RENZ MOBI 360

Semi-automatic, mobile RENZ RING WIRE®
wire comb binding machine
for books, calendars and skip binding

PROFESSIONAL LINE

FEATURES

- ✦ Simple touch screen controls enable rapid format changes
- ✦ No special training required
- ✦ Short set-up times using a motorized changeover process
- ✦ Fully equipped for working with 12 wire diameters
1/4" - 1 1/4" (6.9 - 32 mm)
- ✦ No compressed air required
- ✦ Outstanding product using proven technology, made in Germany

* depends on product, logistics and operator

Operator friendly touch screen control, providing very rapid format changes.

Simple adjustment of the wire diameter by means of a scale and a manual wheel, no additional tools required.

Manually hanging the pre-punched product in the binding element is easy. A footswitch activates the transport to the binding station.

Height adjustable shingle conveyor with adjustable overlap setting, running continuously. See diagram (available as an option). Height adjustable cover box supplied.

DIMENSIONS AND DATA - AT A GLANCE

RENZ MOBI 360	
Bound side	min. 52 mm (= 6 loops at 3:1, 4 loops at 2:1) max. 360 mm (= 41 loops at 3:1, 28 loops at 2:1)
Unbound side	min. 90 mm
Book thickness max.	26 mm
Possible diameters	1/4" - 1 1/4" (6,9 - 32 mm)
Pitch	3:1 and 2:1
Mechanical strokes	variable, adjustable from 100 - 1.000 cycles/h
Time required for diameter change	2 - 10 min*
Power supply	230/400V, 50/60 Hz
Dimensions l x w x h	200 x 100 x 170 cm
Space requirement	4,4 m ²
Net weight	approx. 361 kg (net exclusive calendar hanger device)
