

VUTEK® 5330

Productivity
Quality
Versatility

Redefine big opportunities.

Create larger than life graphics for larger profits.

The VUTEk® 5330 superwide format digital printer from EFI™ delivers the print speed, print quality and functionality to produce billboards, building wraps, signage, banners, vehicle wraps and many more high-profit products on a robust and proven five-meter platform. The VUTEk 5330 produces up to 2,230 square feet (207 square meters) every hour on a wide variety of roll-to-roll substrates. It also offers eight color image quality for attention-getting, vibrant and sharp images. The result is a highly profitable business model that hundreds of print shop owners worldwide utilize everyday to attract new customers and grow their business.

Larger than life images. Imagine the possibilities.

Print quality matters, even at billboard size. That is why the VUTEk 5330 is capable of printing on substrates up to 5 meters (16.4 feet) wide and high resolution images up to 330 dpi. Print sharp, crisp and color-consistent output on vinyl, pressure-sensitive films, paper, textiles and more. VUTEk smoothing technology eliminates distortion when printing images with heavy color saturation. And VUTEk's low-friction material handling kit makes printing on difficult materials much easier. What's more, the VUTEk 5330 is available with support for eight-color printing to deliver vibrant, eye-catching images. With the push of a button, you can go from high-speed, four-color printing using four heads per color (CMYK), to higher-quality, eight-color printing using two heads per color (CMYK plus light cyan, light magenta, light yellow and light black).

Tap into the growing demand for superwide format graphics.

When you think of all that you can do with EFI's VUTEk 5330 superwide format printer, it's easy to envision all the business-building opportunities that await you. Corporate branding, advertising and promotional graphics are some of the major business opportunities. Use the VUTEk 5330 to produce billboards, banners and signs, exhibition and display graphics, bus shelters and bus wraps, vehicle and fleet graphics, long-term outdoor graphics, and in a growing list of other applications. You will take advantage of the high-profit superwide printing opportunities that can take your business to new levels of prosperity and growth.

The EFI VUTEk Advantage

In today's fast-paced, highly-charged and competitive print-for-pay marketplace, differentiating your company from the competition is critical. EFI delivers what no one else can – award-winning, integrated RIP, superwide printing systems and streamlined, automated business management systems. We are the market leader in digital print technology with services, support and scalable products that drive your business' success beyond the printer. The result is a true competitive advantage through increased capacity and capabilities without the corresponding increase in your overhead.

Service you can count on today and tomorrow.

In the highly dynamic print-for-pay business landscape, downtime is the enemy. Your next job depends on your ability to deliver quality product – on time – today. EFI has the training, service expertise, supplies and parts that you need to keep your VUTEK 5330 running at top performance and quality levels. Count on us for industry benchmark support and training because we understand that service is your business lifeline.

VUTEK Inks for Your Image

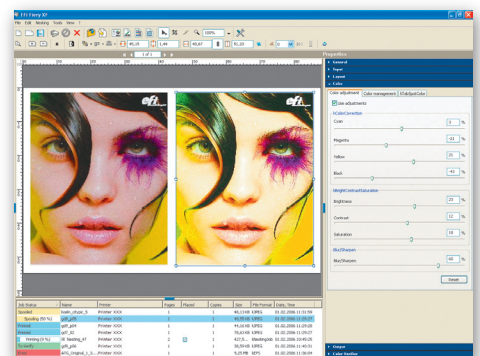

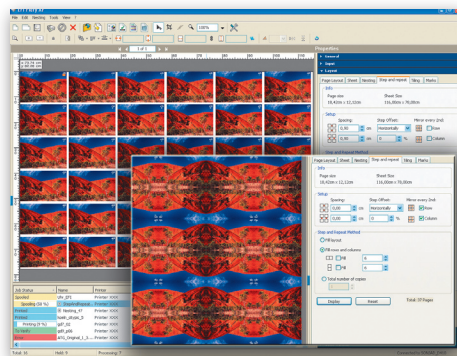

Your success also depends on the inks you use. At EFI, we are dedicated to producing the highest quality inks in the world. Our VUTEK inks are engineered to produce the high-quality images your customers depend on across our entire range of printers. No other inks deliver the critical performance characteristics of purity, consistency and durability.

EFI Fiery XF Production RIP

EFI Fiery® XF is a production RIP designed to process high volumes of jobs and deliver exceptional color management on tight schedules. It leverages the full range of image quality and production capabilities of the VUTEK 5330 to produce exceptional output every time. The flexible production RIP delivers the speed, high productivity and exceptional color consistency that your customers expect. It also maximizes the return on your current IT investment by improving output and reducing production time—translating into greater profits and shorter run times.

Fiery XF harnesses EFI and Bestcolor® Technology's high-performance software to deliver speed, high productivity and exceptional color quality to VUTEK superwide printers.

EFI Print MIS Solutions

EFI's industry-standard print management information systems (EFI Print MIS) such as EFI Hagen™ and EFI Logic™ manage all your business operations — from estimating to order entry to shop floor data collection, inventory, invoicing and accounting. Unlike other solutions, these management systems are used by virtually every team member — giving them real-time information to streamline and make your processes more efficient and profitable at every stage of the business cycle.

EFI Print MIS products help you take full advantage of your VUTEK digital printers and other production equipment by providing an integrated solution that connects your shop floor management, communication and production workflow.

Specifications

VUTEk 5330

Printing Technology

- High-resolution piezoelectric print heads.
- 330 dpi (300 x 360).
- One-year printer warranty (includes piezo inkjet heads, which are not considered consumables with VUTEk printers).
- Heads require minimal maintenance.
- 24/7 technical support.
- Accepts a variety of substrates.
- Clearcoat can be applied to substrate for added protection against extreme environmental conditions.

Media/Handling

- Size: rolls up to 204" (518 cm) width, maximum print width 196" (500 cm).
- Type: vinyl, pressure-sensitive, mesh, paper and textiles.

Printer Models

- Three operation modes, each with three speeds to maximize print quality and performance with the materials used. In addition, there is a high-density mode for backlit* and textile applications.

*5330 printer is capable of double strike.

Formats

- All popular desktop file formats, including PostScript®3™, EPS, TIFF, PDF, RGB/CMYK.

Control Station

- Windows® operating system.
- VUTEk 5330 operating software.
- DVD reader.
- 1 GB Ethernet adapter.

Environmental Considerations

- Compressed Air: 80 psi (5.63 kg/cm) minimum, 150 psi (10.56 kg/cm) maximum, 4 cfm (0.112 m3/m) dry air only.

- Temperature: 68° F to 85° F (20° C to 29° C).
- Humidity: 20% to 80% (non-condensing).
- Weight: 6100.0 lbs (2766.9 kg).
- Height: 65.0" (165.1 cm).
- Width: 342.0" (868.6 cm).
- Depth: 47.0" (119.3 cm).
- Electrical: Single phase, 60 amp, 200-240 VAC 50/60 Hz.

Productivity

Print output speed is in square feet/square meters per hour:

Configuration	Mode	Speed (sq. ft./sqm per hour)
Fast-4 (4 Color) x 2	High/Max	2230 / 207
	Enhanced/Max	1340 / 124
	Ultra/Max	670 / 62
8 Color	Enhanced/Max	670 / 62
	Ultra/Max	330 / 30

Fiery XF RIP

- Client/server architecture for decentralized remote operation.
- Unlimited clients for simultaneous set up of multiple jobs.
- Complete job management and set up both from Macintosh® and PC.
- Modern, intuitive graphical user interface with one click access to all job settings.
- Advanced, easy-to-use wizard-guided color tools for consistent predictable high color quality.
- Powerful production tools like nesting, step and repeat, scaling, cropping and tiling (flexible custom + automatic set up).
- Advanced ICC color management for reliable color quality output and proofing quality color on production level printers.
- Strong color recalibration, output quality and speed.

- Unlimited workflow and hot folder setup.
- File Output Module for output of color managed files to extend your service portfolio.
- Scalable, versatile platform grows with your needs when your business grows.
- Central RIP server that drives VUTEk superwide format printers, production printers, proofing printers and Fiery-driven xerographic devices (option). Proof your print on another printer simulating your VUTEk device and produce more sellable output on your VUTEk solution.
- Multi-lingual user interface and manuals.
- Exclusive platform for further EFI software integration.

ColorBurst RIP Alternative

- Intuitive graphical user interface for easy operation and calibration.
- Multi-language graphical user interface.
- ICC color management.
- Advanced layout feature to simplify complex printing jobs.
- Automated contour cutting support.
- Innovative screenprint emulation mode.

Inks

- VUTEk inks are supplied in four 3.25-liter bottles in cyan, magenta, yellow, black, light magenta, light cyan, light yellow and light black.
- 3M offers a 5-year 3M™ MCST™ warranty with qualified 3M inks.
- 3M offers the Performance Guarantee with VUTEk inks.

EFI's integrated solutions — Production Printing, Superwide, Graphic Arts, Web to Print, Print MIS, and Corporate — increase profits, optimize business processes, and deliver greater customer satisfaction. Find out more at www.efi.com.

Get Connected with EFI

EFI's commitment to integrated solutions based on open standards means that our products work together to maximize customers' productivity and to increase their profits. From Web collaboration tools to prepress software to digital output and print management information systems, EFI's award-winning, scalable solutions give you a powerful competitive edge now and in the future.
