Harnessing Energy for Life

2 MW 2011 Used Caterpillar 3516B Diesel Generator Set

2 MW 2011 Used Caterpillar 3516B Diesel Generator Set

Description

This 2 MW diesel generator set, manufactured in 2011, is built around a high-capacity, heavy-duty reciprocating engine designed for reliable performance in standby, prime, or continuous-duty power applications. The unit provides a stable electrical output with strong load acceptance, making it suitable for industrial facilities, utilities, mining operations, and large commercial environments. Its robust mechanical construction and proven operating history offer dependable serviceability and long-term durability.

KEY FEATURES:

- **2 MW electrical output rating**, suitable for large facility power supply or integration into multi-unit power plant configurations.
- **Diesel-fueled system** offering high power density, rapid response, and suitability for remote or off-grid environments.

ADVANTAGES

- **Proven reliability** due to a widely deployed and field-tested engine platform.
- **Cost-efficient acquisition**, offering competitive lifecycle value compared to new equipment.

Manufacturer	Caterpillar
Model	3516B
Year	2011
Condition	Used
Location	Europe
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010913
Wattage	2 MW
Hours	50 hours
Frequency	60 Hz
Fuel Type	Diesel
Voltage	3300 Volts
Balance of Plant Available? (BOP)	-
