## 34 MW 2020 Used Kawasaki L30A Natural Gas Turbine Power Plant

# 34 MW 2020 Used Kawasaki L30A Natural Gas Turbine Power Plant

## Description

This natural gas turbine generator set, manufactured in 2020, is a high-efficiency industrial gas turbine designed for continuous power generation. The L30A is one of Kawasaki’s advanced models, engineered for reliable performance, lower emissions, and operational flexibility in both base-load and peaking applications. This unit is available as a used set, providing a cost-effective solution for medium-scale power projects.

### KEY FEATURES:

- **Power Output:** 34 MW (nominal)
- **Configuration:** Single-shaft, axial-flow gas turbine
- **Emissions:** Low NOx combustion technology
- **Application:** Suitable for both industrial and utility power generation

### ADVANTAGES:

- **High Efficiency:** Designed to maximize output while reducing fuel consumption.
- **Fuel Flexibility:** Optimized for natural gas with capability for stable operation under varying fuel conditions.
- **Versatility:** Can be deployed for base-load, peak-load, or cogeneration applications.

Manufacturer	Kawasaki
Model	L30A
Year	2020
Condition	Used
Location	Asia
Qty Available	1 Unit
Category	Natural Gas Turbines
Subcategory	10 – 99 MW
Stock Number	USP010388
Wattage	34 MW
Hours	20000
Frequency	60 Hz
Fuel Type	Natural Gas
Voltage	11000
Balance of Plant Available? (BOP)	-
