1.2 MW 2001 Used Caterpillar 3512B Diesel Generator Set

1.2 MW 2001 Used Caterpillar 3512B Diesel Generator Set

Description

This diesel generator set, manufactured in 2001, delivers reliable and efficient power for both prime and standby applications. Known for its robust performance and long operational life, this unit is ideal for continuous industrial use or backup power in critical operations. Built with Caterpillar’s proven 3500-series engine technology, it provides excellent fuel efficiency, smooth operation, and dependable power output even under variable load conditions. The generator is well-maintained and designed to perform reliably in demanding environments.

KEY FEATURES:

- Rated output: 1.2 MW (1200 kW)
- Suitable for continuous or standby operation
- Proven mechanical and electrical reliability

ADVANTAGES

- Low fuel consumption with reduced operational costs
- Ideal for use in power plants, manufacturing facilities, and emergency backup systems
- Fast start-up and stable performance under varying loads

Manufacturer	Caterpillar
Model	3512B
Year	2001
Condition	Used
Location	Asia
Qty Available	1 Unit
Category	Diesel Generator
Subcategory	1 – 9 MW
Stock Number	USP010891
Wattage	1.2 MW
Hours	800 hours
Frequency	
Fuel Type	Diesel
Voltage	277/480 Volts
Balance of Plant Available? (BOP)	-
