OPERATION MANUAL

MODELS
VBS0707-6

Nov. 17, 2003

TABLE OF CONTENTS

1- Safety regulations	1
2- VBS scope	3
2-1. VBS features	3
2-2. VBS specifications	5
3- Preparation for machine installation	6
3-1. Floor space requirement	6
3-2. Power supply requirement	8
3-3. Transportation requirement	8
4- Transportation and installation	10
4-1. Note for transportation	10
4-2. Transportation and installation requirement	10
4-3. Note for installation	10
4-4. The horizontality adjustment method	11
5- Preparation for machine running test	12
5-1. Cleaning	12
5-2. Lubrication	12
5-3. Hydraulic oil	12
5-4. Cutting liquid	12
5-5. Electric ground connecting	12
6- Machine devices description	14
6-1. Features	14
6-2. Screen	21
6-3. Control panel	32
7- Operation	37

8- Precautions when operating and servicing the machine	39
9- Information about saw blade	40
9-1. New blade initial use	40
9-2. Blade break-in procedure	40
9-3. Teeth selection	40
How to determine the correct feed pressure and speed of the saw blade ?	43
10- Blade changing procedure	45
11- Setting and adjustment	52
11-1. Verticality adjustment	52
11-2. Setting and adjustment of pressure	52
11-3. Lubrication	53
11-4. After work	53
12- Servicing and maintenance	54
12-1. Daily	54
12-2. Periodical	54
12-3. Replacement	55
13- Trouble shooting	57
