From the Editor

Monday, March 30th, 2026

Typical March weather here in our area—nice, balmy 70-degree days to 30 degrees, windy and rainy, sometimes all in the same day. April showers bring May flowers, but what does March weather bring? Turns out we can be thankful in all situations, as we are instructed in the book of Thessalonians: "In everything give thanks, for this is the will of God in Christ Jesus for you."

We enjoyed our short trip to Chicago a few weeks ago. And yes, they really do dye the river green for St. Patrick's Day. I hope to never again go to Chicago on that weekend because of all the people. We only wanted to cross the bridge to get to the train station, and we were sandwiched shoulder to shoulder with folks trying to do the same thing. Estimates are that there are several hundred thousand people in town for that weekend—and we happened to be four of them. Oh well, I got my piece of cheesecake and my deep dish pizza, which is what really matters. 😎

We accidentally got the address wrong for the April 10 Doll Lumber auction in the last book. The correct address is 1363 State Route 534, Southington, OH 44470. It's a live onsite auction that should be worth your time if you care to attend in person. Not fun when that happens, but it does show that we are human and can and do make mistakes.

We had a good auction here in Middlebury on March 27. Factory direct item prices were up a bit, and the equipment sold well too. We had a nice crowd come out to enjoy the free breakfast. The next auction will be in June, so get your consignments in early.

I will be out of the office all of next week, March 30 to April 2, for an auctioneers education course. The office will also be closed on April 3 for Good Friday. Happy Easter! And praise the Lord that He gave His Son, Jesus, to die for our sins.

Until next time,

Wayne Nisley, Editor

Equipment Market Report

*Brought to you by Bright Star Auctions
Eugene Hochstetler / Vice President / (574) 242-1100*

The March 17 WoodRing lumber auction reflected a steady market, with several new bidders participating once again. Prices across most products held consistent with recent levels, showing continued stability in the lumber marketplace.

While activity was not overly aggressive, steady participation from both buyers and sellers continues to support the WoodRing platform as it gains traction. We also announced that beginning in May 2026, WoodRing will move to a weekly auction cadence, with auctions taking place every Monday. This change is expected to provide a more consistent marketplace for both buyers and sellers in the months ahead.

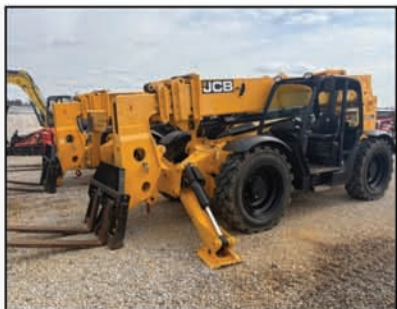

March 17th WoodRing Results:

Lot Identifier	Lot Name	Amount	Quantity	Total	Status
5	Bright Star Auctions Die-Cast Metal 1:64 Scale Truck Replica	\$100.00	1	\$100.00	sold

5% online buyer's premium. Payment: Cash, check, credit card, wire transfer.

Selling my cut stock lumber through Bright Star's Premium Cut Auction has been a turning point for my business. The process is straightforward and reliable—I know exactly when my lumber will sell, and I always get paid within a week. Bright Star's marketing puts my products in front of serious buyers nationwide, and I've consistently seen strong prices and quick sales. Since partnering with Bright Star, I've reached new customers, moved more inventory, and grown my business. If you want a hassle-free way to sell your lumber and expand your reach, I highly recommend their auction.
- John Gusler, Fairview Woodyard, Fairview MI

Ronald Hamilton was a longtime Lafayette-area machinist known for operating a fully functional, working machine shop that served local farmers and tradesmen for decades. His shop was actively used and well maintained, with equipment selected for real-world use rather than display. This absolute liquidation auction offers the contents of that shop, including machine tools, welders, and support equipment accumulated over a lifetime of hands-on work. All items sell to the highest bidder.

Free Weekly Email for Dads

Do you ever wish a guy would come to your house, slug you in the arm, and tell you to straighten up, be a good dad, and be loving to your wife? Well, now your wildest dreams have come true, because I'll come to your home or office each week and do just that.

Now, don't be expecting a theological treatise on husbanding, because the Familyman Weekly isn't that.

Think of it more as one dad encouraging another over the backyard fence.

Introducing WoodRing — A New Era for Lumber, Pallets & Industrial Wood Trading

At Bright Star Auctions, we've spent years connecting buyers and sellers of heavy equipment, sawmills, forestry machinery, and industrial assets through transparent, trustworthy auction experiences. Today, we're proud to introduce WoodRing — a new nationwide marketplace built specifically for the lumber and industrial wood community.

WoodRing brings the same professionalism, integrity, and reach that Bright Star Auctions is known for, now focused entirely on lumber, pallets, and industrial wood products. WoodRing is a dedicated auction marketplace designed for mills, pallet shops, wood producers, and industrial buyers looking for a more efficient way to sell and source wood products. From lumber and stringers to pallets, cants, and industrial wood, WoodRing provides a centralized platform where quality inventory meets serious buyers.

Powered by Bright Star Auctions, WoodRing combines industry expertise with a streamlined auction process to help businesses move inventory quickly, competitively, and with confidence. The wood products industry moves fast, and WoodRing was built to keep pace. The platform is designed around the real-world needs of buyers and sellers who value clarity, consistency, and trust.

Every WoodRing listing features clear descriptions and honest grading. Buyers know exactly what they're bidding on, and sellers benefit from professional presentation that attracts serious interest. Cash flow matters. WoodRing offers dependable payouts within seven days, allowing sellers to reinvest in operations and inventory without unnecessary delays.

WoodRing connects sellers with a broad, nationwide audience of qualified buyers. Whether inventory is located in the Midwest, Southeast, or Pacific Northwest, it is exposed to demand across the country. With a predictable biweekly auction schedule, WoodRing provides regular opportunities for sellers to move material and for buyers to source dependable supply. The consistency helps businesses plan with confidence.

WoodRing was designed with long-term relationships in mind. Transparent bidding, professional listings, and the backing of an experienced auction company create an environment where buyers and sellers can participate with confidence. Whether you are selling surplus wood or sourcing materials for production, WoodRing simplifies the process while maintaining the integrity the industry expects.

How WoodRing Works For Sellers

- Submit your inventory with relevant details
- WoodRing professionally reviews, grades, and lists your wood
- Buyers compete through a transparent auction process
- Receive payment within seven days of auction close

How WoodRing Works For Buyers

- Register quickly and securely
- Browse verified loads with clear descriptions
- Bid confidently in a competitive marketplace
- Arrange pickup or freight on your schedule

Whether you operate a sawmill, manage a pallet operation, or purchase industrial wood products at scale, WoodRing offers a purpose-built marketplace designed to meet your needs.

INDFAS RENTAL & SALES LIQUIDATION

Absolute Auction

MAY 8TH - 9 AM ET

LIVE ONSITE AUCTION WITH ONLINE & PHONE BIDDING AVAILABLE

IndFas Rental & Sales is liquidating a full lineup of one-owner equipment. Highlights include telehandlers, skid steers, excavators, backhoes, tractors, boom lifts, scissor lifts, chippers, concrete buggies, stump grinders, trucks, trailers, and a wide variety of yard equipment — all selling to the highest bidder. **Accepting consignments to add to this auction.**

ACCEPTING CONSIGNMENTS!

Sawmill and Forestry Equipment, Forklifts, Skid Steers, Dozers, Excavators, Wheel Loaders, and Other Heavy Equipment

Add your equipment today!

Consignment deadline: 4/17/2026

TO CONSIGN, CALL:

LOGGING Life

Safety and Directional Felling

By Ethan Royer

Proverbs 21:31b says, "The horse is prepared against the day of battle: but safety is of the Lord". Logging is dangerous work, and while we should be safety conscious, we do well to remember this verse. Throw any group of veteran loggers together, and tales of close calls and injuries abound. Praying for safety each morning is a good thing for several reasons: God hears and has the power to preserve us if He so wills, it is good for us to acknowledge that our lives are in His hands, and it reminds us to be careful.

We probably have varying opinions about what personal protective equipment (PPE) is necessary, but I think we can agree that it is foolish to pray for safety and then throw caution to the wind. Trust in God is not a substitute for carefulness. Timber cutters are still in a survival-of-the-fittest (or survival-of-the-safest) world: the genetics of those who chase-cut, jump-cut, or use other risky methods tend to be removed from the gene pool.

My friend Matthew Kenny says, "There are old loggers and there are bold loggers, but there are no old bold loggers." There is truth there. If you can't predict what a falling tree is going to do, then you had better be able to outrun it! That said, if your plan for the tree you are preparing to cut includes "run like a scalded cat as it's falling," then it is probably wiser to let it stand.

SAWW Training

About ten years ago, the state of Indiana began requiring SAWW certification for logging state land or classified forests. SAWW stands for "Safety and Woods Worker training." While we encounter very few state sales, we often work in classified forests. Classified forests are private woodlots that are enrolled in a state program that gives a property tax break in exchange for properly managing their woods and harvesting timber periodically.

We had never taken training before and were reluctant to do so, but in order to comply with the new regulations, we began taking the required training. While I would not have admitted this at the time, I felt that after ten years of cutting experience, there wasn't much worth knowing that I didn't already know. Of course, I was wrong. I learned some valuable things from these courses, which we call "cutter training."

There are various SAWW training instructors around the country, but the only instructors I have experience with are Joe Glenn and Aaron Hovis from Missouri. They are real-life loggers, not inexperienced teachers with textbook answers. There are at least four levels of cutter training as well as storm damage and tree utilization courses. They teach the open-face bore-cutting method I was accustomed to, but they helped me understand the reasons for the method.

This training is not merely about safety; it also covers directional felling, log quality, production, and efficiency. The training is intended to teach skills that help a cutter be safer, more productive, and consequently more valuable to an employer. I would recommend it. I have learned from it, and it's good to do it periodically to get safety back to the front of my mind.

As mentioned, there are several levels of training classes suited to anyone from beginner to professional. They cover PPE basics like hard hat, chaps, hearing protection, and eye protection. I never knew plastic hard hats have an expiration date until I was informed in class. When hand cutting, I wear a hard hat with earmuffs (I don't like ear plugs), a face screen (earmuffs don't seal well with safety glasses), and chaps. I sometimes wear chaps when walking around in the woods, even if I'm not using a saw; they protect your pants and legs from briars, which also protects your attitude.

Proper saw maintenance and filing are included topics. Obviously, many skills (like saw filing) are not mastered by taking a class, but are skills that come with experience. However, having someone show the proper techniques can shorten the learning curve. In Levels 3 and 4, more difficult skills are taught: skills like spring-pole release, wedging, push/pull trees, and cutting trees with heavy lean. While this article cannot cover much of what is taught in those classes, I will mention a few things I learned from it.

Skill to Hew?

When King Solomon was preparing to build the temple, he sent to Hiram requesting timber and said, "For thou knowest that there is not among us any that can skill to hew timber like the Sidonians" (1 Kings 5:6). I wish I could have seen the logging operations of the Sidonians. What superior skills did they have that the Jews did not? Was their timber drastically different than what the Jews were accustomed to? Could they not have taught their skills to the Jews?

Since Solomon was the wisest man that ever lived, he surely had valid reasons for doing it the way he did. Perhaps he realized that by the time the Sidonians imparted their skills to the Jews, the temple would be built. Certainly, timber felling skill is not something that is acquired overnight but comes with experience.

Directional Felling

When logging a select-cut job, directional felling is a necessary component of quality work. I once heard a story about a city slicker visiting a logging job. As the logger sized up the tree he was about to cut, the city slicker fearfully asked, "Which direction is it going to fall?" The logger sized up the tree again and drawled rather unhelpfully, "It's gonna fall down!"

I worked with someone one day who appeared to be able to direct trees only in the direction of down, and the result was an ugly disaster. Unnecessarily smashing or skinning up-and-coming trees destroys value that takes years to grow back. I sometimes say, "We are paid by production, but hired by quality." While we are not directly compensated for directional felling and careful work, we will have trouble finding employment if we are careless.

Read the Stump

One thing I learned from SAWW training was how to read a stump after the tree has fallen. Was the hinge the thickness you thought it was? On a double-bore, did the two cuts line up? Did your cuts bypass at the apex of the notch? Did the hinge guide the tree where it was aimed and then break cleanly? Did the hinge compress on one side and pull fiber on the other side? Did the hinge fail, and if so, why?

Taking a few seconds to analyze the stump can show things like whether you judged side-lean accurately and whether your hinge was the appropriate thickness for the species. Taking some time to scrutinize the stump and trim root spurs off the log is not a bad thing anyway since it allows time for the surrounding trees to finish dropping debris before you go limb and top.

Tongue-and-Groove Technique

Hand cutting trees with heavy forward lean is dangerous and used to always make me nervous. Picture a tree leaning way out over a swamp or field edge. You know the drill. The trigger is not nearly cut off, but the tree is starting to pop and crack, and your feet involuntarily start dancing around in their eagerness to get out of there even though your mind knows you need to continue cutting until it's loose. It doesn't have to be this way!

Before I was taught the tongue-and-groove method, the best method I knew was to bore the back-cut on one side several inches higher or lower than the other side. This helped a lot and is faster than making a tongue-and-groove, but it was still inadequate for trees with very heavy forward lean.

I don't claim to have extensive experience with the tongue-and-groove method because we had already switched to mechanical cutting before I learned it, and we seldom hand cut anymore. That said, it has worked as advertised every time I have had an occasion to use it.

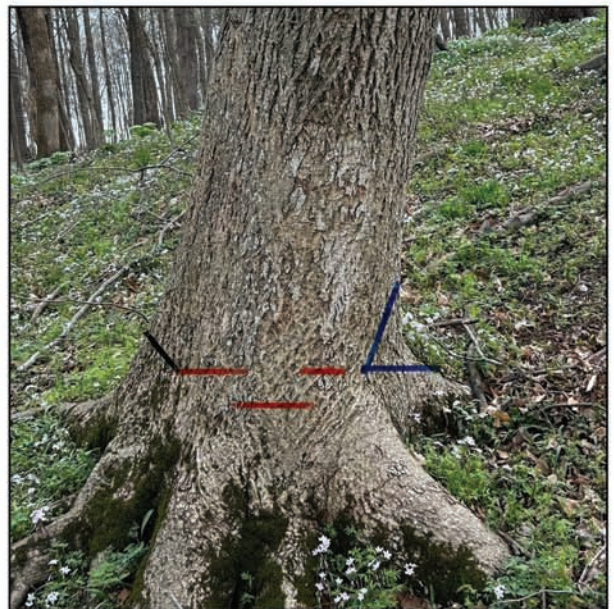

See the photo of a leaning Hickory for an explanation of how to execute this cut. The blue lines are the cuts for the notch, the red lines indicate where you would bore to create the tongue-and-groove, and the black line is the trigger. When creating the tongue-and-groove, it is critical to overlap your cuts a bit to ensure all the vertical fibers are severed. This can be a bit tricky if the grain is not flowing straight up and down.

The beauty of this technique is two-fold: it helps hold the tree in place until you cut the trigger, and the tongue also keeps it from barber-chairing (splitting). You can even use this technique on a valuable tree that must be cut at ground level: you simply bore the tongue at an angle down into the stump.

The photo of the veneer White Oak shows what the stump and butt log look like after felling. I don't normally cut the center out of the tongue, but since this was a large tree, I cut the heart out by boring in from the notch to be sure I didn't leave any uncut fiber. If I'd happened across a stump like this before I was aware of this technique, I would have had some uncomplimentary thoughts about the cutting skills of whoever butchered the stump. It's hard to teach an old dog new tricks but this "old dog" is thankful to have learned this method; heavy leaners are no longer frightening.

This veneer White Oak was cut with the tongue-and-groove technique.

Here is an illustration of the tongue-and-groove technique.

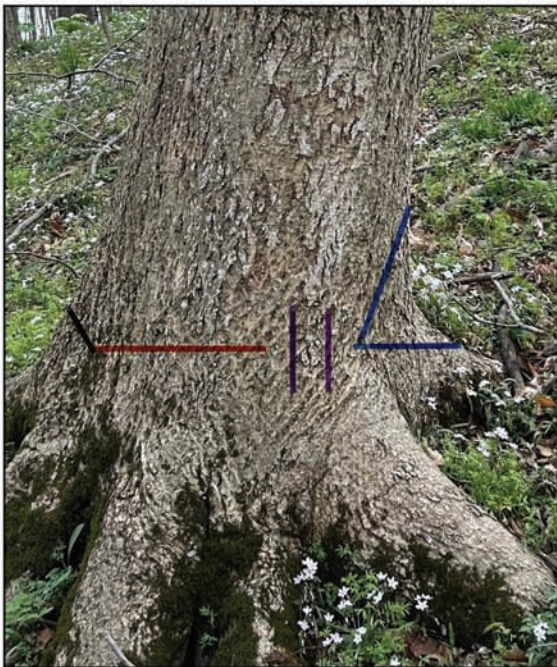

Double/Triple Hinge

This method is not often used but is valuable in certain situations. It serves to direct a tree that has significant side lean, but it only works if the tree also has a decent amount of forward lean. As you may know from experience, if we leave a thick, single hinge in an effort to swing a tree, some species will split, and others will break off before the tree is committed to falling the desired direction.

See the photo of the Hickory with a diagram of a triple hinge to understand the following explanation. Again, the blue lines are the cuts for the notch. The purple lines indicate where you would make two vertical bores. These vertical cuts should extend one bar width above and below the floor of the notch. The red line shows a normal back cut. The black line is the trigger.

By the way, a Hickory is not a good species on which to practice this cut. This method definitely allows you to direct a side leaning tree more than a single hinge. I don't understand why it works like it does, but apparently the vertical bores allow some flexing of the hinge that keeps it from either breaking off or splitting the log. I have seldom used a triple hinge, but a double hinge seems to work well in certain circumstances. To take a verse out of context, Solomon said, "Two are better than one; because they have a good reward for their labor." Same as with a single hinge; it's critical to know the fiber characteristics of the species you are cutting: a Black Oak sized hinge on a Hickory spells trouble.

Our lives are in God's hands. Let's trust Him, be careful, and be open to learning better methods. For anyone interested in more information about SAWW training, you can reach the office of Joe Glenn at 573.495.2050.

This photo shows how to create a triple hinge.

This 2400 bd. ft. Burr Oak was so big and leaned so hard that I used a double tongue-and-groove when felling it.

Ethan Royer, of Royer Timber, lives with his family in northern Indiana and provides logging services in northern Indiana and southern Michigan. He can be reached at 574.849.0867.

From Timber to Trading Platform: Bright Star's New Premium Cut Lumber Auction

By Loren Beachy, President, Bright Star Auctions

It started with a simple question over coffee and ended with truckloads of lumber finding new homes across the country. That's the short version, anyway.

The longer version involves John Gusler at Fairview Woodyard, a bit of neck-stretching courage, and our team at Bright Star Auctions venturing into territory more filled with board feet than horsepower. But I'm getting ahead of myself.

For those who've been following our journey through these "Travels with Gavels" columns, you know that Bright Star has specialized—and continues to specialize—in heavy equipment auctions. We've helped countless operations liquidate their sawmills, forestry equipment, and woodworking machinery. So, when you think about it, moving into lumber itself isn't exactly a leap across the Grand Canyon—more like stepping across the creek that feeds your mill pond.

How It All Started

"Although the idea had surfaced a time or two in the past," says Eugene Hochstetler, our Equipment and Lumber Specialist, "it was John Gusler at Fairview Woodyard that brought it up in late 2024 and was willing to put the beef behind it."

John had the confidence to "stretch his neck out with quality lumber from his own mill" to test the waters of this new auction format. That's the kind of courage we appreciate—the same kind our clients show when they decide to liquidate operations they've built over decades, or when they try a different approach to selling their equipment.

Our first lumber auction wasn't aiming to set the world on fire with record-breaking prices. As Eugene describes it, the results were "not extreme prices or even top of the market prices, but a success." Sometimes the most important victories are the ones that simply prove a concept works.

Solving the Lumber Puzzle

Before we could turn this idea into reality, we had to tackle some unique challenges. Quality control topped the list. As Eugene puts it, "How do we keep from selling bad lumber?" The solution came from John Gusler himself—a 99% usability guarantee. "Not saying that this will be on every single load of lumber," Eugene clarifies, "but watch for it and bid with confidence of a quality product."

Another puzzle piece was determining the right way to sell lumber. After careful consideration, we settled on selling by the truckload—specifically, tandem 40,000-pound loads. Our thinking is that this approach "will be a sustainable way to market lumber for the long haul."

Buyers naturally raised concerns about trucking, but with our partnership with US Logistics/Showcase Shipping, that seems to be a non-issue. It's like worrying about finding silverware at a restaurant—sure, it's important, but we've already got it covered.

Beyond Pallets: What's in the Pipeline

While our first auction focused solely on notched pallet stringers, we're already seeing the market expand faster than a green board in summer rain. "We're excited to already see truckloads of treated fence posts from two different sellers!" Eugene shares with enthusiasm. "One in MI and one in KY. We hope to see some treated KY fence boards in the near future."

The potential product list reads like a lumber yard inventory sheet: pallet precuts, cants for pallet material, finished pallets, railroad ties, crane mat lumber, finished crane mats, fence posts and boards, and grade lumber. As Eugene puts it, "Really, the sky is the limit here and we don't know where this will end up, but we do know One that does." We know many of you have learned with us that God is ultimately in control of our ventures.

Who's Buying?

Our first auction primarily attracted pallet manufacturers, which makes sense given the product offering. But the geographic reach impressed even us—and we're used to drawing crowds. "Although all 12 loads of lumber were located in Northern MI," Eugene notes, "we had bidders registered from MI, IN, IL, WI, OH, PA, NY, IA, TX, FL, MN & KY, with buyers from Florida (I think his lumber went to IL), Michigan, and Illinois."

That's a wider spread than mayo at a church potluck, and it speaks to the strength of our marketing approach. When Eugene says, "My phone starts ringing when the ads start hitting," he's not just whistling through the lumber yard—he's describing the concrete results of our comprehensive marketing strategy.

The Bright Star Difference

You might be wondering what makes our approach to lumber auctions different from traditional sales channels. It starts with relationships. "Because of the business we are in—selling sawmills & forestry equipment—there are a lot of relationships in place already," Eugene explains. "We've simply opened the door to a new opportunity for many of them by offering a platform to trade lumber that they produce."

We understand that many potential consignors want to "see what happens" before jumping in, and we respect that cautious approach. After all, this isn't a proven process yet. But the feedback from our first auction has been "very positive," and we're grateful for those willing to give it a shot. Like our equipment auctions, our lumber auctions offer:

- Absolute selling: No reserves, no minimum bids—just an honest marketplace
- Comprehensive marketing: Reaching buyers nationwide through multiple channels
- Easy consignment: We handle the details so you can focus on your operation
- Industry expertise: Our team understands both the equipment and product sides of the lumber business

Privacy Fence Boards in the 4/7 Auction

Hardwood Cants in the 4/7 Auction

Looking Down the Road

"Lord willing, this will be a sustainable long-term platform for our clients to be able to rely on getting fair market value for their product," Eugene says, looking to the future. We see these auctions evolving as the industry supports it, potentially adding more product categories as demand grows.

With each auction gaining traction, this series of lumber auctions is positioned for continued growth. It's like watching a seedling take root—you can already envision the mighty oak it might become.

For those interested in consigning lumber to our future Premium Cut Lumber Auctions, I encourage you to reach out to Eugene Hochstetler directly. Whether you're looking to sell a few truckloads of pallet stock or exploring options for specialty lumber, we're here to help connect you with buyers nationwide.

In the lumber business, relationships and quality matter. We've built our reputation on both, and we're bringing that same commitment to these lumber auctions. After all, whether we're selling a multi-million-dollar sawmill or a truckload of pallet stock, our mission remains the same: connecting sellers with buyers efficiently, honestly, and with a genuine commitment to everyone's success.

As we like to say around here, "Let's make some sawdust fly!"

Lot 14 in the first auction. 1 1/8" x 3 1/2" x 48" notched stringers soft wood standard notch, 22 units at 468 pcs each. Sold for \$290 per pack times the 22 packs.

Lot 19 in the first Premium Cut Lumber Auction. 1 1/4 x 3 1/2 x 48" notched stringers, standard notch, soft wood, 416 pieces per pack, 22 packs. Sold for \$335 per pack times the 22 packs.

Bright Star Auctions works for sellers of sawmill, logging, woodworking equipment, and real estate around the country. Bright Star has sold millions of dollars of equipment and real estate around the country and has probably dealt with many situations much like yours. Eugene would be happy to meet with you, discuss your situation, and present you with options. Whether it is arranging a cash buyout by a retailer or conducting an auction, the team at Bright Star keeps your best interests in mind, and then lets you make the decision. Their mission is: Showing Christ to the World by Delivering the Most Accessible Heavy Equipment Auctions. Loren Beachy serves as president of the company. For a free consultation, call Vice-President Eugene Hochstetler at 574.825.0704.

First Aid

First aid is emergency treatment for injury or sudden illness before medical care is available.

I am sure there are a lot of people out there who have applied first aid and have some good advice and tips to share—at least more than I do. While I have applied numerous band aids (I have three boys), thankfully I was never involved with major injuries. I will attempt to share some of the things I have learned over the years.

Head Injuries / Concussions

Due to a lack of knowledge, I will not specify procedures to determine the severity of concussions. I understand that a lot of minor concussions tend to be ignored and then result in a long recovery.

We had an experience with our dad. He fell only a short distance and bumped his head on the way down. He felt okay, so he never got it checked out. Several months later he started getting dizzy and had some problems with his balance. He went to the hospital and they immediately performed emergency surgery. He had blood on his brain. They drilled holes in his skull to drain the blood and remove the pressure. Thankfully, he recovered okay.

Head injuries tend to bleed a lot. I know of someone who received serious head injuries while felling trees. He got knocked over and ended up laying face down the hill. Where in most cases you should never move a victim until help comes, his employer was concerned that he could drown in his own blood, so he moved him so he was facing up the hill. The doctor said he probably saved his life.

Back Injuries

I am told you should never move someone with a back injury. The patient should be stabilized properly by first responders to minimize the risk of paralysis.

Cuts

Cuts can be very serious depending on where the cut is and how deep it is. A tourniquet applied above the wound can save a life if it is on tight enough. Loggers may consider carrying a narrow leather belt with them. In the event of a cut, wrap the belt loosely above the cut, then insert your ax handle into a formed loop in the belt and spin the ax to form pressure to hopefully stop the bleeding.

Another thing worth mentioning is, if possible, place a blanket or something warm over the patient. This helps keep them from going into shock.

Be safe.

Efficiency Edge

Efficiency Tips for Sawmill Operations

Metal Detectors

A Game-Changer for Sawmill Efficiency

In the fast-paced world of sawmill operations, maintaining efficiency while minimizing costs is a constant challenge. One often-overlooked solution lies in the strategic use of metal detectors. These devices are invaluable in preventing damage to sawmill equipment, especially saw blades, while significantly boosting operational efficiency.

Protecting Your Investment: The Role of Metal Detectors

Logs processed in sawmills often come with hidden surprises—nails, screws, wire, or other metallic debris embedded during their time in the forest or transportation. When undetected, these materials can wreak havoc on equipment, particularly saw blades (all types). Even a small piece of metal can dull a blade or, worse, cause it to break, leading to expensive replacements and downtime.

By installing metal detectors, sawmills can identify and remove these contaminants before processing, saving both time and money. For example, avoiding even one instance of blade damage can prevent hours of costly downtime and reduce the frequency of blade replacements.

The Cost of Downtime vs. The Cost of Detectors

The numbers speak for themselves. A single hour of downtime in a busy sawmill can cost thousands of dollars. Metal detectors, on the other hand, are a one-time investment with a rapid return. Handheld models, such as the Lumber Wizard 5, are budget-friendly, priced under \$50, and ideal for smaller operations. The RENS P-4000 is a popular handheld option as well. For larger-scale sawmills, industrial-grade detectors like the RENS RADAX A60 or the MDI TWA-2000, offer unparalleled performance, detection, and reliability. These larger models can cost anywhere from \$20,000 to \$50,000 depending on size and availability. (These prices reflect used ones sold through Bright Star Auctions, while new detectors can be considerably more than that).

These upfront costs are quickly offset by the reduction in blade damage, smoother operations, and fewer production interruptions.

Strategic Placement for Maximum Efficiency

For optimal performance, metal detectors should be strategically placed at key points in the production line:

- Before Primary Breakdown: Position detectors immediately after debarking and before sawing to catch contaminants early.
- Before Secondary Processing: Use detectors to scan wood before planing or resawing, ensuring the final product is free from metallic debris.

These placements not only safeguard equipment but also maintain a steady workflow, minimizing unexpected interruptions.

Maintenance Matters

Like any piece of equipment, metal detectors require regular maintenance to remain effective. Routine cleaning prevents dust and debris from compromising sensitivity. Periodic calibration ensures accurate detection, and battery checks for portable models prevent unexpected power loss. Additionally, updating software and inspecting physical components for wear are simple steps to keep detectors running smoothly.

By adhering to these maintenance practices, sawmills can maximize the lifespan and reliability of their detectors, ensuring a seamless operation.

Enhancing Efficiency and Reducing Costs

The integration of metal detectors is more than just a cost-saving measure; it's a proactive approach to improving efficiency. By protecting blades, minimizing downtime, and ensuring consistent quality, sawmills can run smoother and more profitably.

For sawmill operators looking to stay ahead, investing in metal detectors isn't just a smart decision—it's essential. From the smallest handheld detector to the most advanced industrial model, these tools are a game-changer for the industry.

If you're in the market for a metal detector, Showcase Equipment currently has several units to chose from.

MDI TWI-2000 built for a planer, currently for sale

MDI TWA-2000 whole log detector, currently for sale

RENS whole log detector, currently for sale

Rigging and Load-Out Terms and Conditions

Installed Equipment.

Rigging is the sole responsibility of the buyer. Bright Star Auctions provides the name of a recommended third-party rigger whom buyers may choose to hire for rigging, load-out, or related services. This rigger is not an employee, agent, or representative of Bright Star Auctions. Buyers who require rigging services must contract directly with the rigger of their choice. Buyers may request a rigging quote from the recommended rigger prior to the auction.

Items requiring rigging include:

- Any installed equipment that cannot be removed without additional work.
- Equipment that must be cut, torched, unassembled, or otherwise modified for removal.
- Any item that is fixed, anchored, or integrated into a structure or system.

Buyers have three rigging options:

1. Hire the recommended rigger.
2. Hire a qualified and insured rigger of their own choosing.
3. Perform their own rigging.
 - If Buyers decide to do their own rigging, they must abide by the Self Rigging Terms and Conditions [See Addendum A]
 - And by signing proper rigging terms agreement. [See Addendum B]

For all other items that do not need rigging, these are the loadout terms that may apply.

Rolling stock may be loaded out without assistance,

- Staff will be available to help start and run equipment during the designated load-out dates.

After this initial period:

- Buyers are fully responsible for all equipment startup and loading.
- Buyers must schedule an appointment for any loadout after the designated dates.

Loading Requirements for Larger Non-Rigging Items:

· Larger items that do not require rigging but do require specialized equipment—such as cranes, wheel loaders, or other heavy lift machinery—may be subject to a loading fee.

· Buyers have two options for loading these items:

- Hire the recommended rigger, schedule an appointment and pay the quoted loading price.
- Provide their own appropriate equipment and complete the load-out themselves

Small & Palletized Item Load-Out:

· Small and palletized items qualify for free loadout during the designated free loadout timeframe.

· Staff will be available to assist with loader operated loading when necessary.

· After this timeframe ends:

- Minimum of \$25 per lot, or other loadout charges will apply.
- Buyers become fully responsible for arranging their own loading.

· Items that can be loaded by hand must be loaded by the buyer, without staff assistance.

Shipping Services:

· **Shipping is available through US Logistics for all items**, (they are a third-party company. They are not employed by Bright Star Auctions) including:

- Oversized loads
- Palletized equipment

· Buyers may contact **US Logistics**

- Obtain a shipping quote
- Arrange trucking
- Coordinate delivery from pickup to destination

Shipping for Small, Non-Palletized Items:

· Shipping may be available for smaller, non-palletized items that can be boxed, depending on the seller or the specific auction.

· A shipping and handling fee will apply to all such boxed shipments.

Please abide by all terms and conditions above to make the process seamless and as effective as possible.

Rigging Terms & Conditions Acknowledgment and Agreement

I acknowledge that I have received, read, and understand the printed version of the Rigging Terms and Conditions provided by Bright Star Auctions. By signing below, I agree to fully comply with all requirements stated therein, including but not limited to the following:

- I agree to clean up all debris, materials, and waste generated during my rigging activities.
- I agree to use my own equipment for all rigging activities or compensate the recommended rigger for any use of their equipment.
- I agree to ensure that all potential fire hazards are properly addressed and eliminated upon completion of my rigging work.
- I agree to perform all rigging activities within the time frame established by Bright Star Auctions.
- If I am unable to complete my rigging within the required timeline, I agree to pay the recommended rigger to complete the work on my behalf.

The undersigned hereby certifies that all information provided is accurate and that all rigging activities will comply with Bright Star Auctions' requirements and safety standards.

Editor's Note to All Bright Star Auctions Buyers

At Bright Star Auctions, we value every one of our customers, including those who choose to handle their own rigging. This note is specifically for you. Over the past year, our recommended riggers have shared several concerns that have caused delays, safety risks, and confusion on job sites. Our goal with these updates is simple: **to make the process smoother, safer, and more efficient for both you and the riggers working around you.**

Below are a few important changes we are implementing and the reasons behind them.

1. Required Liability Insurance for Anyone Rigging Their Own Items

If you plan to perform your own rigging, you **must provide proof of \$1 million liability insurance**, unless otherwise required, and it must be approved by **Bright Star Auctions** before any rigging activity begins.

This is **not a new policy**—it has **always** been BrightStar's requirement. However, enforcement has been inconsistent in the past. Going forward, we will be strictly enforcing this policy due to recent incidents that highlighted the serious risks involved.

This insurance requirement is in place to protect **you**, the **seller**, the **property owner**, and the **designated rigger**. Rigging accidents can cause significant property damage, including total building loss. In one recent instance, a buyer performed their own rigging without proper oversight and left the premises. When the recommended rigger later re-entered the building, they discovered a fire beginning to spread due to hot ashes left on the floor. Fortunately, the situation was caught in time and disaster was avoided. This incident emphasized the importance of ensuring that any individual performing rigging is properly insured and accountable.

The purpose of the \$1 million liability policy is to ensure:

- Coverage for any fire, structural damage, or other loss
- Protection for all parties involved
- Prevention of others being unfairly held liable for a buyer's mistake

Without approved liability insurance, you will not be permitted to rig your own items.

For buyers who do not carry traditional insurance, **approved church plans** will be accepted. However, we must receive and verify **proof of coverage** before any rigging can begin.

2. Mandatory Sign-In and Sign-Out for All Self-Rigging Buyers

At every auction site, there will be a sign-in/sign-out sheet for anyone performing their own rigging.

This gives us a necessary paper trail in case an unfortunate incident occurs — whether that's damage, fire, or other safety concerns. It also protects our recommended riggers from being wrongly held responsible for messes or accidents they did not cause. This creates a clear responsibility if an accident occurs.

3. Timeliness Matters — Your Schedule Affects Everyone Else

Our removal windows are tight, and riggers often work in specific sequences. When buyers come late, too early, or unpredictably, it can significantly slow down the entire removal process.

Examples:

- If your item is **on the outer edge** of a system or mill and you don't arrive on time, the rigger is forced to work around your piece, delaying his ability to meet deadlines.

- If your item is **in the middle**, arriving too early creates the opposite problem — the rigger may not have cleared the surrounding equipment yet.
- If another buyer is self-rigging in the path of your item, the rigger may be forced to wait on *their* timing as well.

For these reasons, **communication is essential**.

Before you rig, you must coordinate timing with the recommended rigger to avoid delays. If you cannot meet the requested timeline, you may need to hire the recommended rigger or another qualified professional who can operate within those scheduling requirements.

4. Clean Up After Yourself

This is a big issue we must address.

Buyers who rig their own items sometimes leave:

- Tools
- Cut-offs
- Debris
- Scrap pieces
- Oil Spills

The seller expects a clean site, and when buyers leave a mess, the recommended rigger is often unfairly blamed — and left to clean it up without compensation. This is not acceptable.

If you rig your own items, **you are responsible for cleaning up your own materials and mess**.

5. Updated Terms, Requirements, and Forms

We will be adding new rigging terms and requirements to our auction materials. If you wish to rig your own items, you will be required to:

- Review and agree to the updated terms
- Sign and agree to the self-rigging terms
- Provide proof of **liability insurance**

These steps help ensure a smoother experience for everyone — buyers, riggers, sellers, and our team.

In Closing

We truly appreciate all of our customers and want every auction experience to be positive, safe, and efficient. These changes are designed to protect everyone involved and to make the rigging process more predictable and fair for all parties.

Thank you for your cooperation, your understanding, and your continued support of BrightStar Auctions.

— The BrightStar Auctions Operations Team

DAD**

Familyman

No Guarantee of Someday

Hey Dad,

The weather is dancing between springtime and winter all in the same day. One day it's sunny and warm, the next is blustery and snowy. Right now I'm really rooting for summer and sunshine.

Springtime is the promise of things to come. I have trees to plant, projects to complete, and family adventures to tackle.

Last year I talked about a treehouse upgrade for my grandkids, a new and fancier fire pit, and the addition of a few lampposts in the dark spots in my yard.

I got as far as new fire blocks and a ring for the fire pit, but they still haven't been laid. That's the thing about dad-plans: "wanting don't get nothing done."

I meet all kinds of dads who tell me their plans for family vacations and weekend trips. In fact, as soon as people find out we travel around in an old RV known as the Familyman Mobile, they'll say to me, "My wife and I have talked about traveling for years, but..." I hardly listen because I've heard all the reasons for not doing it before.

Even this past weekend, I was speaking at a big event filled with lots of dads and moms. One young dad walked up to me and started talking about RVing and camping. "Yeah," he said, "we've been talking about getting a camper and doing some traveling... but we're thinking about waiting until the kids get a little older."

Instead of nodding my head in agreement, I spoke up, "You know, I wouldn't put it off. I'd buy that RV and do it now. Because you never know if you'll have a someday."

Then I went on and told him the story of a mom who wrote me and said that she and her husband had talked about traveling the country in an RV for years. And then he died... and now the wife was taking their kids on a trip without him.

"I suppose they had all the same good reasons you have," I said to the young dad. "The kids were too young, gas was too expensive, life was too busy..." all good reasons. But those reasons kept them from adventuring together.

Dad, so if you've been thinking about a family adventure... do it this summer. No excuses... no reasons... just do it. Because you never know.

Do it... because... You da dad

You 'da dad!

Todd Wilson

Twin Gables

Live, onsite: 412 Doc Bernard Rd, Oakland, MD 21550

Date: April 17th

Auction start time: 9 AM ET

▶▶▶ For phone bidding, please register during the week prior to the auction if possible by calling 574.825.0704 ext 5 ◀◀◀

Jeremy Martin and his sons, along with Dan Yoder, are offering their sawmill, excavating, and farm equipment at absolute auction. This lineup includes sawmill machinery, loaders, excavators, tractors, skid steers, trucks, trailers, and more—all selling to the highest bidder. Auction Specialist: Jonathon Miller, 574-821-7530.

Auction Manager: Mose Troyer, 330-763-3780.

Auction Location: 412 Doc Bernard Rd, Oakland, MD 21550.

Titled Vehicles: Once your payment is received and clears our bank, you will be contacted to confirm your information. You can expect Your title within 7 business days after the information is confirmed. If you do not contact us to confirm your information, you will receive the title approx. 30 days after the auction and it will be filled in with the information that you registered with.

Preview & Inspection: Buyers are responsible to do their own inspection to determine the condition of the items they purchase. Inspections times are available as follows: Week before the auction, 8 to 4, by scheduling an appointment with seller Jeremy Martin, 301-616-0811

Loadout Information: Seller will be doing load out Saturday, the day after the auction and a week after the auction, from 7:00 to 4:00. After that, we'll have to schedule an appointment by calling Jeremy Martin at 301-616-0811 To help avoid confusion, please make sure the Trucking Broker and/or the Truck Driver has a copy of your invoice when he arrives pick up your items

Rigging Information: Recommended for buyers to do their own rigging; however, can call Jeremy Martin at 301-616-0811 to work out a deal Installed Equipment. Rigging is the sole responsibility of the buyer. Bright Star Auctions provides the name of a recommended third-party rigger whom buyers may choose to hire for rigging, load-out, or related services. This rigger is not an employee, agent, or representative of Bright Star Auctions. Buyers who require rigging services must contract directly with the rigger of their choice. Buyers may request a rigging quote from the recommended rigger prior to the auction. Items requiring rigging include: Any installed equipment that cannot be removed without additional work. Equipment that must be cut, torched, unassembled, or otherwise modified for removal. Any item that is fixed, anchored, or integrated into a structure or system. Buyers have three rigging options: 1. Hire the recommended rigger. 2. Hire a qualified and insured rigger of their own choosing. 3. Perform their own rigging. · If Buyers decide to do their own rigging, they must abide by the Self Rigging Terms and Conditions (See Addendum A) · And by signing proper rigging terms agreement. (See Addendum B) For all other items that do not need rigging, these are the loadout terms that may apply. Rolling stock may be loaded out without assistance, · Staff will be available to help start and run equipment during the designated load-out dates. After this initial period: Buyers are fully responsible for all equipment startup and loading. Buyers must schedule an appointment for any loadout after the designated dates. Loading Requirements for Larger Non-Rigging Items: Larger items that do not require rigging but do require specialized equipment—such as cranes, wheel loaders, or other heavy lift machinery—may be subject to a loading fee. Buyers have two options for loading these items: Hire the recommended rigger, schedule an appointment and pay the quoted loading price. Provide their own appropriate equipment and complete the load-out themselves Small & Palletized Item Load-Out: Small and palletized items qualify for free loadout during the designated free loadout timeframe. Staff will be available to assist with loader operated loading when necessary. After this timeframe ends: Minimum of \$25 per lot, or other loadout charges will apply. Buyers become fully responsible for arranging their own loading. Items that can be loaded by hand must be loaded by the buyer, without staff assistance. Shipping Services: Shipping is available through US Logistics for all items. (they are a third-party company. They are not employed by Bright Star Auctions) including: Oversized loads Palletized equipment Buyers may contact US Logistics Obtain a shipping quote Arrange trucking Coordinate delivery from pickup to destination Shipping for Small, Non-Palletized Items: Shipping may be available for smaller, non-palletized items that can be boxed, depending on the seller or the specific auction. A shipping and handling fee will apply to all such boxed shipments. Please abide by all terms and conditions above to make the process seamless and as effective as possible.

Payment Information: Payment terms: 6% sales tax. 10% Onsite and 13% Online Buyer's Premium in effect for all purchases. Cash, check, wire transfer. Cash Payments totaling \$10,000 or more will not be accepted. Credit cards are only accepted on invoices with a total of less than \$2500. All payments are due immediately upon receipt of your invoice. Onsite buyers, payment is due the day of the auction. If onsite bidders wish to send a wire and still be assessed only the onsite buyer's premium, they must present a bank letter of credit (with limit stated equal to or higher than the amount owed by bidder) and wire must be sent no later than one business day after the auction.

Financing Available: Secure the equipment you need with Bright Star Financial Services. Enjoy fast, flexible options tailored to your business needs. Apply now for pre-approval and bid with confidence! Learn more at brightstarauctions.com/finance.

Have online access? You can also bid online at brightstarauctions.com.

INFORMATION LOT

The next 4 lots are sourced from Kingsman Road in Middlefield, Ohio. All boards were cut from A. Miller Pre-cuts and produced by an operation that has been in business for 3½ years. They specialize exclusively in pre-cut pallet deck boards, with all material processed in advance rather than raw or mixed inventory. The operation currently employs four people and averages approximately 25,000 board feet of production per day, offering buyers a consistent, known-origin supply.

This auction provides an excellent opportunity to purchase high-quality pallet stringers in bulk. Each sale will feature up to 10 semi loads of premium cut stock lumber, supplied by a trusted source and ideal for pallet manufacturers and regional distributors. While specific inventory will vary from sale to sale, buyers can expect notched #1-grade stringers with a 99% usability rate - perfect for restocking at competitive prices. Auctions are held twice monthly, and all items sell absolute with no reserves. For an updated catalog and full details, please call our office at (574) 825-0704, closer to the auction date.

We are also actively seeking additional consignments to meet growing buyer demand. If you have cut stock lumber or related materials to sell, we'd love to talk. Our team can help you reach a national audience and turn your inventory into cash - quickly and effectively.

**Got Lumber?

BRIGHT STAR
AUCTIONS

AC32100007 (574) 825-0704

Selling my cut stock lumber through Bright Star's Premium Cut Auction has been a turning point for my business. The process is straightforward and reliable—I know exactly when my lumber will sell, and I always get paid within a week. Bright Star's marketing puts my products in front of serious buyers nationwide, and I've consistently seen strong prices and quick sales. Since partnering with Bright Star, I've reached new customers, moved more inventory, and grown my business. If you want a hassle-free way to sell your lumber and expand your reach, I highly recommend their auction. - John Gusler, Fairview Woodyard, Fairview MI

Estate of Ronald Hamilton

Live, onsite: 9914 E 100 N, Lafayette, IN 47905

Date: April 24th

Auction start time: 9 AM ET

▶▶▶ For phone bidding, please register during the week prior to the auction if possible by calling 574.825.0704 ext 5 ◀◀◀

Titled Vehicles: Once your payment is received and clears our bank, you will be contacted to confirm your information. You can expect Your title within 7 business days after the information is confirmed. If you do not contact us to confirm your information, you will receive the title approx. 30 days after the auction and it will be filled in with the information that you registered with.

Preview & Inspection: Buyers are responsible to do their own inspection to determine the condition of the items they purchase. Inspections times are available as follows: week before 8AM to 4 PM

Loadout Information: Buyers are responsible for their own load out. To help avoid confusion, please make sure the Trucking Broker and/or the Truck Driver has a copy of your invoice when he arrives pick up your items

Rigging Information: Buyers will be responsible for their own rigging. Rigging and Load-Out Terms and Conditions Installed Equipment. Rigging is the sole responsibility of the buyer. Bright Star Auctions provides the name of a recommended third-party rigger whom buyers may choose to hire for rigging, load-out, or related services. This rigger is not an employee, agent, or representative of Bright Star Auctions. Buyers who require rigging services must contract directly with the rigger of their choice. Buyers may request a rigging quote from the recommended rigger prior to the auction. Items requiring rigging include: Any installed equipment that cannot be removed without additional work. Equipment that must be cut, torched, unassembled, or otherwise modified for removal. Any item that is fixed, anchored, or integrated into a structure or system. Buyers have three rigging options: 1. Hire the recommended rigger. 2. Hire a qualified and insured rigger of their own choosing. 3. Perform their own rigging. · If Buyers decide to do their own rigging, they must abide by the Self Rigging Terms and Conditions (See Addendum A) · And by signing proper rigging terms agreement. (See Addendum B) For all other items that do not need rigging, these are the loadout terms that may apply. Rolling stock may be loaded out without assistance. · Staff will be available to help start and run equipment during the designated load-out dates. After this initial period: Buyers are fully responsible for all equipment startup and loading. Buyers must schedule an appointment for any loadout after the designated dates. Loading Requirements for Larger Non-Rigging Items: Larger items that do not require rigging but do require specialized equipment—such as cranes, wheel loaders, or other heavy lift machinery—may be subject to a loading fee. Buyers have two options for loading these items: Hire the recommended rigger, schedule an appointment and pay the quoted loading price. Provide their own appropriate equipment and complete the load-out themselves Small & Palletized Item Load-Out: Small and palletized items qualify for free loadout during the designated free loadout timeframe. Staff will be available to assist with loader operated loading when necessary. After this timeframe ends: Minimum of \$25 per lot, or other loadout charges will apply. Buyers become fully responsible for arranging their own loading. Items that can be loaded by hand must be loaded by the buyer, without staff assistance. Shipping Services: Shipping is available through US Logistics for all items, (they are a third-party company. They are not employed by Bright Star Auctions) including: Oversized loads Palletized equipment Buyers may contact US Logistics Obtain a shipping quote Arrange trucking Coordinate delivery from pickup to destination Shipping for Small, Non-Palletized Items: Shipping may be available for smaller, non-palletized items that can be boxed, depending on the seller or the specific auction. A shipping and handling fee will apply to all such boxed shipments. Please abide by all terms and conditions above to make the process seamless and as effective as possible.

Payment Information: Payment terms: 10% Onsite, 13% Online Buyer's Premium on bid.brightstarauctions, and 15% Online Buyer's Premium for Bidspotter, EquipmentFacts and Proxibid, in effect for all purchases. Cash, check, wire transfer. Cash Payments totaling \$10,000 or more will not be accepted. Credit cards are only accepted on invoices with a total of less than \$2500. All payments are due immediately upon receipt of your invoice. Onsite buyers, payment is due the day of the auction. Onsite payments will only be accepted at the auction location on auction day up to one hour post auction. After that, payment must be made to the corporate office by calling 574-825-0704. If onsite bidders wish to send a wire and still be assessed only the onsite buyer's premium, they must present a bank letter of credit (with limit stated equal to or higher than the amount owed by bidder) and wire must be sent no later than one business day after the auction.

Financing Available: Secure the equipment you need with Bright Star Financial Services. Enjoy fast, flexible options tailored to your business needs. Apply now for pre-approval and bid with confidence! Learn more at brightstarauctions.com/finance.

BRIGHT STAR REALTY AND AUCTIONS, LLC
11751 CR 12, Middlebury, IN 46540
("Auctioneer")

Bidder Terms and Conditions

There is a 13% online buyer's premium in effect for all purchases made online. Buyer's premium is 10% for onsite bidders. All items sell where is as is with no warranties or guarantees. Buyer is responsible to inspect all merchandise prior to placing bids. Payment terms: Cash, check, wire transfer. Cash Payments totaling \$10,000 or more will not be accepted. Credit cards are only accepted on invoices with a total of less than \$2500. All payments are due immediately upon receipt of your invoice. Onsite buyers, payment is due the day of the auction. If onsite bidders wish to send a wire and still be assessed only the onsite buyer's premium, they must present a bank letter of credit (with limit stated equal to or higher than the amount owed by bidder) and wire must be sent no later than one business day after the auction. All items are pick-up only. Smalls must be removed within 2 days. All items must be removed within 30 days unless otherwise noted. Loadout available day of auction, after that by appointment. Please call agent for more info. Buyer shall assume responsibility of all property when auctioneer says sold. Auction company is not responsible for any missing or stolen items.

These Bidder Terms and Conditions ("**Terms**") apply to auctions conducted by BRIGHT STAR REALTY AND AUCTIONS, LLC and constitute a legal, valid, binding, and enforceable contract between Auctioneer and the Bidder. These Terms also form the basis for the final contract of sale between the Seller and the Buyer.

1. **Auctions Conducted Under These Terms.** The Auction is conducted under and in accordance with these Terms, the Terms posted on Auctioneer's website, applicable law, and any announcements or corrections made by Auctioneer during the Auction. By participating in the Auction, whether at the auction site, online, telephonically, or through any other means (including Absentee Bid), Bidder agrees to be bound by, and to abide by, these Terms.

Auctioneer's Licensing and Bonding. Auctioneer is licensed and bonded where required.

2. **Definitions.** The following definitions apply to these Bidder Terms for each auction conducted by Auctioneer:

"Absentee Bid" means a bid submitted in advance by an Absentee Bidder for the execution during the Auction.

"Absentee Bidder" means a person or entity that submits an Absentee Bid.

"Absolute Auction" or "Absolute" applies only if and when expressly indicated and means that property is to be sold to the highest bidder regardless of the amount of the final bid, with no limiting conditions, restrictions, or reservations. UNLESS SPECIFICALLY AND EXPRESSLY STATED BY AUCTIONEER IN WRITING, NO PROPERTY IS BEING SOLD ABSOLUTE OR AT AN ABSOLUTE AUCTION.

"Auction" means the auction sale at which Auctioneer solicits bids, or is scheduled to solicit bids.

"Auction Site" means the physical location of the Auction, or, for an Auction conducted entirely online, the location at which Property may be inspected.

"Bidder Number" means the number or other identifier issued by Auctioneer to a Registered Bidder for the purposes of identifying bids to such Registered Bidder.

"Bidder Registration" means the information provided by a prospective Bidder, and the process of registering such prospective Bidder, to bid at the Auction, including the prospective Bidder's agreement to be bound by these Bidder Terms.

"Broker Participation Fee" means an amount that is paid to a broker who has participated in procuring a Buyer, or has otherwise assisted in facilitating the sale of Property at the Auction, under the Terms and in the amount established by Auctioneer.

"Buyer" means the Winning Bidder with respect to each Lot of Personal Property.

"Buyer's Premium" is an amount with respect to each Lot of Personal Property sold at the Auction, calculated as a percentage of the Hammer Price, that is payable by the Buyer to Auctioneer for Auctioneer's own account.

"Fall of the Hammer" means the point, after bids have been received, at which Auctioneer declares a Lot of Personal Property "sold" to Bidder acknowledged by Auctioneer as having made the Winning Bid. During an auction that is exclusively online, the Fall of the Hammer will occur electronically at the end of timed (or extended) bidding. In an auction that is Subject to Seller's Confirmation, the Fall of the Hammer will occur on Seller's Confirmation of the High Bid Subject to Confirmation.

"Hammer Price" means the high bid amount recognized by Auctioneer with the Fall of the Hammer.

"High Bid" means the high bid amount recognized by Auctioneer at the conclusion of bidding on a Lot.

"High Bid Subject to Confirmation" means the High Bid amount recognized by Auctioneer at the conclusion of bidding on the Lot put up at Auction Subject to Seller's Confirmation. If the High Bid Subject to Confirmation is confirmed by Seller, it will be the Hammer Price.

"High Bidder" means the Bidder recognized by Auctioneer as having made the High Bid with respect to a Lot.

"Knocked Down" or "Knock Down" means, with respect to any Property put up at the Auction, that Auctioneer has acknowledged the Winning Bid with the Fall of the Hammer, or by announcing "sold", or by giving a similar such indication. Property may be Knocked Down electronically at the conclusion of a timed online auction event.

"Lot" means each individual item or grouping of Personal Property offered at one time by Auctioneer.

"No Sale" occurs if Property is put up at the Auction but is not Knocked Down or sold, and Auctioneer passes on such Property or declares a No Sale.

"Online Auction Platform" means the hardware and software utilized to conduct the Auction online and to facilitate online bidding, including any associated, adjunct, and/or complementary websites, services, premiums and promotions.

"Online Auction Platform Provider" means the provider of the Online Auction Platform and related services to conduct Auction online.

"Online Bidding Period" means, with respect to an Auction conducted in whole or in part online, any established period during which bids may be tendered.

"Participant" means any person who attends, or otherwise participates in, the Auction (in person or remotely). The term Participant includes, but is not limited to, Registered Bidders, Bidder, and Buyers.

Bidder Terms and Conditions Continued...

- “Personal Property” means all tangible and moveable property, including fixtures, designated as Property.
- “Pick-up” means the act of picking up or removing sold Lots by respective Winning Bidders at the date(s), time(s), and location indicated for such during the Auction or as later agreed to by Seller and Buyer.
- “Private Sale” means an event in which Property is sold by Seller, or on Seller’s behalf, other than at the Auction (including a sale at an auction conducted by a person or entity other than Auctioneer).
- “Private Sale Price” means the fair market purchase price of the Property paid, or agreed to, at a Private Sale in an arms-length transaction between Seller and the purchaser of the Property. If the Property is sold through a Private Sale for less than its fair market value, or in a transaction that is not an arms-length transaction, or is gifted by Seller, the Private Sale Price will be an amount equal to the fair market value of the Property in an arms-length transaction.
- “Property” means the Real Property and the Personal Property.
- “Purchase Price” means an amount equal to the Hammer Price or High Bid Subject to Confirmation, as the case may be, plus the Buyer’s Premium.
- “Registered Bidder” means a person or entity that has registered to bid at the Auction.
- “Registration Deposit” means, if required by Auctioneer, the deposit, in certified funds, made by a Registered Bidder in order to register for the Auction.
- “Reserve” or “With Reserve” means that the Auctioneer may Withdraw Property put up at Auction and/or bids may be rejected prior to the Fall of the Hammer. UNLESS SPECIFICALLY AND EXPRESSLY STATED OTHERWISE BY AUCTIONEER IN WRITING, ALL PROPERTY IS BEING WITH RESERVE.**
- “Reserve Price” means the minimum price that Seller is willing to accept for specific Property.
- “Seller’s Confirmation” means Seller’s confirmation, approval, and acceptance of the High Bid Subject to Confirmation acknowledged and recorded by Auctioneer.
- “Subject to Seller’s Confirmation” means, with respect to any Property expressly identified in this Agreement as being sold Subject to Seller’s Confirmation, that after the High Bid Subject to Seller’s Confirmation has been received and acknowledged by Auctioneer, Seller may determine, in Seller’s sole and absolute discretion, to (i) accept such bid or (ii) reject such bid.
- “Winning Bid” means the highest bid received and accepted (and if Subject to Seller’s Confirmation, confirmed by Seller).
- “Winning Bidder” means the Bidder who is recognized by Auctioneer as having made the Winning Bid.
- “Withdraw” refers to the circumstance in which the Property is removed from the Auction, or in which it is determined that such Property will not be offered or sold at the Auction.
3. **Bidder Registration.** All persons desiring to bid at the Auction, must register to bid and be issued a Bidder Number. In order to register to bid, each potential Bidder must provide such information (including identifying information and qualifications) as requested by Auctioneer. Auctioneer may refuse to accept a Bidder Registration from any potential Bidder, may refuse to issue a Bidder Number to any potential Bidder, and, if a Registered Bidder breaches any Bidder Terms or engages in improper conduct, Auctioneer may revoke any Bidder Number. By registering to bid at the Auction, each Registered Bidder acknowledges and agrees that such Registered Bidder has read, understands, and agrees to be bound by, these Bidder Terms. In Auctioneer’s discretion, bids may be received from a person who has not registered to bid, and by placing a bid accepted by Auctioneer such unregistered Bidder will be bound by these Bidder Terms and will immediately complete a Bidder Registration.
4. **Governing Law.**
- 1.1 **For Auctions in the State of Indiana and Online.** Unless otherwise indicated, all Property is offered for sale in the State of Indiana, and will be sold in the State of Indiana. Notwithstanding the physical location of the Bidder or any Participant, these Terms are deemed to be entered into in the State of Indiana, all bids and payments are deemed to be received in the State of Indiana, and the contract, if any, will be deemed to be formed and entered into in the State of Indiana.
5. **Buyer’s Premium.** All Property offered at the Auction is subject to a Buyer’s Premium, which will be paid by the Buyer to Auctioneer for Auctioneer’s own account. The Buyer’s Premium will be calculated as a percentage of the Hammer Price, and will be added to the Hammer Price to determine the final Purchase Price. Buyer agrees to pay the Winning Bid plus the applicable Buyer’s Premium.
6. **Access to Auction Site.** Participants assume all risks associated with their presence at the Auction Site or their access to the online bidding platform utilized by Auctioneer. Any person may be denied access to the Auction, the Auction Site, and the online bidding platform utilized by Auctioneer, and may be removed at Auctioneer’s discretion.
7. **Nature of the Auction.** This Property is being sold at the Auction in the manner indicated on the first page of this Agreement.
8. **Bidding.** Registered Bidders may only bid at the Auction by agreeing to be bound by these Bidder Terms. By bidding, each Registered Bidder acknowledges and agrees that such Registered Bidder has had a full and fair opportunity to read, and understands, these Bidder Terms, and affirms that such Registered Bidder is subject to and bound by these Bidder Terms.
9. **No Bid Retraction.** Bidder may not retract a bid that has been acknowledged by Auctioneer or that has been submitted online. Bidder acknowledges and agrees that Auctioneer is acting in reliance on tendered bids in the conduct of the Auction, and that bid retraction is disruptive and interferes with the Auction, and that, as an inducement for Auctioneer to accept such Bidder’s Bidder Registration and for such Bidder to bid at the Auction, Bidder agrees not to withdraw or to attempt to withdraw any tendered bid that has been acknowledged by Auctioneer.
10. **Online Auction.** The following terms and conditions apply if the Auction is conducted, in whole or in part, online:
- 10.1. **Online Bidding Registration.** Anyone desiring to bid online, or to establish the possibility of bidding online, will be required to create an online bidding account by completing all necessary forms and providing required information.
- 10.2. **Bidder Terms and Conditions; Notices and Announcements.** The Auction will be conducted in accordance with Auctioneer’s Terms and any notices or announcements by Auctioneer and/or posted on Auctioneer’s website.
- 10.3. **Posted Times.** All times are based on the Eastern Standard Time zone unless stated otherwise. Posted closing times and time displays are approximate. Auctioneer reserves the right to close early or extend the Auction at any time at Auctioneer’s sole and absolute discretion.

Bidder Terms and Conditions Continued...

- 10.4. **Online Bidding Increments.** Auctioneer may establish bid increments, and may modify or change bid increments, in Auctioneer's sole and absolute discretion.
- 10.5. **Records of Online Activity.** Absent clerical errors, Auctioneer's records will be deemed final and conclusive.
- 10.6. **Technology Disruptions.** Auctioneer will not be responsible for technology disruptions, errors, or failures (including disruptions to bidding or the failure to execute, recognize, or record online bids), whether caused by (i) loss of connectivity, breakdown, disruption, or failure of the Online Auction Platform, (ii) breakdown, disruption, or failure of a Bidder's internet connection, computer, or system, (iii) viruses or software malfunction, or (iv) otherwise. Auctioneer may, but will not be required to, continue, suspend, delay, extend, reschedule, or close the Auction because of disruptions caused by technology failures, even after bidding has commenced.
- 10.7. **Failures by Online Auction Platform Provider and its Affiliates or Contractors.** Auctioneer may use an Online Auction Platform Provider to facilitate the Auction. Under no circumstances will Auctioneer be liable for any failure of the Online Auction Platform Provider to perform all or any of its obligations, or for the failure of any affiliates, employees, agents, representatives, or contractors of the Online Auction Platform Provider to perform their obligations.
- 10.8. **Auto Extend Feature.** Any Online Bidding Period may include an auto extend feature. This means that, if an online bid is entered within a set time period approaching the end of the established Online Bidding Period, the Online Bidding Period will automatically be extended for an additional amount of time in increments established by Auctioneer, and will continue to be so extended until there is a set period of time that lapses during which no online bids are received, after which bidding will close.
- 10.9. **Disclaimer.** Auctioneer makes no representations or warranties, and disclaims any representations or warranties, (i) that the Online Auction Platform or any related website or technology will be uninterrupted, error free or virus free, (ii) as to the results that may be obtained by using the Online Auction Platform or any related website or technology, or (iii) as to the accuracy, completeness, reliability, security, or current nature of the Online Auction Platform or any related website technology.
- 10.10. **Responsibility for Online Bids.** If a Winning Bid is sent to Auctioneer from the computer of a Registered Bidder, and is, thereafter, confirmed by Seller, such Registered Bidder will be the Buyer.
- 10.11. **No Reduction or Retraction of Online Bids.** Online bids may not be reduced or retracted.
- 10.12. **Competing Online and Onsite Bids.** In the event of contemporaneously made online and onsite bids, Auctioneer will determine which bid is the successful bid, and may, in Auctioneer's discretion, reopen the bidding.
- 10.13. **Winning Bidders Subject to Certification by Auctioneer.** The final determination of the Winning Bidder is subject to certification by Auctioneer; and any email or electronic message (whether generated manually or automatically) is subject to such certification.
11. **Absentee Bids; Remote Bidding.** In Auctioneer's discretion, Auctioneer may receive Absentee Bids and/or bids tendered by remote Bidders (whether telephonically or otherwise). All prebids and maxbids placed online are considered absentee bids. Auctioneer pledges complete integrity in the treatment of absentee bids and absentee bids may be initiated and advanced in accordance with Auctioneer's policies and procedures. Auctioneer has the right to initiate any absentee bids at 25% to 50% of their maximum amount. Auctioneer will make reasonable efforts to execute Absentee Bids, but Auctioneer will have no liability to any Absentee Bidder for the failure to execute any Absentee Bids for any reason whatsoever. Each Absentee Bidder acknowledges and agrees that Property may be sold to another Bidder for the maximum amount of the Absentee Bid based on a bidding sequence that causes another Bidder to reach such amount first. If the execution of an Absentee Bid at its maximum amount would require Auctioneer to accept a bid that is less than a full bidding increment, Auctioneer has the sole and absolute discretion to accept or reject such bid. An Absentee Bidder may provide instructions to the Auctioneer to advance the bid by one or more bidding increments after the maximum amount of the Absentee Bid is, or would be, reached. Auctioneer acts only as the agent of the Seller, and the receipt and/or execution of Absentee Bids will not create an agency relationship between Auctioneer and any Absentee Bidder.
12. **Bid Increments.** Bid increments are established and controlled by Auctioneer, and may be adjusted or modified in Auctioneer's sole and absolute discretion.
13. **Registered Bidders Responsible for Bids Placed on Bidder Number.** Each Registered Bidder is responsible for the Bidder Number issued to such Registered Bidder. Auctioneer is not responsible for monitoring or policing the use of Bidder Numbers, and each Registered Bidder is responsible for all bids made on the Bidder Number issued to such Registered Bidder even if the Registered Bidder claims that the Bidder Number was lost, stolen, or misappropriated, unless notice of a lost, stolen, or misappropriated Bidder Number was provided to Auctioneer prior to an unauthorized bid being made. Absent a clerical error, Auctioneer's recording of bids against a Bidder Number will be conclusive as to the making of such bid by, or on behalf of, the Registered Bidder.
14. **Withdrawal of Property.** Auctioneer has the absolute right to withdraw any Property from the Auction prior to the Fall of the Hammer, unless the Property is explicitly provided that the Property is being sold at an Absolute Auction.
15. **Winning Bid; Buyer.** Pursuant to these Bidder Terms, the Bidder making the Winning Bid for any Lot of Personal Property will be the Buyer of such Property.
16. **All Property Sold "AS IS", "WHERE IS", and "WITH ALL FAULTS".** ALL PROPERTY IS BEING OFFERED AND SOLD IN ITS AS IS/WHERE IS CONDITION AT THE TIME OF THE AUCTION, WITH ALL FAULTS, INCLUDING ANY HIDDEN DEFECTS OF ANY NATURE. NEITHER AUCTIONEER NOR SELLER MAKES ANY REPRESENTATIONS, WARRANTIES, OR GUARANTEES WHATSOEVER, EXPRESS OR IMPLIED, REGARDING THE NATURE, VALUE, SOURCE, AUTHENTICITY, FITNESS, MERCHANTABILITY, AND/OR ANY OTHER ASPECT OR CHARACTERISTICS OF SUCH PROPERTY. NO STATEMENT ANYWHERE, WHETHER EXPRESS OR IMPLIED, INCLUDING VERBAL STATEMENTS MADE BY AUCTIONEER, WILL BE DEEMED A WARRANTY OR REPRESENTATION BY AUCTIONEER OR SELLER. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, THERE ARE NO WARRANTIES OF TITLE, NON-INFRINGEMENT, AUTHENTICITY,

Bidder Terms and Conditions Continued...

ORIGIN, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE, ALL OF WHICH ARE EXPRESSLY DISCLAIMED. EACH BIDDER ACKNOWLEDGES AND AGREES THAT HE, SHE, OR IT CANNOT RELY, AND HAS NOT RELIED, ON ANY REPRESENTATION, WARRANTY, OR GUARANTY MADE BY THE SELLER OR ANYONE ACTING AS AGENT OF THE SELLER, ORALLY OR IN WRITING, ABOUT THE PROPERTY, OR ANY OF IT. BY BIDDING, EACH BIDDER ACKNOWLEDGES AND AGREES THAT SUCH BIDDER HAS HAD A FULL AND FAIR OPPORTUNITY TO INSPECT THE PROPERTY, AND IS RELYING SOLELY ON, OR HAS WAIVED, SUCH BIDDER'S INSPECTION AND INVESTIGATION (i) IN DETERMINING WHETHER TO BID, (ii) IN DETERMINING THE AMOUNT OF A BID, AND (iii) IN BIDDING.

17. **Announcements.** Subject to the limitation set forth in these Bidder Terms, all terms and conditions and other announcements made by Auctioneer on the day of the Auction are binding and take precedence over any advertisements or listings.
18. **Bidder's Inspection.** By bidding, each Bidder acknowledges and agrees that such Bidder has had a full and fair opportunity to inspect the Property, and is relying solely on, or has waived, such Bidder's inspection and investigation (i) in determining whether to bid, (ii) in determining the amount of a bid, and (iii) in bidding. Bidder accepts any and all risks associated with the purchase and/or use of the Property. Bidder agrees to defend, hold harmless, indemnify, and protect both Auctioneer and Seller from any all claims of injury arising out of or relating to the purchase or use of the Property.
19. **Description of Property.** Unless otherwise expressly stated otherwise in writing, any description of Property is based solely on visual impression, and is given solely for identification purposes, and does not create any warranty, expressed or implied, or representation by Auctioneer.
20. **Contract of Sale for Personal Property.** By operation of these Terms, no additional or further writing will be required to evidence the existence of a contract of sale for any Personal Property Knocked-Down at the Auction regardless of the Purchase Price, and these Bidder Terms, together with Auctioneer's clerking sheets or other physical or digital notation identifying the Lot, the Hammer Price, and the Buyer, will be conclusive evidence as to the terms of the sale. These Bidder Terms will be incorporated into the contract between each Buyer and Seller.
21. **Bidding by or on Behalf of Seller.** At an Absolute Auction there is no Seller bidding. The Seller or anyone acting on the Seller's behalf will not bid (directly or indirectly) on any Property put up at Absolute Auction. At a Reserve Auction, the Seller or anyone acting on the Seller's behalf will not bid (directly or indirectly) on any Property put up at Reserve Auction, unless the Auctioneer announces and discloses that the Seller (or someone on behalf of the Seller) will be bidding at the Auction.
22. **Conduct of the Auction.** Auctioneer will regulate all matters relating to the conduct of the Auction and Auctioneer's decisions will be final and binding. Auctioneer will have control over bidding, and Auctioneer will resolve any and all disputes. If (i) a bid is made while the hammer is falling in acceptance of a prior bid or while bidding is otherwise being terminated, or (ii) promptly after the Fall of the Hammer or other termination of the bidding Auctioneer is made aware of a bid that was unnotified prior to the Fall of the Hammer or other termination of the bidding, and it is demonstrated to Auctioneer's satisfaction that such bid was, in fact, timely made, or (iii) promptly after the Fall of the Hammer or other termination of the bidding Auctioneer is made aware that Auctioneer and a bid assistant or ringman, or multiple bid assistants or ringmen, have acknowledged bids in the same amount bid from different bidders, or (iv) some other bid dispute arises, Auctioneer may, in Auctioneer's sole and absolute discretion, reopen the bidding (but will not be required to). Any contract formed with the Fall of the Hammer will be subject to the conditions set forth in this Section. If bidding is reopened pursuant to this Section, the bid recognized by Auctioneer prior to the reopening of the bidding will be held, and may not be retracted, and, if no further bids are received, such bid will be the Winning Bid.
23. **Motor Vehicles and Equipment.** Any and all motor vehicles and motorized equipment (including, without being limited to, automobiles, trucks, vans, recreational vehicles, motor cycles, motor scooters, tractors, earth moving equipment and other heavy equipment) must be paid in full prior to removal from the Auction Site; and, if any vehicles or equipment is paid for with a check, the vehicle or equipment will not be released unless and until the check clears the drawee bank and the funds have been received by Auctioneer.
24. **All Sales Final.** ALL SALES ARE FINAL. NO REFUNDS OR RETURNS.
25. **Sales Tax.** Subject to applicable exemptions, if any, each Buyer is responsible for the payment of sales tax for each Lot Knocked-Down at the Auction, which sales tax will be collected by Auctioneer at the time payment is made.
26. **Payment.** All Personal Property must be paid for in-full by onsite Buyers on the day of the Auction, at or before the conclusion of the Auction, and before any Property is removed from the Auction Site by or on behalf of the Buyer. Online purchases are due upon receipt of your invoice. Onsite purchases may be paid in cash or approved check, and, when authorized by the Seller and made available by Auctioneer, by credit card or debit card. Cash payments totaling Ten Thousand Dollars (\$10,000) or more will not be accepted. If onsite bidders wish to send a wire, they must present a bank letter of credit (with limit stated equal to or higher than the amount owed by bidder) and wire must be sent no later than one business day after the auction. Online purchases must be paid by credit card or approved check; provided, however, that any online purchases in excess of Two Thousand Five Hundred Dollars (\$2,500.00) must be paid by wire transfer or certified funds unless other arrangements are made with Auctioneer in Auctioneer's sole and absolute discretion.
27. **Wire Transfer Payments.** Buyer shall obtain verbal verification of all bank account information from Bright Star Auctions prior to initiating transfer. Except as otherwise provided by law, we shall not be liable for any loss or damage due to misplaced, unauthorized or fraudulent fund transfers.

Bidder Terms and Conditions Continued...

28. **ACH/eCheck Payments.** By providing account information to Bright Star Auctions, buyer gives permission for Bright Star Auctions to retain payment information on file and represents they are the authorized account holder. Upon authorization to collect payment from Buyer's account and prior to transfer, Buyer is responsible to notify their financial institution of the impending transaction. Buyer agrees to notify Bright Star Auctions of any changes in account information.
29. **Returned Checks.** Any checks that are returned unpaid will be subject to a returned check fee in the amount of Fifty and 00/100 Dollars (\$50.00). In addition to the foregoing, Auctioneer will be entitled to recover, from the issuer of a returned check, all costs and expenses, including attorneys' fees, for the collection of payment made in the form of a check that has been returned unpaid.
30. **No Stop Payment Orders or Credit Card Chargebacks.** Each Bidder agrees that such Bidder will not, under any circumstances, (i) issue a stop payment order with respect to any checks issued at or in connection with the Auction, or (ii) initiate a credit card chargeback with respect to any purchases at the Auction. Each Bidder further agrees that if, in violation of these Terms, a stop payment order is issued or a credit card chargeback is initiated, these Terms will be conclusive evidence of the Bidder's (i) waiver of any rights to issue a stop payment order or to initiate a credit card chargeback, and (ii) agreement not to issue a stop payment order or to initiate a credit card chargeback; and each Bidder acknowledges and agrees that on Auctioneer's presentation of these Terms to the bank, credit card company, or other financial institution against which a check was drawn or that issued the credit card on which charges were made, such bank, credit card company, or other financial institution will reverse any stop-payment order and/or deny any credit card chargeback, and will re-credit all amounts to or for the account of Auctioneer. If, in violation of these Terms, a Bidder issues a stop payment order or initiates a credit card chargeback, such Bidder, even if successful, will remain liable for all purchases made at the Auction, and will be responsible for all costs and expenses, including attorneys' fees, incurred by or on behalf of Auctioneer and/or Seller in challenging the stop payment order or credit card chargeback and in collecting payment. Each Bidder acknowledges and agrees that the covenant not to issue a stop payment order or to initiate a credit card chargeback is a condition to the issuance of a Bidder Number to such Bidder, and is being made as an inducement for Auctioneer to accept such Bidder's Bidder Registration and to issue a Bidder Number. Each Bidder acknowledges and agrees that Auctioneer is relying on the covenant not to issue a stop payment order or to initiate a credit card chargeback in accepting such Bidder's Bidder Registration and in issuing a Bidder Number.
31. **Pick-up and Removal; Shipping.** Each Buyer is responsible for removal of Lots purchased at the Auction, including shipping to remote Buyers. Pick-up and removal dates and times will be as posted on Auctioneer's website or announced at the Auction. Unless otherwise agreed, each Buyer is solely responsible for the disassembly, removal, shipping, and transportation of each Lot purchased by such Buyer. Tools, packing material, and/or assistance will not be supplied at Pickup, so Buyer must plan accordingly. Disassembly and removal shall be done in a quiet and workmanlike manner, and each Buyer, in making its bid, shall thereby indemnify and hold harmless both Auctioneer and Seller against any and all damage caused by the acts of the Buyer, or such Buyer's employees, agents, representatives, or independent contractors in connection with the Pickup. Any and all damages to the Pickupsite, including, without being limited to damages to land or buildings, caused by a Buyer or by an employee, agent, representative, or independent contractor of a Buyer, will be repaired by, or at the expense of, such Buyer to the satisfaction of Auctioneer and Seller. Each Buyer must show a copy of the invoice (digital or hard copy) and government-issued photo identification before Lots will be released. No Buyer shall bring pets or young children to the Pickup, as the movement of Lots presents an extremely high-risk environment that could result in injury or death.
32. **Insurance.** Any work performed by Purchaser(s) or Purchaser Representative (including sub-contractors) shall be insured and provide proof of coverage against all claims for injuries against persons or damages to property which may arise from or in connection with the removal of items or equipment. Insurance coverage requirements are as follows: General Liability \$1,000,000/\$2,000,000 and Worker's Compensation \$1,000,000 or as required by State Law. Seller shall be listed as additionally insured, if required.
33. **Abandoned Items.** Any Lots not paid in full, not picked up and removed in the time provided (but, under any circumstances, within thirty (30) days after the Auction), or for which payment has not cleared (within five (5) days after the Auction), will be considered abandoned and may be offered for sale at a later auction or subject to other disposition. Such abandonment does not, however, relieve the Buyer or the Buyer's obligation to make payment in full. Any payments made by or on behalf of a Buyer are non-refundable, and Buyers will remain responsible for the full purchase price of all Lots sold to them. In addition, Buyer's bidding privileges may be suspended at future auctions.
34. **Claims.** With respect to Lots removed from the Auction Site by or on behalf of a Buyer, no claims or returns will be allowed and no claim will be allowed for adjustments or rescission of any sales based on the failure of a Lot to correspond with any standard and/or expectation of the Buyer.
35. **Risk of Loss for Personal Property.** Risk of loss with respect to Personal Property passes to the Buyer with the Fall of the Hammer. Neither Auctioneer nor Seller will be liable for any loss or damage to a Lot after such Lot is sold at the Auction, other than as may be directly and solely caused by Auctioneer's negligence, gross negligence, or intentional misconduct in handling and safeguarding the Lot while in Auctioneer's sole and exclusive possession.
36. **Buyer's Remedies; Bidders/Buyers Not Entitled to Incidental or Consequential Damages.** To the extent that any Bidder or Buyer may be entitled to damages or remedies, the sole and exclusive remedy available to Bidders and Buyers is a return of the Purchase Price actually paid. Under no circumstances will Auctioneer or the Seller be liable for incidental or consequential damages, including, without being limited to lost profits or reduced productivity. Each Bidder acknowledges and agrees that no Bidder or Buyer is entitled to specific performance or other equitable relief.
37. **Seller's Remedies.** If any Buyer breached such Buyer's obligations under these Terms or under a sale contract with the Seller of Property sold at the Auction, in addition to all other legal and equitable remedies, such property may be resold and the breaching Buyer will be responsible for any and all damages, including any deficiency or reduction in the Purchase Price, along with incidental damages.

Bidder Terms and Conditions Continued...

- 38. **Indemnification.** Each Bidder agrees to indemnify, defend, and hold Auctioneer and Seller harmless from any current or future claim regarding the Auction or the Property, including, without being limited to, fitness, use, damage, safety, or injuries to persons or property.
- 39. **Private Sale.** No Participant or Registered Bidder may offer to enter into a Private Sale for the purchase of any of the Property prior to, during, or after the Auction. If any of the Property is not Knocked Down at the Auction and Bidder enters into an agreement to buy (i) any of the Personal Property from the Seller within ten (10) days after the Auction, and/or (ii) any of the Real Property within ninety (90) days after the Auction, Bidder shall pay to Auctioneer an amount equal to Auctioneer's full commission and Buyer's Premium.
- 40. **Waiver.** Certain provisions of these Bidder Terms are for the exclusive benefit of Auctioneer and/or Seller(s). Such provisions, including, without being limited to, Bidder registration and qualification requirements, deposit and payment terms (including the method, form, and timing of payment), removal and delivery terms, and Property inspection terms), do not create, and will not be deemed to create, any benefits or rights in favor of any other persons, including competing Bidders, and may not be enforced by any other persons. Either globally or on a case by case basis Auctioneer and/or Seller may (but will not be required to) waive any provisions of these Terms that are intended for the benefit of Auctioneer and/or Seller.
- 41. **Compliance with the Law.** Bidder shall not engage in any illegal conduct on the Auction Site and shall comply with all federal, state, and local laws. Bid pooling occurs when Bidders collude to regulate, and artificially suppress, bidding in an effort to reduce the Hammer Price. Anyone participating in bid pooling will be removed from the Auction Site and referred for prosecution. Theft is a serious offense, and, if discovered, will be prosecuted to the fullest extent of the law. Instances of theft will result in immediate termination of bidding and removal from the Auction Site.
- 42. **Governing Law; Jurisdiction; Venue; Waiver of Jury Trial.** These Bidder Terms will be governed by and construed in accordance with the laws of the State of Indiana, including its statutes of limitations, but without regard to its rules governing conflict of laws. All claims, disputes, and other matters between the parties will be brought in the state or federal courts sitting in and for Elkhart County, Indiana, which courts will have exclusive jurisdiction, and will be the exclusive venue, for any and all such claims, disputes, and other matters. By submitting a Bidder Registration and accepting a Bidder Number each Registered Bidder irrevocably and unconditionally (i) agrees that any claim or suit relating to these Bidder Terms, or the transactions contemplated hereby, will be brought in the state or federal courts sitting in and for Elkhart County, Indiana.; (ii) consents to the jurisdiction of such courts for any such claim, suit or cause of action; (iii) waives any objection that such party may have to the laying of venue of any such claim, suit or cause of action in such courts; and (iv) waives any objection to the bringing of such claim, suit or cause of action in such courts on the grounds of *forum non conveniens*. Each Bidder, Buyer, and other Participants waive the right to a jury trial.
- 43. **Attorneys' Fees.** If any Participant breaches such Participant's obligations under these Terms, Auctioneer and/or Seller will be entitled to recover all costs and expenses, including attorneys' fees incurred in enforcing their rights.

Phone Bidding instructions for Bright Star Auctions

If you can't make the auction, Bright Star is happy to accommodate you over the phone. By following the instructions below, you will be able to listen to the auctioneer and announcer and enjoy the crystal clear audio on the Bright Star Auction line.

Registration:

- Call the office at (574) 825-0704 ext 5 to register and get a bidder number. Preferably do this before auction day. Share your fax or email to receive the updated catalog the day before the auction.

Joining the Auction:

- **Ring 1: Call (419) 677-0715 and enter ID#: 904 359 662#.**
 - Ring 2 (if applicable): Call (832) 680 -1799 and enter ID#: 464 897 846#.
- You'll be placed in the auction audience upon calling.

Bidding Process:

- To bid, press *6 to unmute, state your bidder number and "yes" (e.g., "bidder 2532, yes").
- The ringman communicates your bid to the auctioneer.
- Press *6 to mute yourself when you are done bidding.
- Be sure to speak your bidder number first, loudly, and clearly.

Post-Auction Payment:

- Call (574) 825-0704 ext 4 within two hours after the auction to arrange payment.
- Credit cards are only accepted on invoices with a total of less than \$2500. Cash payments are only accepted on invoices with a total of less than \$10,000.
- Payments are due immediately post-auction.
- If you don't have fax or email, you'll be notified of your total by phone.
- Mail checks to: Bright Star Auctions, 11751 CR 12, Middlebury, IN 46540.

Additional Tips:

- Please do not try to bid on speaker phone.
- Hundreds of photos in the online catalog.
- Log into the conference line 15 minutes early to avoid missing your lot.
- If you have trouble getting logged in, please call the office at 574-825-0704.

Trucking Services:

- US Logistics
 - Contact Nathaniel Stoltzfus
 - Phone: (570) 660-4246

- **Enjoy the convenience of bidding from home with Bright Star!**

Auction recordings are again available on the conference line:

Call: (712) 432-8774 - Conference id: 274448 # - Recording id: [6-digit date of auction] For example Williamsfield Valley Veneer was on September 21st, 2022. So, the recording id is 092122.

Press 1 to *pause or restart*, press 4 to *rewind* 2 minutes, press 6 to *fast forward* 2 minutes.
