	<b>WLK 800 - 2000</b>	800 - 2000
	<b>WNZ</b>	600 - 800
	<b>Woodwolf</b>	2000

**You're focused on manufacturing a product. Let a WEIMA wood grinder help you manage the mess.**

Installing a wood grinder near production lines where wood scrap is produced is an ideal alternative to carrying scrap from place to place within a wood shop. Grinders can be tied into a pre-existing air system, where the shredded material can be conveyed to an outdoor area for storage or transportation.
