2 MW 2023 New Caterpillar G3516H Natural Gas Generator Set (Open Type)

2 MW 2023 New Caterpillar G3516H Natural Gas Generator Set (Open Type)

Description

This natural gas generator set is a high-efficiency power solution designed for continuous and base-load applications. Built on the advanced G3516H engine platform, it delivers stable electrical output with optimized fuel consumption and reduced emissions. Its open-type configuration allows for flexible installation, making it suitable for integration into industrial facilities, utilities, and combined heat and power (CHP) projects.

Engineered with state-of-the-art combustion technology, the G3516H ensures maximum efficiency while meeting stringent environmental standards. It is designed for long service intervals, low operating costs, and high reliability.

KEY FEATURES:

- Rated electrical output: 2 MW
- Open-type configuration for flexible installation
- High electrical efficiency with low emissions profile

ADVANTAGES

- Low emissions for improved environmental performance
- High fuel efficiency reduces long-term operating costs
- Long service intervals reduce maintenance downtime

Manufacturer	Caterpillar
Model	G3516H
Year	2023
Condition	New
Location	Asia
Qty Available	10 Units
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010547
Wattage	2 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	400 Volts
Balance of Plant Available? (BOP)
