Harnessing Energy for Life

1.4 MW 2008 Used MWM TCG 2020-V16K Diesel Generator Set

1.4 MW 2008 Used MWM TCG 2020-V16K Diesel Generator Set

Description

This diesel generator set is a compact, industrial-grade power unit built for reliable continuous or standby power in commercial, industrial and small utility applications. The medium-speed, 16-cylinder MWM engine delivers rugged mechanical design, simple serviceability and good transient response, while the matched alternator and control system provide stable voltage and frequency for sensitive loads. The set is suitable for base-load, peaking or backup duty and is supplied ready for integration into containerised or open-skid installations.

KEY FEATURES:

- Rated electrical output ~1.4 MW
- Skid-mounted package with fuel, exhaust and cooling interfaces for straightforward site connection.
- Standard safety and protection systems (overspeed, low oil pressure, high coolant temp).

ADVANTAGES

- Good fuel flexibility and tolerance for challenging operating conditions.
- Rapid integration into existing plants or containerised solutions — minimal civil works.
- Low lifecycle cost due to straightforward maintenance and common replacement parts.

Manufacturer	MWM
Model	TCG 2020-V16K
Year	2008
Condition	Used
Location	Asia
Qty Available	2 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010899
Wattage	1.4 MW
Hours	58000 hours
Frequency	50 Hz
Fuel Type	Diesel
Voltage	415 Volts
Balance of Plant Available? (BOP)	-
