## 4.3 MW 2015 Used MWM TCG2032V16 Natural Gas Generator Sets

# 4.3 MW 2015 Used MWM TCG2032V16 Natural Gas Generator Sets

## Description

This natural gas generator set is a high-efficiency, large-capacity genset engineered for industrial, utility, and combined heat and power (CHP) applications. Designed by MWM (a subsidiary of Caterpillar), the TCG2032V16 is part of the manufacturer’s premium gas engine series, known for excellent fuel economy, extended service intervals, and consistent performance under continuous-duty operation. This generator set is ideal for base-load power generation or grid-parallel use in facilities demanding reliable and cost-effective energy.

### KEY FEATURES:

- **Power Output:** 4.3 MW (4300 kW) continuous
- **Emissions Compliance:** Low NOx emissions, compliant with international environmental standards
- **Voltage Output:** Typically 10.5 kV or configurable to application requirements

### ADVANTAGES:

- **High Electrical Efficiency:** Delivers superior performance in terms of kWh per unit of gas consumed, reducing operational costs
- **Flexible Fuel Input:** Can operate on various gas qualities, including low-BTU or landfill gas with proper configuration

Manufacturer	MWM
Model	TCG2032V16
Year	2015
Condition	Used
Location	Asia
Qty Available	2 Units
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010809
Wattage	4.3 MW
Hours	200 each
Frequency	50 Hz/60 Hz
Fuel Type	Natural Gas
Voltage	10500 Volts
Balance of Plant Available? (BOP)	-
