

TAP X Camera

High Performances CAMERA Link camera

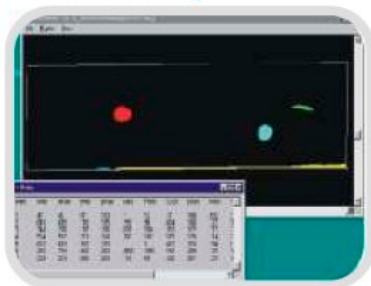

Area and Line Scan cameras

FEATURES

- High resolution digital cameras
- Progressive CCD BW and Color
- Line Scan and Area Scan available
- High speed CMOS cameras
- High performance FPGA for pre-processing
- CAMERA Link base configuration, 10 bit
- Binning functions
- Low power consumption
- Superior price-performance

Typical Applications

Web Inspection

Inspection

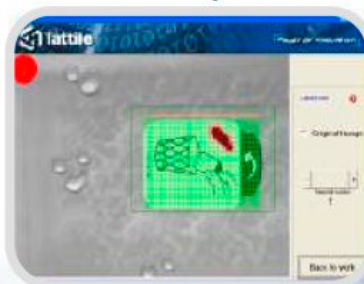

Blob Analysis

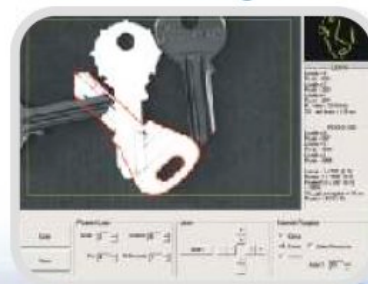

Color Analysis

Surface Inspections

Pattern Recognition
