### Your mail management partner

## Your mail management partner

# An easy-to-use desktop folder inserter that can be used to process all your mail

The DS-63 is able to quickly and automatically process batch mailings such as invoice runs or direct marketing. This is achieved thanks to an easy-to-use graphic touch screen and highly developed ergonomics. Based on a tried and tested platform, it is 100% reliable, so your mail will be processed on time. Combined with our mail management software that features grouping, sorting and splitting capabilities, the DS-63 will help to optimise your mail flow and deliver significant cost savings.

All in one mail management solution

Graphic touch screen – for intuitive use

Powerfold - for precise folding

Flexfeed - to process each and every one

Of your mail management applications

Low noise level and compact size – to suit every work environment

### Enhanced ease of use

The DS-63 is equipped with a graphic touch screen that makes it easy-to-use and allows applications stored in the memory to be accessed quickly. A step-by-step wizard allows all users to define settings for their applications and store them quickly in the memory.

The DS-63 is a model of ergonomic efficiency and its compact size and low noise level make it suitable for use in every working environment.

# Maximum flexibility to suit your activity

The DS-63 is very versatile and can be configured in several different ways. The FlexFeed function allows you to process all document formats (inserts, reply forms and return envelopes).

Additionally, the "daily mail" function allows you to process mail that may contain a variable number of documents depending on the recipient (for example, invoices).

### **Neopost mailroom solutions**

### Franking Machines -

- 1. Huge postal discounts
- 2. Improved efficiency
- 3. In line solution

### Output Management -

- 1. Ensure document integrity
- 2. Optimise workflow
- 3. Intelligent inserter controls

### Address Hygiene -

- Match your database against Royal Mail
- 2. Unlimited access to Royal Mail's PAF database
- 3. Access Royal Mails' best discounts

### **Integrated process**

Combined with Neopost's OMS software solutions, the DS-63 can automate variable pages for document preparation thus avoiding manual handling and errors.

With our Insert'N Frank solution, you can automate your total mail flow by connecting the DS-63 to a Neopost franking system.

### Maximum security

The DS-63 facilitates processing of mail that contains a variable number of documents such as invoices. The OMR scanner system allows you to automate the required number of documents to be inserted for each recipient and it stops the machine should the contents of a mail piece be incorrect. The DS-63 guarantees the integrity of your mail whatever the circumstances. Thanks to its PowerFold system, documents can be folded together for a professional-looking result. The DS-63 can neatly fold together up to five documents.

### Why choose Neopost?

Neopost make it easier to send and receive mail, email, SMS and packages so you can connect better with your external and internal customers.

Our equipment and advanced software can help you reduce costs, grow your business, manage digital communications and comply with latest legislation.

We can assist with design, production and distribution of transactional and marketing mail. And when customers respond we make it simple to process, track and store documents and emails.

Our team of expert Account Managers will tailor solutions to meet your needs. An extensive support network of field engineers, contact centre and on-line tools are available to ensure our solutions keep delivering.

### Commitment to the environment

The DS-65 carries Neopost's Eco Label and is compliant with environmental regulations. The automatic standby mode saves 50% on annual energy consumption and its low-weight, compact product design (25% lower than a comparable inserter) means a lower carbon footprint. Carbon footprint is also significantly reduced by the efficient packaging design which reduces transport volume and therefore the number of trucks and containers required.

# Save money with your DS-63 mail solution

Optimise your electronic document process with our **OMS software** and drastically reduce your postage expenses.

Integrate the DS-63 with a franking machine with our **insert'N frank solution**.

Add transpromotional documents for the same franking rate with our DS-63 **enhanced reading** capabilities.

### **Document management software solutions**

- Compose the document
- Multicriteria Sort
- Group batches
- Optimize mail pieces according to postal constraints
- Manage personalized inserts
- Manage data quality
- Ensure security
- Add optical marks to drive the folder inserter automatically
