## 1.5 MW 2015 Used Cummins GQSK60 Natural Gas Generator Set

# 1.5 MW 2015 Used Cummins GQSK60 Natural Gas Generator Set

## Description

This unit is a well-maintained natural gas generator set, engineered to deliver dependable and efficient power for industrial and commercial operations. Designed with durability and performance in mind, it is capable of supporting both continuous duty and standby applications. Its gas-fueled configuration not only ensures cost savings on fuel but also provides a cleaner alternative to traditional diesel generators, meeting modern requirements for reduced emissions. The generator has been kept in good operational condition, making it a practical and reliable choice for facilities seeking immediate and long-term power solutions.

### KEY FEATURES:

- Natural gas operation for improved efficiency and cleaner emissions profile
- Robust construction with a heavy-duty engine and alternator
- High electrical output suitable for medium-scale power generation demands

### ADVANTAGES

- Lower fuel costs and improved sustainability compared to diesel options
- Environmentally friendly operation with reduced carbon footprint
- Stable operation under varying load conditions ensures consistent power supply

Manufacturer	Cummins
Model	GQSK60
Year	2015
Condition	Used
Location	Europe
Qty Available	3 Units
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010874
Wattage	1.5 MW
Hours	350
Frequency	50/60 Hz
Fuel Type	Natural Gas
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
