

## SCHRÖDER KOMBINATOR TYPE L (LIGHT EXECUTION)

The Kombinator type L has proven itself for all middle to high viscous products with lower torque ranges. This type distinguishes itself by a high quality and very reasonable investment expenses.

KL 180/1400-DH2A

**Application**  
e.g. mayonnaise, shortening,  
starch/milk products

Type L	Technical Data
Product viscosity	middle/high
Product pressure	up to 25 bar
Torque of the mutator shaft	1.000 Nm
Gear motor	18,5 kW / 250 rpm
Heat exchange surface per module	0,5/0,75/1,1 m <sup>2</sup>
Mutator shaft bearing	spherical roller bearing for drive with gear motors
Cooling/heating aggregate	completely insulated, outer jacket stainless
Crystallizers	type CS with a contents of 15-75 l type CG with a contents of 90-170 l mounted on top or as separate aggregate
