

Planopol-3

Instruction Manual

Planopol-3 Instruction Manual

In technical enquiries and in orders for spare parts, please state app. No. and voltage (see cover).

All information and data in this Instruction Manual were valid when it was printed. The Struers policy being, however, to make current improvements of our products, we reserve ourselves the right to modify our products without notice. Besides, we ask you to note that this Instruction Manual concerns apparatus and all accessories. Consequently, it may happen that the Manual mentions equipment which is not of relevance for your purpose at the present time.
