1.5 MW 2010 Refurbished Caterpillar G3516C Natural Gas Generator Set

1.5 MW 2010 Refurbished Caterpillar G3516C Natural Gas Generator Set

Description

This natural gas generator set is a robust and efficient power generation unit, engineered for continuous and prime applications. The set delivers reliable output while ensuring low emissions and excellent fuel economy. Fully refurbished to OEM standards, it provides extended service life and dependable operation. The generator features Caterpillar’s advanced control systems for monitoring and protection, making it suitable for industrial facilities, utilities, and independent power producers seeking a cost-effective and environmentally friendly energy solution.

KEY FEATURES:

- **Power Output:** 1.5 MW (1500 kW) continuous power
- **Emissions Control:** Lean-burn technology for reduced NO_x emissions and compliance with environmental standards.
- **Fuel:** Natural gas, ensuring lower operating costs compared to diesel.

ADVANTAGES:

- **Environmentally Friendly:** Reduced emissions profile for cleaner power generation.
- **Versatility:** Suitable for industrial plants, utilities, and combined heat and power (CHP) applications.
- **Refurbished Reliability:** Provides near-new performance at a fraction of new unit cost.

Manufacturer	Caterpillar
Model	G3516C
Year	2010
Condition	Refurbished
Location	North America
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010683
Wattage	1.5 MW
Hours	Zero
Frequency	60 Hz
Fuel Type	Natural Gas
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
