2 MW 2015 Used MWM TCG2020V20 Natural Gas Generator Set

2 MW 2015 Used MWM TCG2020V20 Natural Gas Generator Set

Description

This natural gas generator set is a high-efficiency power generation unit designed for continuous and prime power applications. Manufactured in 2015, this generator is powered by the MWM TCG2020V20, a 20-cylinder, turbocharged, four-stroke natural gas engine recognized for its outstanding fuel efficiency, low operating costs, and reliability. With a rated electrical output of 2 MW, it is well-suited for industrial plants, utilities, and combined heat and power (CHP) projects, as well as renewable gas applications including biogas and landfill gas. The unit incorporates advanced control technology for optimized combustion, precise performance monitoring, and reduced emissions, ensuring compliance with modern environmental standards.

KEY FEATURES:

- Rated output: 2 MW (2000 kW) continuous duty
- High electrical efficiency with low emissions design
- Compatible with natural gas and renewable gases (biogas, landfill gas, etc.)

ADVANTAGES:

- Reduced emissions ensure environmental compliance.
- Cost-effective compared to new gensets of similar capacity.
- High efficiency reduces fuel consumption and lowers operating costs.

Manufacturer	MWM
Model	TCG2020V20
Year	2015
Condition	Used
Location	Asia
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010416
Wattage	2 MW
Hours	18000
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	10500 Volts
Balance of Plant Available? (BOP)	THE STATE OF THE S
