction.

"Absentee Bidder" means a person or entity that submits an Absentee Bid.

"Absolute Auction" or "Absolute" applies only if and when expressly indicated and means that property is to be sold to the highest bidder regardless of the amount of the final bid, with no limiting conditions, restrictions, or reservations. UNLESS SPECIFICALLY AND EXPRESSLY STATED BY AUCTIONEER IN WRITING, NO PROPERTY IS BEING SOLD ABSOLUTE OR AT AN ABSOLUTE AUCTION.

"Auction" means the auction sale at which Auctioneer solicits bids, or is scheduled to solicit bids.

"Auction Site" means the physical location of the Auction, or, for an Auction conducted entirely online, the location at which Property may be inspected.

"Bidder Number" means the number or other identifier issued by Auctioneer to a Registered Bidder for the purposes of identifying bids to such Registered Bidder.

"Bidder Registration" means the information provided by a prospective Bidder, and the process of registering such prospective Bidder, to bid at the Auction, including the prospective Bidder's agreement to be bound by these Bidder Terms.

"Broker Participation Fee" means an amount that is paid to a broker who has participated in procuring a Buyer, or has otherwise assisted in facilitating the sale of Property at the Auction, under the Terms and in the amount established by Auctioneer.

"Buyer" means the Winning Bidder with respect to each Lot of Personal Property.

"Buyer's Premium" is an amount with respect to each Lot of Personal Property sold at the Auction, calculated as a percentage of the Hammer Price, that is payable by the Buyer to Auctioneer for Auctioneer's own account.

"Fall of the Hammer" means the point, after bids have been received, at which Auctioneer declares a Lot of Personal Property "sold" to Bidder acknowledged by Auctioneer as having made the Winning Bid. During an auction that is exclusively online, the Fall of the Hammer will occur electronically at the end of timed (or extended) bidding. In an auction that is Subject to Seller's Confirmation, the Fall of the Hammer will occur on Seller's Confirmation of the High Bid Subject to Confirmation.

"Hammer Price" means the high bid amount recognized by Auctioneer with the Fall of the Hammer.

"High Bid" means the high bid amount recognized by Auctioneer at the conclusion of bidding on a Lot.

"High Bid Subject to Confirmation" means the High Bid amount recognized by Auctioneer at the conclusion of bidding on the Lot put up at Auction Subject to Seller's Confirmation. If the High Bid Subject to Confirmation is confirmed by Seller, it will be the Hammer Price.

"High Bidder" means the Bidder recognized by Auctioneer as having made the High Bid with respect to a Lot.

"Knocked Down" or "Knock Down" means, with respect to any Property put up at the Auction, that Auctioneer has acknowledged the Winning Bid with the Fall of the Hammer, or by announcing "sold", or by giving a similar such indication. Property may be Knocked Down electronically at the conclusion of a timed online auction event.

"Lot" means each individual item or grouping of Personal Property offered at one time by Auctioneer.

"No Sale" occurs if Property is put up at the Auction but is not Knocked Down or sold, and Auctioneer passes on such Property or declares a No Sale.

"Online Auction Platform" means the hardware and software utilized to conduct the Auction online and to facilitate online bidding, including any associated, adjunct, and/or complementary websites, services, premiums and promotions.

"Online Auction Platform Provider" means the provider of the Online Auction Platform and related services to conduct Auction online.

"Online Bidding Period" means, with respect to an Auction conducted in whole or in part online, any established period during which bids may be tendered.

"Participant" means any person who attends, or otherwise participates in, the Auction (in person or remotely). The term Participant includes, but is not limited to, Registered Bidders, Bidder, and Buyers.

Bidder Terms and Conditions Continued...

- “Personal Property” means all tangible and moveable property, including fixtures, designated as Property.
- “Pick-up” means the act of picking up or removing sold Lots by respective Winning Bidders at the date(s), time(s), and location indicated for such during the Auction or as later agreed to by Seller and Buyer.
- “Private Sale” means an event in which Property is sold by Seller, or on Seller’s behalf, other than at the Auction (including a sale at an auction conducted by a person or entity other than Auctioneer).
- “Private Sale Price” means the fair market purchase price of the Property paid, or agreed to, at a Private Sale in an arms-length transaction between Seller and the purchaser of the Property. If the Property is sold through a Private Sale for less than its fair market value, or in a transaction that is not an arms-length transaction, or is gifted by Seller, the Private Sale Price will be an amount equal to the fair market value of the Property in an arms-length transaction.
- “Property” means the Real Property and the Personal Property.
- “Purchase Price” means an amount equal to the Hammer Price or High Bid Subject to Confirmation, as the case may be, plus the Buyer’s Premium.
- “Registered Bidder” means a person or entity that has registered to bid at the Auction.
- “Registration Deposit” means, if required by Auctioneer, the deposit, in certified funds, made by a Registered Bidder in order to register for the Auction.
- “Reserve” or “With Reserve” means that the Auctioneer may Withdraw Property put up at Auction and/or bids may be rejected prior to the Fall of the Hammer. UNLESS SPECIFICALLY AND EXPRESSLY STATED OTHERWISE BY AUCTIONEER IN WRITING, ALL PROPERTY IS BEING WITH RESERVE.**
- “Reserve Price” means the minimum price that Seller is willing to accept for specific Property.
- “Seller’s Confirmation” means Seller’s confirmation, approval, and acceptance of the High Bid Subject to Confirmation acknowledged and recorded by Auctioneer.
- “Subject to Seller’s Confirmation” means, with respect to any Property expressly identified in this Agreement as being sold Subject to Seller’s Confirmation, that after the High Bid Subject to Seller’s Confirmation has been received and acknowledged by Auctioneer, Seller may determine, in Seller’s sole and absolute discretion, to (i) accept such bid or (ii) reject such bid.
- “Winning Bid” means the highest bid received and accepted (and if Subject to Seller’s Confirmation, confirmed by Seller).
- “Winning Bidder” means the Bidder who is recognized by Auctioneer as having made the Winning Bid.
- “Withdraw” refers to the circumstance in which the Property is removed from the Auction, or in which it is determined that such Property will not be offered or sold at the Auction.
3. **Bidder Registration.** All persons desiring to bid at the Auction, must register to bid and be issued a Bidder Number. In order to register to bid, each potential Bidder must provide such information (including identifying information and qualifications) as requested by Auctioneer. Auctioneer may refuse to accept a Bidder Registration from any potential Bidder, may refuse to issue a Bidder Number to any potential Bidder, and, if a Registered Bidder breaches any Bidder Terms or engages in improper conduct, Auctioneer may revoke any Bidder Number. By registering to bid at the Auction, each Registered Bidder acknowledges and agrees that such Registered Bidder has read, understands, and agrees to be bound by, these Bidder Terms. In Auctioneer’s discretion, bids may be received from a person who has not registered to bid, and by placing a bid accepted by Auctioneer such unregistered Bidder will be bound by these Bidder Terms and will immediately complete a Bidder Registration.
4. **Governing Law.**
- 1.1 **For Auctions in the State of Indiana and Online.** Unless otherwise indicated, all Property is offered for sale in the State of Indiana, and will be sold in the State of Indiana. Notwithstanding the physical location of the Bidder or any Participant, these Terms are deemed to be entered into in the State of Indiana, all bids and payments are deemed to be received in the State of Indiana, and the contract, if any, will be deemed to be formed and entered into in the State of Indiana.
5. **Buyer’s Premium.** All Property offered at the Auction is subject to a Buyer’s Premium, which will be paid by the Buyer to Auctioneer for Auctioneer’s own account. The Buyer’s Premium will be calculated as a percentage of the Hammer Price, and will be added to the Hammer Price to determine the final Purchase Price. Buyer agrees to pay the Winning Bid plus the applicable Buyer’s Premium.
6. **Access to Auction Site.** Participants assume all risks associated with their presence at the Auction Site or their access to the online bidding platform utilized by Auctioneer. Any person may be denied access to the Auction, the Auction Site, and the online bidding platform utilized by Auctioneer, and may be removed at Auctioneer’s discretion.
7. **Nature of the Auction.** This Property is being sold at the Auction in the manner indicated on the first page of this Agreement.
8. **Bidding.** Registered Bidders may only bid at the Auction by agreeing to be bound by these Bidder Terms. By bidding, each Registered Bidder acknowledges and agrees that such Registered Bidder has had a full and fair opportunity to read, and understands, these Bidder Terms, and affirms that such Registered Bidder is subject to and bound by these Bidder Terms.
9. **No Bid Retraction.** Bidder may not retract a bid that has been acknowledged by Auctioneer or that has been submitted online. Bidder acknowledges and agrees that Auctioneer is acting in reliance on tendered bids in the conduct of the Auction, and that bid retraction is disruptive and interferes with the Auction, and that, as an inducement for Auctioneer to accept such Bidder’s Bidder Registration and for such Bidder to bid at the Auction, Bidder agrees not to withdraw or to attempt to withdraw any tendered bid that has been acknowledged by Auctioneer.
10. **Online Auction.** The following terms and conditions apply if the Auction is conducted, in whole or in part, online:
- 10.1. **Online Bidding Registration.** Anyone desiring to bid online, or to establish the possibility of bidding online, will be required to create an online bidding account by completing all necessary forms and providing required information.
- 10.2. **Bidder Terms and Conditions; Notices and Announcements.** The Auction will be conducted in accordance with Auctioneer’s Terms and any notices or announcements by Auctioneer and/or posted on Auctioneer’s website.
- 10.3. **Posted Times.** All times are based on the Eastern Standard Time zone unless stated otherwise. Posted closing times and time displays are approximate. Auctioneer reserves the right to close early or extend the Auction at any time at Auctioneer’s sole and absolute discretion.

Bidder Terms and Conditions Continued...

- 10.4. **Online Bidding Increments.** Auctioneer may establish bid increments, and may modify or change bid increments, in Auctioneer's sole and absolute discretion.
- 10.5. **Records of Online Activity.** Absent clerical errors, Auctioneer's records will be deemed final and conclusive.
- 10.6. **Technology Disruptions.** Auctioneer will not be responsible for technology disruptions, errors, or failures (including disruptions to bidding or the failure to execute, recognize, or record online bids), whether caused by (i) loss of connectivity, breakdown, disruption, or failure of the Online Auction Platform, (ii) breakdown, disruption, or failure of a Bidder's internet connection, computer, or system, (iii) viruses or software malfunction, or (iv) otherwise. Auctioneer may, but will not be required to, continue, suspend, delay, extend, reschedule, or close the Auction because of disruptions caused by technology failures, even after bidding has commenced.
- 10.7. **Failures by Online Auction Platform Provider and its Affiliates or Contractors.** Auctioneer may use an Online Auction Platform Provider to facilitate the Auction. Under no circumstances will Auctioneer be liable for any failure of the Online Auction Platform Provider to perform all or any of its obligations, or for the failure of any affiliates, employees, agents, representatives, or contractors of the Online Auction Platform Provider to perform their obligations.
- 10.8. **Auto Extend Feature.** Any Online Bidding Period may include an auto extend feature. This means that, if an online bid is entered within a set time period approaching the end of the established Online Bidding Period, the Online Bidding Period will automatically be extended for an additional amount of time in increments established by Auctioneer, and will continue to be so extended until there is a set period of time that lapses during which no online bids are received, after which bidding will close.
- 10.9. **Disclaimer.** Auctioneer makes no representations or warranties, and disclaims any representations or warranties, (i) that the Online Auction Platform or any related website or technology will be uninterrupted, error free or virus free, (ii) as to the results that may be obtained by using the Online Auction Platform or any related website or technology, or (iii) as to the accuracy, completeness, reliability, security, or current nature of the Online Auction Platform or any related website technology.
- 10.10. **Responsibility for Online Bids.** If a Winning Bid is sent to Auctioneer from the computer of a Registered Bidder, and is, thereafter, confirmed by Seller, such Registered Bidder will be the Buyer.
- 10.11. **No Reduction or Retraction of Online Bids.** Online bids may not be reduced or retracted.
- 10.12. **Competing Online and Onsite Bids.** In the event of contemporaneously made online and onsite bids, Auctioneer will determine which bid is the successful bid, and may, in Auctioneer's discretion, reopen the bidding.
- 10.13. **Winning Bidders Subject to Certification by Auctioneer.** The final determination of the Winning Bidder is subject to certification by Auctioneer; and any email or electronic message (whether generated manually or automatically) is subject to such certification.
11. **Absentee Bids; Remote Bidding.** In Auctioneer's discretion, Auctioneer may receive Absentee Bids and/or bids tendered by remote Bidders (whether telephonically or otherwise). All prebids and maxbids placed online are considered absentee bids. Auctioneer pledges complete integrity in the treatment of absentee bids and absentee bids may be initiated and advanced in accordance with Auctioneer's policies and procedures. Auctioneer has the right to initiate any absentee bids at 25% to 50% of their maximum amount. Auctioneer will make reasonable efforts to execute Absentee Bids, but Auctioneer will have no liability to any Absentee Bidder for the failure to execute any Absentee Bids for any reason whatsoever. Each Absentee Bidder acknowledges and agrees that Property may be sold to another Bidder for the maximum amount of the Absentee Bid based on a bidding sequence that causes another Bidder to reach such amount first. If the execution of an Absentee Bid at its maximum amount would require Auctioneer to accept a bid that is less than a full bidding increment, Auctioneer has the sole and absolute discretion to accept or reject such bid. An Absentee Bidder may provide instructions to the Auctioneer to advance the bid by one or more bidding increments after the maximum amount of the Absentee Bid is, or would be, reached. Auctioneer acts only as the agent of the Seller, and the receipt and/or execution of Absentee Bids will not create an agency relationship between Auctioneer and any Absentee Bidder.
12. **Bid Increments.** Bid increments are established and controlled by Auctioneer, and may be adjusted or modified in Auctioneer's sole and absolute discretion.
13. **Registered Bidders Responsible for Bids Placed on Bidder Number.** Each Registered Bidder is responsible for the Bidder Number issued to such Registered Bidder. Auctioneer is not responsible for monitoring or policing the use of Bidder Numbers, and each Registered Bidder is responsible for all bids made on the Bidder Number issued to such Registered Bidder even if the Registered Bidder claims that the Bidder Number was lost, stolen, or misappropriated, unless notice of a lost, stolen, or misappropriated Bidder Number was provided to Auctioneer prior to an unauthorized bid being made. Absent a clerical error, Auctioneer's recording of bids against a Bidder Number will be conclusive as to the making of such bid by, or on behalf of, the Registered Bidder.
14. **Withdrawal of Property.** Auctioneer has the absolute right to withdraw any Property from the Auction prior to the Fall of the Hammer, unless the Property is explicitly provided that the Property is being sold at an Absolute Auction.
15. **Winning Bid; Buyer.** Pursuant to these Bidder Terms, the Bidder making the Winning Bid for any Lot of Personal Property will be the Buyer of such Property.
16. **All Property Sold "AS IS", "WHERE IS", and "WITH ALL FAULTS".** ALL PROPERTY IS BEING OFFERED AND SOLD IN ITS AS IS/WHERE IS CONDITION AT THE TIME OF THE AUCTION, WITH ALL FAULTS, INCLUDING ANY HIDDEN DEFECTS OF ANY NATURE. NEITHER AUCTIONEER NOR SELLER MAKES ANY REPRESENTATIONS, WARRANTIES, OR GUARANTEES WHATSOEVER, EXPRESS OR IMPLIED, REGARDING THE NATURE, VALUE, SOURCE, AUTHENTICITY, FITNESS, MERCHANTABILITY, AND/OR ANY OTHER ASPECT OR CHARACTERISTICS OF SUCH PROPERTY. NO STATEMENT ANYWHERE, WHETHER EXPRESS OR IMPLIED, INCLUDING VERBAL STATEMENTS MADE BY AUCTIONEER, WILL BE DEEMED A WARRANTY OR REPRESENTATION BY AUCTIONEER OR SELLER. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, THERE ARE NO WARRANTIES OF TITLE, NON-INFRINGEMENT, AUTHENTICITY,

Bidder Terms and Conditions Continued...

ORIGIN, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE, ALL OF WHICH ARE EXPRESSLY DISCLAIMED. EACH BIDDER ACKNOWLEDGES AND AGREES THAT HE, SHE, OR IT CANNOT RELY, AND HAS NOT RELIED, ON ANY REPRESENTATION, WARRANTY, OR GUARANTY MADE BY THE SELLER OR ANYONE ACTING AS AGENT OF THE SELLER, ORALLY OR IN WRITING, ABOUT THE PROPERTY, OR ANY OF IT. BY BIDDING, EACH BIDDER ACKNOWLEDGES AND AGREES THAT SUCH BIDDER HAS HAD A FULL AND FAIR OPPORTUNITY TO INSPECT THE PROPERTY, AND IS RELYING SOLELY ON, OR HAS WAIVED, SUCH BIDDER'S INSPECTION AND INVESTIGATION (i) IN DETERMINING WHETHER TO BID, (ii) IN DETERMINING THE AMOUNT OF A BID, AND (iii) IN BIDDING.

17. **Announcements.** Subject to the limitation set forth in these Bidder Terms, all terms and conditions and other announcements made by Auctioneer on the day of the Auction are binding and take precedence over any advertisements or listings.
18. **Bidder's Inspection.** By bidding, each Bidder acknowledges and agrees that such Bidder has had a full and fair opportunity to inspect the Property, and is relying solely on, or has waived, such Bidder's inspection and investigation (i) in determining whether to bid, (ii) in determining the amount of a bid, and (iii) in bidding. Bidder accepts any and all risks associated with the purchase and/or use of the Property. Bidder agrees to defend, hold harmless, indemnify, and protect both Auctioneer and Seller from any all claims of injury arising out of or relating to the purchase or use of the Property.
19. **Description of Property.** Unless otherwise expressly stated otherwise in writing, any description of Property is based solely on visual impression, and is given solely for identification purposes, and does not create any warranty, expressed or implied, or representation by Auctioneer.
20. **Contract of Sale for Personal Property.** By operation of these Terms, no additional or further writing will be required to evidence the existence of a contract of sale for any Personal Property Knocked-Down at the Auction regardless of the Purchase Price, and these Bidder Terms, together with Auctioneer's clerking sheets or other physical or digital notation identifying the Lot, the Hammer Price, and the Buyer, will be conclusive evidence as to the terms of the sale. These Bidder Terms will be incorporated into the contract between each Buyer and Seller.
21. **Bidding by or on Behalf of Seller.** At an Absolute Auction there is no Seller bidding. The Seller or anyone acting on the Seller's behalf will not bid (directly or indirectly) on any Property put up at Absolute Auction. At a Reserve Auction, the Seller or anyone acting on the Seller's behalf will not bid (directly or indirectly) on any Property put up at Reserve Auction, unless the Auctioneer announces and discloses that the Seller (or someone on behalf of the Seller) will be bidding at the Auction.
22. **Conduct of the Auction.** Auctioneer will regulate all matters relating to the conduct of the Auction and Auctioneer's decisions will be final and binding. Auctioneer will have control over bidding, and Auctioneer will resolve any and all disputes. If (i) a bid is made while the hammer is falling in acceptance of a prior bid or while bidding is otherwise being terminated, or (ii) promptly after the Fall of the Hammer or other termination of the bidding Auctioneer is made aware of a bid that was unnotified prior to the Fall of the Hammer or other termination of the bidding, and it is demonstrated to Auctioneer's satisfaction that such bid was, in fact, timely made, or (iii) promptly after the Fall of the Hammer or other termination of the bidding Auctioneer is made aware that Auctioneer and a bid assistant or ringman, or multiple bid assistants or ringmen, have acknowledged bids in the same amount bid from different bidders, or (iv) some other bid dispute arises, Auctioneer may, in Auctioneer's sole and absolute discretion, reopen the bidding (but will not be required to). Any contract formed with the Fall of the Hammer will be subject to the conditions set forth in this Section. If bidding is reopened pursuant to this Section, the bid recognized by Auctioneer prior to the reopening of the bidding will be held, and may not be retracted, and, if no further bids are received, such bid will be the Winning Bid.
23. **Motor Vehicles and Equipment.** Any and all motor vehicles and motorized equipment (including, without being limited to, automobiles, trucks, vans, recreational vehicles, motor cycles, motor scooters, tractors, earth moving equipment and other heavy equipment) must be paid in full prior to removal from the Auction Site; and, if any vehicles or equipment is paid for with a check, the vehicle or equipment will not be released unless and until the check clears the drawee bank and the funds have been received by Auctioneer.
24. **All Sales Final.** ALL SALES ARE FINAL. NO REFUNDS OR RETURNS.
25. **Sales Tax.** Subject to applicable exemptions, if any, each Buyer is responsible for the payment of sales tax for each Lot Knocked-Down at the Auction, which sales tax will be collected by Auctioneer at the time payment is made.
26. **Payment.** All Personal Property must be paid for in-full by onsite Buyers on the day of the Auction, at or before the conclusion of the Auction, and before any Property is removed from the Auction Site by or on behalf of the Buyer. Online purchases are due upon receipt of your invoice. Onsite purchases may be paid in cash or approved check, and, when authorized by the Seller and made available by Auctioneer, by credit card or debit card. Cash payments totaling Ten Thousand Dollars (\$10,000) or more will not be accepted. If onsite bidders wish to send a wire, they must present a bank letter of credit (with limit stated equal to or higher than the amount owed by bidder) and wire must be sent no later than one business day after the auction. Online purchases must be paid by credit card or approved check; provided, however, that any online purchases in excess of Two Thousand Five Hundred Dollars (\$2,500.00) must be paid by wire transfer or certified funds unless other arrangements are made with Auctioneer in Auctioneer's sole and absolute discretion.
27. **Wire Transfer Payments.** Buyer shall obtain verbal verification of all bank account information from Bright Star Auctions prior to initiating transfer. Except as otherwise provided by law, we shall not be liable for any loss or damage due to misplaced, unauthorized or fraudulent fund transfers.

Bidder Terms and Conditions Continued...

28. **ACH/eCheck Payments.** By providing account information to Bright Star Auctions, buyer gives permission for Bright Star Auctions to retain payment information on file and represents they are the authorized account holder. Upon authorization to collect payment from Buyer's account and prior to transfer, Buyer is responsible to notify their financial institution of the impending transaction. Buyer agrees to notify Bright Star Auctions of any changes in account information.
29. **Returned Checks.** Any checks that are returned unpaid will be subject to a returned check fee in the amount of Fifty and 00/100 Dollars (\$50.00). In addition to the foregoing, Auctioneer will be entitled to recover, from the issuer of a returned check, all costs and expenses, including attorneys' fees, for the collection of payment made in the form of a check that has been returned unpaid.
30. **No Stop Payment Orders or Credit Card Chargebacks.** Each Bidder agrees that such Bidder will not, under any circumstances, (i) issue a stop payment order with respect to any checks issued at or in connection with the Auction, or (ii) initiate a credit card chargeback with respect to any purchases at the Auction. Each Bidder further agrees that if, in violation of these Terms, a stop payment order is issued or a credit card chargeback is initiated, these Terms will be conclusive evidence of the Bidder's (i) waiver of any rights to issue a stop payment order or to initiate a credit card chargeback, and (ii) agreement not to issue a stop payment order or to initiate a credit card chargeback; and each Bidder acknowledges and agrees that on Auctioneer's presentation of these Terms to the bank, credit card company, or other financial institution against which a check was drawn or that issued the credit card on which charges were made, such bank, credit card company, or other financial institution will reverse any stop-payment order and/or deny any credit card chargeback, and will re-credit all amounts to or for the account of Auctioneer. If, in violation of these Terms, a Bidder issues a stop payment order or initiates a credit card chargeback, such Bidder, even if successful, will remain liable for all purchases made at the Auction, and will be responsible for all costs and expenses, including attorneys' fees, incurred by or on behalf of Auctioneer and/or Seller in challenging the stop payment order or credit card chargeback and in collecting payment. Each Bidder acknowledges and agrees that the covenant not to issue a stop payment order or to initiate a credit card chargeback is a condition to the issuance of a Bidder Number to such Bidder, and is being made as an inducement for Auctioneer to accept such Bidder's Bidder Registration and to issue a Bidder Number. Each Bidder acknowledges and agrees that Auctioneer is relying on the covenant not to issue a stop payment order or to initiate a credit card chargeback in accepting such Bidder's Bidder Registration and in issuing a Bidder Number.
31. **Pick-up and Removal; Shipping.** Each Buyer is responsible for removal of Lots purchased at the Auction, including shipping to remote Buyers. Pick-up and removal dates and times will be as posted on Auctioneer's website or announced at the Auction. Unless otherwise agreed, each Buyer is solely responsible for the disassembly, removal, shipping, and transportation of each Lot purchased by such Buyer. Tools, packing material, and/or assistance will not be supplied at Pickup, so Buyer must plan accordingly. Disassembly and removal shall be done in a quiet and workmanlike manner, and each Buyer, in making its bid, shall thereby indemnify and hold harmless both Auctioneer and Seller against any and all damage caused by the acts of the Buyer, or such Buyer's employees, agents, representatives, or independent contractors in connection with the Pickup. Any and all damages to the Pickupsite, including, without being limited to damages to land or buildings, caused by a Buyer or by an employee, agent, representative, or independent contractor of a Buyer, will be repaired by, or at the expense of, such Buyer to the satisfaction of Auctioneer and Seller. Each Buyer must show a copy of the invoice (digital or hard copy) and government-issued photo identification before Lots will be released. No Buyer shall bring pets or young children to the Pickup, as the movement of Lots presents an extremely high-risk environment that could result in injury or death.
32. **Insurance.** Any work performed by Purchaser(s) or Purchaser Representative (including sub-contractors) shall be insured and provide proof of coverage against all claims for injuries against persons or damages to property which may arise from or in connection with the removal of items or equipment. Insurance coverage requirements are as follows: General Liability \$1,000,000/\$2,000,000 and Worker's Compensation \$1,000,000 or as required by State Law. Seller shall be listed as additionally insured, if required.
33. **Abandoned Items.** Any Lots not paid in full, not picked up and removed in the time provided (but, under any circumstances, within thirty (30) days after the Auction), or for which payment has not cleared (within five (5) days after the Auction), will be considered abandoned and may be offered for sale at a later auction or subject to other disposition. Such abandonment does not, however, relieve the Buyer or the Buyer's obligation to make payment in full. Any payments made by or on behalf of a Buyer are non-refundable, and Buyers will remain responsible for the full purchase price of all Lots sold to them. In addition, Buyer's bidding privileges may be suspended at future auctions.
34. **Claims.** With respect to Lots removed from the Auction Site by or on behalf of a Buyer, no claims or returns will be allowed and no claim will be allowed for adjustments or rescission of any sales based on the failure of a Lot to correspond with any standard and/or expectation of the Buyer.
35. **Risk of Loss for Personal Property.** Risk of loss with respect to Personal Property passes to the Buyer with the Fall of the Hammer. Neither Auctioneer nor Seller will be liable for any loss or damage to a Lot after such Lot is sold at the Auction, other than as may be directly and solely caused by Auctioneer's negligence, gross negligence, or intentional misconduct in handling and safeguarding the Lot while in Auctioneer's sole and exclusive possession.
36. **Buyer's Remedies; Bidders/Buyers Not Entitled to Incidental or Consequential Damages.** To the extent that any Bidder or Buyer may be entitled to damages or remedies, the sole and exclusive remedy available to Bidders and Buyers is a return of the Purchase Price actually paid. Under no circumstances will Auctioneer or the Seller be liable for incidental or consequential damages, including, without being limited to lost profits or reduced productivity. Each Bidder acknowledges and agrees that no Bidder or Buyer is entitled to specific performance or other equitable relief.
37. **Seller's Remedies.** If any Buyer breached such Buyer's obligations under these Terms or under a sale contract with the Seller of Property sold at the Auction, in addition to all other legal and equitable remedies, such property may be resold and the breaching Buyer will be responsible for any and all damages, including any deficiency or reduction in the Purchase Price, along with incidental damages.

Bidder Terms and Conditions Continued...

- 38. **Indemnification.** Each Bidder agrees to indemnify, defend, and hold Auctioneer and Seller harmless from any current or future claim regarding the Auction or the Property, including, without being limited to, fitness, use, damage, safety, or injuries to persons or property.
- 39. **Private Sale.** No Participant or Registered Bidder may offer to enter into a Private Sale for the purchase of any of the Property prior to, during, or after the Auction. If any of the Property is not Knocked Down at the Auction and Bidder enters into an agreement to buy (i) any of the Personal Property from the Seller within ten (10) days after the Auction, and/or (ii) any of the Real Property within ninety (90) days after the Auction, Bidder shall pay to Auctioneer an amount equal to Auctioneer's full commission and Buyer's Premium.
- 40. **Waiver.** Certain provisions of these Bidder Terms are for the exclusive benefit of Auctioneer and/or Seller(s). Such provisions, including, without being limited to, Bidder registration and qualification requirements, deposit and payment terms (including the method, form, and timing of payment), removal and delivery terms, and Property inspection terms), do not create, and will not be deemed to create, any benefits or rights in favor of any other persons, including competing Bidders, and may not be enforced by any other persons. Either globally or on a case by case basis Auctioneer and/or Seller may (but will not be required to) waive any provisions of these Terms that are intended for the benefit of Auctioneer and/or Seller.
- 41. **Compliance with the Law.** Bidder shall not engage in any illegal conduct on the Auction Site and shall comply with all federal, state, and local laws. Bid pooling occurs when Bidders collude to regulate, and artificially suppress, bidding in an effort to reduce the Hammer Price. Anyone participating in bid pooling will be removed from the Auction Site and referred for prosecution. Theft is a serious offense, and, if discovered, will be prosecuted to the fullest extent of the law. Instances of theft will result in immediate termination of bidding and removal from the Auction Site.
- 42. **Governing Law; Jurisdiction; Venue; Waiver of Jury Trial.** These Bidder Terms will be governed by and construed in accordance with the laws of the State of Indiana, including its statutes of limitations, but without regard to its rules governing conflict of laws. All claims, disputes, and other matters between the parties will be brought in the state or federal courts sitting in and for Elkhart County, Indiana, which courts will have exclusive jurisdiction, and will be the exclusive venue, for any and all such claims, disputes, and other matters. By submitting a Bidder Registration and accepting a Bidder Number each Registered Bidder irrevocably and unconditionally (i) agrees that any claim or suit relating to these Bidder Terms, or the transactions contemplated hereby, will be brought in the state or federal courts sitting in and for Elkhart County, Indiana.; (ii) consents to the jurisdiction of such courts for any such claim, suit or cause of action; (iii) waives any objection that such party may have to the laying of venue of any such claim, suit or cause of action in such courts; and (iv) waives any objection to the bringing of such claim, suit or cause of action in such courts on the grounds of *forum non conveniens*. Each Bidder, Buyer, and other Participants waive the right to a jury trial.
- 43. **Attorneys' Fees.** If any Participant breaches such Participant's obligations under these Terms, Auctioneer and/or Seller will be entitled to recover all costs and expenses, including attorneys' fees incurred in enforcing their rights.

Phone Bidding instructions for Bright Star Auctions

If you can't make the auction, Bright Star is happy to accommodate you over the phone. By following the instructions below, you will be able to listen to the auctioneer and announcer and enjoy the crystal clear audio on the Bright Star Auction line.

Registration:

- Call the office at (574) 825-0704 ext 5 to register and get a bidder number. Preferably do this before auction day. Share your fax or email to receive the updated catalog the day before the auction.

Joining the Auction:

- **Ring 1: Call (419) 677-0715 and enter ID#: 904 359 662#.**
 - Ring 2 (if applicable): Call (832) 680 -1799 and enter ID#: 464 897 846#.
- You'll be placed in the auction audience upon calling.

Bidding Process:

- To bid, press *6 to unmute, state your bidder number and "yes" (e.g., "bidder 2532, yes").
- The ringman communicates your bid to the auctioneer.
- Press *6 to mute yourself when you are done bidding.
- Be sure to speak your bidder number first, loudly, and clearly.

Post-Auction Payment:

- Call (574) 825-0704 ext 4 within two hours after the auction to arrange payment.
- Credit cards are only accepted on invoices with a total of less than \$2500. Cash payments are only accepted on invoices with a total of less than \$10,000.
- Payments are due immediately post-auction.
- If you don't have fax or email, you'll be notified of your total by phone.
- Mail checks to: Bright Star Auctions, 11751 CR 12, Middlebury, IN 46540.

Additional Tips:

- Please do not try to bid on speaker phone.
- Hundreds of photos in the online catalog.
- Log into the conference line 15 minutes early to avoid missing your lot.
- If you have trouble getting logged in, please call the office at 574-825-0704.

Trucking Services:

- US Logistics
 - Contact Nathaniel Stoltzfus
 - Phone: (570) 660-4246

- **Enjoy the convenience of bidding from home with Bright Star!**

Auction recordings are again available on the conference line:

Call: (712) 432-8774 - Conference id: 274448 # - Recording id: [6-digit date of auction] For example Williamsfield Valley Veneer was on September 21st, 2022. So, the recording id is 092122.

Press 1 to *pause or restart*, press 4 to *rewind* 2 minutes, press 6 to *fast forward* 2 minutes.
