2 MW 2025 New Caterpillar XQ2000 Diesel Generator Set

Description

This diesel generator set is a high-performance, mobile power solution designed for prime or standby applications. The XQ2000 delivers robust and fuel-efficient power output in a fully integrated, containerized package. It is engineered for quick deployment, ease of transport, and seamless operation in demanding environments.

Ideal for temporary power, emergency backup, or remote site use, the XQ2000 combines heavy-duty construction with advanced controls and emissions compliance, meeting the latest global standards.

KEY FEATURES:

- **Power output:** 2 MW (standby)
- **Emissions:** Meets latest Tier 2 / Tier 4 Interim or equivalent standards (varies by region)
- **Voltage:** Multiple configurations available (low and medium voltage)

ADVANTAGES :

- **Fast Deployment:** Containerized design allows rapid transport, installation, and commissioning.
- **Fuel Efficiency:** Advanced engine design reduces operating costs through lower fuel consumption.
