

Focused on refining your surgical outcomes

A-Scan Plus Connect®

Item #: 24-4400

We know how important it is to be able to manage patient information quickly and easily, safe in the knowledge that your data is accurate and secure.

Intuitively designed and fully portable, our A-Scan unit is the perfect companion for measuring, calculating and refining your refractive cataract surgical outcomes, either in clinic, or on-the-go.

Features:

- Choose between immersion and contact modes for your exams
- Exceptional resolution
- IOL formulas including the Hoffer® Q, SRK/T, Holladay I, Haigis, SRK II, Binkhorst II, as well as new post-refractive formulas
- Customizable lens, ACD and VCD materials for new emerging implant/chamber materials
- Optimized lens constants for enhanced surgical outcomes
- Easy to set up defaults, smooth customer interface and automatic EMR exports decrease examination time, increase patient throughput and increase profit
- Automatic alignment detection and sclera recognition assist in eliminating marginally aligned scans

- Can be seamlessly integrated with the Zeiss™ IOLMaster® 500
- The Connect software allows integration with B-Scan and UBM modes for improved patient workflow
- Unlimited data storage based on PC/network storage
- Fully upgradeable software
- EMR compatible
- DICOM™ ready
- Plug into any Windows™ PC or tablet via USB
- PDF reporting

Accessories Included: durable traveling case, USB footswitch, USB containing manual and Connect software, test block, three immersion connection sets, and an immersion shell

Complimentary 3-week trials - available upon request
