## 3.5 MW 2016 Surplus New Rolls Royce B3345L6A Diesel Generator Set

# 3.5 MW 2016 Surplus New Rolls Royce B3345L6A Diesel Generator Set

## Description

This diesel generator set is a surplus, never-installed unit offering robust and reliable power generation. Engineered for industrial, commercial, and utility applications, the B3345L6A engine provides high efficiency, low emissions, and exceptional durability. The generator set delivers continuous and standby power with stable performance, making it ideal for prime power, backup, or emergency applications. Its surplus status ensures a cost-effective solution for projects requiring new, high-quality equipment without the lead time of new manufacturing.

### KEY FEATURES:

- Rated output: 3,500 kW (3.5 MW)
- Heavy-duty alternator with integrated control system
- Designed for continuous-duty or standby operation

### ADVANTAGES

- Surplus new condition provides cost-effective access to high-quality equipment
- Flexible application for industrial, utility, or emergency power
- Engineered for stable performance under varying load conditions

Manufacturer	Rolls-Royce
Model	B3345L6A
Year	2016
Condition	Surplus New
Location	Asia
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP009952
Wattage	3.5 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Diesel
Voltage	10000 Volts
Balance of Plant Available? (BOP)	-
