This powerful combination of the large document shredder FA 500.3 and a counterplate baling press provides for data security in archives and compresses the shredded material into bales of between 40 and 80 kg.

- High quality materials and "Made in Germany" quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Convenient material feeding via non-slip conveyor belt.
- Continuous operation is possible thanks to the powerful motor with a chain drive.
- Automatic return eliminates paper jams.
- Simple commissioning of the combination using Plug-and-Play.
- Light barrier for automatic start of the compression process.
