From the Editor

Monday, October 12th, 2026

Today is Columbus Day, October 12. A federal holiday that commemorates Christopher Columbus arriving in the Americas in 1492. Columbus and his crew crossed the Atlantic Ocean in small wooden sailing ships, not knowing exactly what they would find on the other side. Makes me think about how much the world has changed since then and how fortunate we are to *'drink from wells that we didn't dig and harvest from orchards that we didn't plant.'*

Speaking of things we sometimes take for granted, the folks down in Florida have had a rough few days. Hurricane Isaias made landfall near Destin, Florida, as a Category 2 storm, bringing damaging winds, flooding, and widespread power outages. At least four people have lost their lives in Florida and Alabama. It's hard to imagine watching the wind and water destroy your home or business and not being able to do much about it. Let's remember those families and communities as they work to clean up and rebuild.

Another thing that has been making the news lately is the price of diesel fuel. According to AAA, the national average is currently around \$6.27 per gallon, and here in Indiana it's even higher, averaging about \$6.64. I imagine that cuts directly into the profits for those of you operating sawmills, logging equipment, trucks, and other diesel-powered equipment. Those costs have to be absorbed somewhere and by someone, and that makes it harder for everyone involved. Hopefully, we'll see some relief at the pump before too long.

As we move farther into October, the days are getting shorter and winter isn't too far away. Another reminder to enjoy the beautiful fall days while we have them. Get outside, spend some time with your family, and take a moment to appreciate the many blessings the Good Lord has given us.

Have a great week!

Until next time,

Wayne Nisley, Editor

ATTENTION PHONE BIDDERS

DON'T HANG UP YET.

Winning your lot on the phone doesn't count until your number does.

Here's the issue: a phone bidder wins a lot, but the number gets missed, garbled, or never clearly repeated back before they hang up. In the past, we'd clerk that lot to the auction company and hope we could pull the right number off the call recording afterward.

When we couldn't, that lot sat sold but unassigned to anyone — until the buyer happened to call back in. That's how we ended up with a policy.

STAY ON THE LINE

**UNTIL THE AUCTIONEER REPEATS AND CONFIRMS YOUR
BIDDER NUMBER.**

NEW POLICY — EFFECTIVE IMMEDIATELY, ALL AUCTIONS

Thank you, bidders, for your participation in business.

Sincerely,
Bright Star Auctions

AUCTIONS

BRING YOUR PAID INVOICE.

Every Pickup. Every Time.

Your paid invoice is the only thing at load out that proves two things at once: which lots are yours, and that they are paid for.

Bring it and you will be loaded and gone. Show up without it and you will have to wait while somebody tracks down the office, makes a call, and confirms what you already know.

WHY IT MATTERS

On a liquidation away from our yard, the person releasing your equipment may not have a catalog, a computer, or any way to look you up.

Without your invoice, there is no proof that the equipment can be released to you.

PROTECTING EVERY BUYER

That is also why we ask everyone releasing equipment — our crew, our sellers, and their teams — not to load anyone **who does not have one. It is not about doubting someone's word. It is about the buyer who paid for that machine and expects it to be there when he arrives.**

Once equipment is on a trailer and down the road, that is a hard thing to undo. The paid invoice is what keeps it from happening in the first place.

BRING ONE OF THESE

Printed
Copy

Invoice on
Your Phone

Either one works.

NEED ANOTHER COPY?

We'll send one.

Call or email the office and ask for a copy of your paid invoice. We will send it right over.

(574) 825-0704

ar@brightstarauctions.com

Do it before you head to the site and you will never think about it again.

**NO PAID INVOICE.
NO LOAD OUT.**

- It protects your money.
- It protects your equipment.

SUPREME

MFG

GREEN CHAIN

Built around a rugged C55 chain platform as standard, with full flexibility to accommodate virtually any chain configuration required. Driven through a heavy-duty reduction gearbox and compatible with the drive system of your choice, this setup is engineered for reliable industrial performance in demanding applications.

DRIVE OPTIONS INCLUDE:

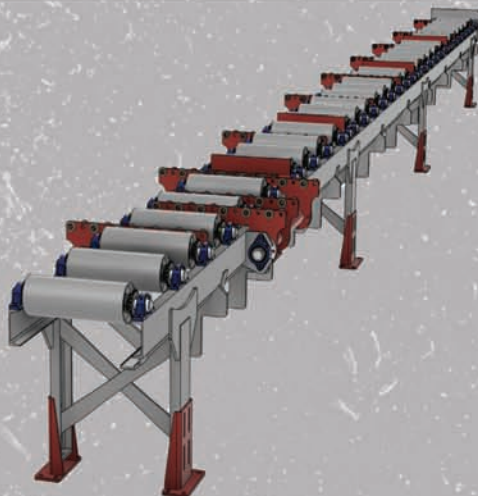

- 2-6 Strand - Any length & width
- Endless Chain options

ROLLCASE

Designed for high-capacity material handling, the Rollcase comes standard with rugged 6" diameter rolls, with custom roll diameters available to meet your operation's exact requirements.

Fully customizable in both length and width, each system can be configured with hydraulic, electric, or line shaft drive options for dependable, industrial-grade performance in demanding environments.

LUMBER CART

Built for rugged material handling, the Lumber Cart features a durable 42" x 92" platform designed to move heavy loads with ease. Complete with heavy-duty casters and two uprights as standard, this cart delivers reliable performance, smooth mobility, and long-lasting durability for industrial lumber operations.

- 42" x 92"
- Heavy Duty casters
- 2 durable uprights

ENGINEERED SOLUTIONS

FROM INDIVIDUAL EQUIPMENT TO COMPLETE TURN-KEY OPERATIONS!

With the purchase of Frontline equipment, we now have more options for different styles of transfer equipment, including log deck, vibrating conveyor, barn sweep, and More!

LOG DECK

The frontline log deck is a heavy-duty material handling system designed to receive, stage, and feed logs efficiently into the production line. Engineered for strength and reliability, it helps maintain a steady flow of timber while improving operational efficiency and reducing downtime.

FEATURES:

WR 82 Chain, AR400 Wear Strip, Anson UHMW Bearings, 2-15/16" Head Shaft w/Tulsa Drive, 6x8x3/8 Double Stack Tubing Strands

VIBRATING CONVEYOR

Designed to efficiently move slabs, edgings, chips, and debris through the production process using controlled vibration. Built for durability and continuous operation, it helps maintain smooth material flow, reduces buildup, and improves overall production efficiency.
