2.4 MW 2018 New MTU 20V4000G63 Diesel Generator Set (Containerized)

2.4 MW 2018 New MTU 20V4000G63 Diesel Generator Set (Containerized)

Description

This new, unused 2.4 MW containerized diesel generator set—manufactured in 2018 and showing 0 operating hours—offers reliable high-output power for industrial, utility, and rapid-deployment applications. The package is built around a heavy-duty 20-cylinder engine and paired with a high-efficiency synchronous alternator, all housed within a purpose-built container for weather protection, noise attenuation, and ease of transport. Designed for continuous or standby service, the unit provides dependable performance, stable electrical output, and flexible installation options.

KEY FEATURES:

- **Containerized Package:** Fully enclosed, factory-integrated power module with cooling, controls, and auxiliaries.
- **High Output:** 2.4 MW electrical capacity at 50 Hz for industrial-scale loads.
- **Mobile and Deployable:** Can be trailer-mounted or integrated into mobile power fleets for quick site mobilization.

ADVANTAGES

- **Reliable Baseload or Standby Power:** Suitable for continuous-duty operations or emergency backup.
- **Versatile Applications:** Ideal for mining, manufacturing, utilities, independent power producers, temporary power, and remote sites.

Manufacturer	MTU
Model	20V4000G63
Year	2018
Condition	New (Unused)
Location	Asia
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010936
Wattage	2.4 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Diesel
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
