# From the Editor

*Monday, May 11th, 2026*

Yesterday was Mother's Day. On my You Da Dad calendar it says that Mother's Day is the third-largest holiday for giving cards according to Hallmark. Christmas and Valentine's Day are the top two. My calendar also said to plan ahead and not downplay it (thank you, Todd), so I did my best to do that.

On Saturday we brought home a massage chair that we bought at the Factory Direct auction. We had been wanting to try one and were waiting for the price to drop a bit. We got it set up just in time for Mother's Day. We also went to the greenhouse and brought home a trailer load of flowers.

With spring in the air, the birdsong is so beautiful. That may be one reason why spring is my favorite season. It's something the other seasons just can't replicate. The last verse in the Book of Psalms is Psalm 150, verse 6: "Let everything that has breath praise the Lord. Praise the Lord!" I got to thinking that the birds are doing exactly what God designed them to do, and that is to praise Him. How am I doing with that compared to the birds? I get so wrapped up in "the cares of this world and the deceitfulness of riches" that I forget we were made to praise the Lord.

The May 25 WoodRing auction has been canceled due to Memorial Day. We also have a few other holidays listed on page 17 when the offices will be closed.

Hopefully the cover of the book isn't too confusing with all the auction names for May 26. All of those locations are part of one auction starting at 9 a.m. Eastern. Hickory Run is called Weaver Sawmill in the Bid Book. There is also M&M Sawmill, Hilltop Pallet, and Kinkaid Kutstock that have been added since I designed the cover. Be sure to check them out in the Bid Book section. They are split out by information lots.

If you ever need to apply for a loan to buy equipment, you can do so through Bright Star's credit application at the beginning of the Bid Book section. You can fill it out and send it in by mail, email, or fax, and they will process it and hopefully help get you approved if everything works out.

Have a good week!

Until next time,

# Equipment Market Report

*Brought to you by Bright Star Auctions*
*Eugene Hochstetler / Vice President / (574) 242-1100*

The latest round of auctions gave us a good look at several different parts of the market, from shop equipment and rolling stock to sawmill equipment and lumber products. While each auction had its own flavor, buyer activity remained steady where quality, usable equipment was offered.

*Cleereman 38 Entirety - Sold for $25,000*

*Ligna Gang Saw - Sold for $31,000*

The Ronald Hamilton Estate – Absolute Liquidation Auction in Lafayette, Indiana featured a fully operating machine shop with lathes, milling machines, presses, welders, older rolling stock, and shop support items. Highlights included a Snap-on 600 lb. torque wrench, along with chainsaws, tools, shop equipment, and support items that drew steady interest from buyers.

The Pine Log Company – Absolute Sawmill Equipment Auction in State Road, North Carolina featured sawmill equipment, forklifts, a Barko 160D stationary knuckleboom, and related support equipment from a working operation. This auction offered buyers a strong opportunity to purchase equipment from an established sawmill operation.

The WoodRing auction on May 4th continued to build interest on the lumber side, featuring truckload quantities of notched #1 grade pallet stringers along with mixed hardwood deck boards. As WoodRing moves into its weekly Monday schedule, this platform continues to create a more regular marketplace for both buyers and sellers.

*Webster - Sold! $7500*

*McDonough - Sold! $15,000*

*Sky Trak - Sold! $16,000*

*Virtual Liquidation 5.26 - 2018 Wood-Mizer*

*Virtual Liquidation 5.26 - Baker Band Resaw*

Overall, these auctions showed steady buyer participation across several categories. Usable shop equipment, sawmill equipment, and lumber products continue to find interest in the marketplace, and the move to weekly WoodRing auctions should give both buyers and sellers more consistent opportunities moving forward.

# Protecting Yourself From Equipment Fraud

The internet has made buying and selling equipment easier than ever before, opening doors to opportunities across the country and around the world. But along with those opportunities has come increased risk. Fraud in online transactions is real, and both buyers and sellers need to be alert.

For buyers, one of the first warning signs can be a piece of equipment priced far below market value. A deal that looks unusually good may deserve a closer look. Scammers often use attractive pricing to create urgency and pressure a buyer into acting before asking enough questions. Taking time to compare prices, verify details, and do a little homework can go a long way.

Another growing concern is copied or fraudulent listings. It is not uncommon for bad actors to pull photos and descriptions from legitimate advertisements and repost them as their own. That is why buyers should ask for current photos, videos, serial numbers, and, when possible, speak directly with the seller by phone. A trustworthy seller should have no issue providing reasonable verification. If communication feels vague or evasive, that alone may be reason to slow down.

Payment methods also deserve caution. Buyers should be wary of pressure to wire money quickly or send deposits before proper verification. Fraud often thrives on urgency. A little patience can prevent a costly mistake.

Sellers, meanwhile, face risks of their own. Fraudulent checks remain a common threat, particularly in larger transactions. A check may appear legitimate, and funds may even show as available in your account before the payment is fully verified. If the check later proves fraudulent, those funds can be reversed after the equipment has already changed hands. For that reason, it is wise never to release equipment until payment has been fully confirmed with your bank. Some sellers may prefer certified funds or other verified payment methods, but even then, taking time to verify the funds can provide valuable protection.

Overpayment scams are another tactic sellers should recognize. A supposed buyer sends more than the purchase amount and asks the seller to return the difference. That is often a major red flag. Likewise, sellers should be cautious of buyers who refuse phone calls, push unusual payment arrangements, or claim a third party will handle shipping and pickup.

Whether buying or selling, common sense still goes a long way. Ask questions. Verify who you are dealing with. Be cautious of rushed decisions. Trust your instincts when something feels off.
The good news is most people in the equipment business are honest people. But fraud tends to target those moving too quickly or assuming everyone operates in good faith. A little caution upfront can protect both your money and your equipment.

In today's market, being a smart buyer or seller means more than understanding values. It means knowing how to protect yourself. And sometimes the best deal you make is the one you walk away from.

If you ever have doubts about a listing, a buyer, or a transaction, feel free to contact us. We're always glad to answer questions and help you in whatever way we can.

Buyers are responsible for picking up purchased items at the yard where the sale takes place. While the consignor strives to ensure safe transit to our yard, minor damage may occur during shipping due to limited protective packaging. For this reason, customers are strongly encouraged to preview and inspect items prior to the sale date. These items are unused and appear to be in working condition based on our assessment. However, because they are sourced internationally, they may differ from domestic brands in design, materials, construction methods, and finish.
