Order Acknowledgment

In the event of significant and unpredictable increases in the cost of manufacturing, shipping and servicing our products, including the imposition of trade tariffs, we may impose additional surcharges to offset these costs. By issuing an order for our Products, Software and/or Services, you agree to pay these surcharges upon notification.

Lead times could be longer due to the potential impact of global supply chain constraints.

Unless otherwise stated herein, shipping charges are not included in the final amount. Unless expressly stated as a line item in this order confirmation sales of vibration control products including optical tables, isolation legs and workstations DO NOT include rigging and installation to their final use destination. Upon request, we can provide experienced references for these services.

The offer contained herein is expressly limited to acceptance of the terms set forth herein. For (i) Product purchases, the MKS Standard Terms and Conditions found at www.mksinst.com/Agreement shall apply or (ii) for Product evaluations or loans, the MKS Standard Evaluation Terms and Conditions found at www.mksinst.com/Evaluation shall apply. (POs must reference the quote). Item prices do not include shipping, handling, customs fees duties or taxes, unless otherwise stated herein.

The sale of products reflected in the purchase order acknowledged hereby is subject to compliance with applicable global export control laws and regulations, including but not limited to the Wassenaar Arrangement and any regulations implemented thereunder, the U.S. Export Administration Regulations ("EAR"), and U.S. International Traffic in Arms Regulations ("ITAR") (collectively, "Export Regulations"). Purchaser certifies that if products purchased pursuant to such purchase order are directly or indirectly exported, re-exported or transferred, Purchaser shall comply with all applicable Export Regulations. In particular, Purchaser declares that it will not: (1) use the products for any end-use activities restricted under Part 744 of the EAR or any equivalent end use based restrictions (to the extent applicable to the country or end user); or (2) export, re-export or transfer the products to any person, entity, and/or country, in each case without first applying for and obtaining written authorization from the applicable government agency (if required).

Newport may require information regarding the end-user and end-use of the products and reasonable cooperation from the Purchaser in order to determine any license requirements and/or process applications for export licenses. Any requirement to obtain a license may result in a delay in shipment and/or additional costs. In addition, in case of government agency denies the export license, Newport will be prevented from the sale and delivery of the products. The quoted lead time for the shipment of products may be impacted by the length of time required to obtain an export license. Newport will not have any liability to the Purchaser for any failure or delay in shipment resulting from any license requirement.
