2.5 MW 2023 New Caterpillar G3520H Natural Gas Generator Sets

2.5 MW 2023 New Caterpillar G3520H Natural Gas Generator Sets

Description

These natural gas generator sets are high-efficiency units designed for continuous and base-load power generation. They deliver reliable electrical output with exceptional fuel efficiency and reduced emissions, making them well-suited for industrial plants, utilities, and combined heat and power (CHP) projects.

The G3520H series incorporates advanced combustion technology and digital control systems to optimize engine performance and efficiency. Its robust V20-cylinder engine ensures stable operation under varying load conditions, while extended service intervals and durable design contribute to lower lifecycle costs.

KEY FEATURES:

- Rated electrical output: 2.5 MW
- Low emissions profile, compliant with stringent standards
- Designed for continuous duty and base-load operation

ADVANTAGES

- Lower environmental impact compared to traditional diesel units
- Flexible integration with industrial, utility, and cogeneration systems
- Stable power output suitable for sensitive and critical loads

Manufacturer	Caterpillar
Model	G3520H
Year	2023
Condition	New
Location	Asia
Qty Available	5 Units
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010633
Wattage	2.5 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
