4.3 MW 2008 Used Caterpillar 3616 Heavy Fuel Oil Generator Set

4.3 MW 2008 Used Caterpillar 3616 Heavy Fuel Oil Generator Set

Description

This heavy fuel oil generator set, manufactured in 2008, provides a robust and efficient power solution for large-scale industrial or utility applications. Built for heavy-duty operation, the generator offers consistent performance and high durability when running on heavy fuel oil. It is designed to handle continuous baseload or standby operations with low maintenance requirements, ensuring reliable long-term service. The 3616 engine's proven design and Caterpillar's engineering standards make it suitable for demanding environments where operational reliability and fuel flexibility are essential.

KEY FEATURES:

- Rated output: 4.3 MW (4300 kW)
- Suitable for continuous, base load, or standby power generation
- Proven design for long service intervals and high efficiency

ADVANTAGES

- Reliable operation on heavy fuel oil with low operating costs
- Rugged design ensures durability in harsh industrial conditions
- Ideal for power plants, marine applications, and remote industrial operations

Manufacturer	Caterpillar
Model	3616
Year	2008
Condition	Used
Location	Asia
Qty Available	3 Units
Category	HFO Generators
Subcategory	1 – 9 MW
Stock Number	USP010892
Wattage	4.3 MW
Hours	50 – 5000
Frequency	50 Hz
Fuel Type	Heavy Fuel Oil
Voltage	11000 Volts
Balance of Plant Available? (BOP)	-
