Message

Good morning Thomas Cecchini ,

Thank you for your inquiry. Here is our quotation for the LABCOLD ADVANCED FREEZER 650L.

LABCOLD ADVANCED FREEZER 650L

Manufacturer

LABCOLD

Condition

Used

Description

The Labcold 650L freezer is a high-capacity, laboratory-grade freezer designed for the secure storage of sensitive biological samples, reagents, and other temperature-sensitive materials. Here are its key features and specifications:

Capacity:

650 liters, providing ample storage space for various laboratory needs.

Temperature Range:

Typically operates at ultra-low temperatures, often between -20°C to -86°C, ensuring the preservation of sensitive samples.

Construction:

Exterior:

Durable construction with corrosion-resistant materials.

Interior:

Equipped with adjustable shelves or compartments for organized storage.

Insulation:

High-quality insulation to maintain stable internal temperatures and reduce energy consumption.

Control System:

Advanced digital control system with an easy-to-use interface for precise temperature settings and monitoring.

Safety Features:

Alarm systems for temperature deviations, door ajar, and power failure.
Lockable doors to prevent unauthorized access.

Cooling System:

Efficient refrigeration system with rapid cooling and uniform temperature distribution.

Energy Efficiency:

Designed to minimize energy consumption while maintaining optimal performance.

Compliance:

Adheres to relevant safety and performance standards for laboratory equipment.

Power Supply:

Mains Supply Voltage: 220-240 V 50/60 HZ

The Labcold 650L freezer is ideal for laboratories, research institutions, and medical facilities that require reliable and consistent low-temperature storage solutions.
