Harnessing Energy for Life

30 MW 2019 New Wartsila W20V32 HFO Generator Set

30 MW 2019 New Wartsila W20V32 HFO Generator Set

Description

This generator set is a medium-speed, heavy fuel oil-fired power generation unit built for reliable and efficient operation. With a 20-cylinder engine configuration, this unit is designed to provide continuous and stable electricity output for large-scale industrial applications, utility grids, or independent power producers. The generator set's engineering emphasizes durability, high thermal efficiency, and optimized fuel consumption, making it a cost-effective solution for long-term base-load operations.

The generator set can be integrated as a stand-alone unit or as part of a multi-unit installation to provide scalable power generation capacity.

KEY FEATURES:

- 30 MW rated electrical output
- Designed for heavy-duty continuous and base-load power supply
- Suitable for integration into multi-unit power plant configurations

ADVANTAGES

- High fuel efficiency reduces overall operating costs and improves lifecycle economics
- Scalable design allows integration with other units for higher total output capacity

Manufacturer	Wartsila
Model	W20V32
Year	2019
Condition	New
Location	Europe
Qty Available	3 Units
Category	HFO Generators
Subcategory	10 – 99 MW
Stock Number	USP010863
Wattage	30 MW (10 MW per unit)
Hours	Zero
Frequency	50 Hz
Fuel Type	Heavy Fuel Oil
Voltage	11000 volts
Balance of Plant Available? (BOP)	-
