1.2 MW 2009 New (Unused) Cummins QSK50-G4 NR2 Diesel Generator Set

1.2 MW 2009 New (Unused) Cummins QSK50-G4 NR2 Diesel Generator Set

Description

This 1.2 MW diesel generator set—powered by a high-capacity industrial engine—delivers reliable standby and prime power for mission-critical and continuous-duty applications. Manufactured in 2009 and in new, unused condition, the unit provides stable performance, fast load acceptance, and long-life operation suitable for commercial, industrial, and utility settings. Its robust design, integrated cooling and control systems, and low-hour status make it a strong option for customers requiring dependable power with minimal commissioning time.

KEY FEATURES:

- **Power Rating:** 1.2 MW output for prime or standby duty
- **Emissions:** Tier-compliant depending on regional standards at time of manufacture
- **Engine Platform:** Heavy-duty, high-displacement diesel engine designed for continuous operation

ADVANTAGES

- **Flexible application suitability** for mining, manufacturing, data centers, utilities, and standby power
- **New, zero-hour condition** ensures extended service life and reduced early maintenance costs

Manufacturer	Cummins
Model	QSK50-G4 NR2
Year	2009
Condition	New (Unused)
Location	South America
Qty Available	2 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010929
Wattage	1.2 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Diesel
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
