3.1 MW 2018 New Jenbacher J620 GS F25 Natural Gas Generator Set

3.1 MW 2018 New Jenbacher J620 GS F25 Natural Gas Generator Set

Description

This new natural gas generator set is driven by the Jenbacher J620 GSF25 engine, designed for high efficiency, low emissions, and reliable continuous power generation. Manufactured in 2018, the unit represents Jenbacher’s advanced gas engine technology, providing superior performance in base-load and combined heat and power (CHP) applications. The generator set offers stable operation on natural gas with excellent electrical efficiency and robust design for long-term industrial use.

KEY FEATURES:

- Rated output: 3.1 MW
- Low NO_x emissions meeting international standards
- Capable of operation in CHP configuration
- Skid-mounted or containerised installation options

ADVANTAGES

- High efficiency resulting in lower fuel consumption and reduced emissions
- Flexible operation suitable for industrial, utility, or cogeneration applications
- Environmentally friendly solution with high overall energy utilisation in CHP mode

Manufacturer	Jenbacher
Model	J620 GS F25
Year	2018
Condition	New
Location	Asia
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010216
Wattage	3.1 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	11000 Volts
Balance of Plant Available? (BOP)	-
