11	620608-5186-001 CMM CONTURA 9/18/8 ZEISS CNC Coordinate Measuring Machine (CMM) in bridge design Standard configuration includes - measuring volume X = 900 mm, Y = 1800 mm, Z = 800 mm - Table Height TH = 700 mm - pre-wired for tactile active and tactile passive sensors, for Multi Application Sensor System (mass) - VAST navigator and/or VAST XXT measurement technologies (tactile active scanning and/or tactile passive scanning) - PC-based Integrated Scanning Control (ISC) by internal C99M controller - glass-ceramic scales in all 3 axes - integrated passive vibration damping - AirSaver technology to reduce air consumption Documentation and licensing - CMM documentation (EPLAN 21 in pdf format) on data medium - acceptance documents, operating instructions - software license for CALYPSO basic package - remote service during time of warranty Consult spec sheet for measurement uncertainties. Estimated leadtime: 15 - 20 weeks after order. Actual ship date is subject to change and will be communicated with official order confirmation.	1 PC		
12	608426-9152-000 Wired control panel w/two joysticks, power ON switch.	1 PC		
13	620806-9123-010 Y axis safety position control for CONTURA - supports automation with pallets or robot load/unload - communicates to/from CMM and automation equipment to move Z shaft to safe position and signal automation to advance pallets or robot arm to load/unload parts - requires C99M controller	1 PC		
14	620608-5186-021 High Temperature Gradient (HTG) for CONTURA 9/18/Z HTG extends the temperature range of specification to 18 - 26 °C. The measurement uncertainty of some sensors change, see technical specification sheet. Kit includes - 1 temperature compensation module - 2 workpiece temperature sensors	1 PC
