2 MW 2024 New Cummins QSK60 Diesel Generator Sets

2 MW 2024 New Cummins QSK60 Diesel Generator Sets

Description

These diesel generator sets are powered by a robust 60.2 L V16 four-cycle engine, engineered for reliable prime and standby power in demanding applications such as industrial facilities, data centers, and continuous-duty sites. Featuring an advanced Modular Common Rail fuel system for efficient combustion, high-performance turbocharging and aftercooling, and a Permanent Magnet Generator (PMG) for strong motor-starting capability, these sets deliver consistent output with low total harmonic distortion. Integrated PowerCommand® digital controls provide precise system monitoring, protection, and remote operation, while the heavy-duty cooling system ensures performance even in high ambient temperatures.

KEY FEATURES:

- 60.2 L V16 heavy-duty diesel engine
- High-efficiency turbocharging and aftercooling
- Emissions compliance options (EPA Tier 2, Tier 4i/F, TA Luft)

ADVANTAGES:

- Reliable high-power output for prime and standby applications
- Rugged design for long service life in harsh environments
- Easy installation and integration into existing systems

Manufacturer	Cummins
Model	QSK60
Year	2024
Condition	New
Location	Asia
Qty Available	12 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010662
Wattage	2 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Diesel
Voltage	400 Volts
Balance of Plant Available? (BOP)
