IMPORTANT INFORMATION FOR ALL PRINTERS ALL SIZES...EXPAND OR EXIT !?

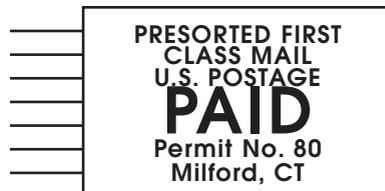

What we have found to be almost an inevitable trend is the majority of commercial printers, regardless of size, are struggling for bottom line profits. Survival has almost mandated the continuously increased number of full or quasi mergers/acquisitions or some combination thereof along with a sale of a companies intangibles or customer list. In 2012 we actively, instituted, consulted and completed over 20 merger/acquisition combinations...

Our annual efforts continue to provide literally 100's of pre-qualified printers looking to expand.. Conversely if you feel the future is best served by an exit strategy then take the time to give us a confidential call. You might be surprised that an exit strategy does not just simply mean shut the door and sell your assets.- Tom Gagliardi Jr 203 458 0709 x101
