7 MW 2006 Used Wartsila W16V32 HFO Generator Set

7 MW 2006 Used Wartsila W16V32 HFO Generator Set

Description

This is a heavy fuel oil (HFO) generator set manufactured in 2006, built around a W16V32-type high-speed, V16 diesel engine coupled to a synchronous alternator. The generator is engineered for large-scale industrial and utility applications, providing reliable electrical power for base-load, continuous, or standby operations. Its robust design allows operation on heavy fuel oils, making it suitable for regions where cost-effective HFO supply is available.

KEY FEATURES:

- Rated output: ~7,000 kW (7 MW)
- Equipped with standard generator control and protection systems
- Coupled to industrial synchronous alternator

ADVANTAGES

- Suitable for large-scale industrial or utility power generation
- Robust design for demanding operational environments
- Flexibility in fuel sourcing and fuel type compatibility

Manufacturer	Wartsila
Model	W16V32
Year	2006
Condition	Used
Location	Asia
Qty Available	1 Unit
Category	HFO Generators
Subcategory	1 – 9 MW
Stock Number	USP010957
Wattage	7 MW
Hours	42000
Frequency	50 Hz
Fuel Type	Heavy Fuel Oil
Voltage	11000 Volts
Balance of Plant Available? (BOP)	-
