

MAG 2

- 
 Macchina semi-automatica per fresare il cartone ed applicare 1 o 2 coppie di calamite tramite colla a caldo – Posa cartone a mano – Realizzazione ciclo di lavoro, completo di alimentazione delle calamite da magazzino, interamente automatica
- 
Half-automatic machine to groove board cases and to apply 1 or 2 couples of magnets by hot glue – Board case feeding by hand – Work cycle (including magnet feeding from proper stores) entirely automatic
- 
 Máquina semi-automática para fresar el cartón y colocar 1 o 2 parejas de imanes mediante cola caliente – Colocación cartón manual – Realización ciclo de trabajo, completo de alimentación de los imanes de almacén, completamente en automático
- 
 Полуавтоматическая установка для резки картона и приклеивания 1 или 2 пар магнитов с помощью термоклей – Ручная укладка картона – Осуществление рабочего цикла вместе с подачей магнитов из магазина полностью в автоматическом режиме
- 
 铣削纸板并用热熔胶安装一到两对磁铁的半自动化机器 — 手动放置纸板 — 整个加工循环（配有磁铁从储料盒的自动进给功能）完全自动化

Materials:	Grey or already coated board, Round magnets
Board width:	min. 250 mm max. 1200
Board thickness :	min. 1,5 mm max. 4 mm
Magnets:	Standard diameter 9,5 mm (changeable) and thickness 1 mm up to 2 mm
Capacity:	12-14 cycles/minute with 1 couple of magnets 8 cycles/minute with 2 couples of magnets
Electrical power req.:	1,5 kw
Compressed air:	100 NI/minute
Overall dimensions:	L=1700 mm W=1800 mm H=2100 mm
