1 MW 2024 New Caterpillar C32 Diesel Generator Set

1 MW 2024 New Caterpillar C32 Diesel Generator Set

Description

This generator set is a compact, high-performance unit designed for reliable power generation in industrial, commercial, and remote applications. Powered by a robust V12, four-stroke diesel engine, it delivers stable electrical output for continuous, prime, or standby power requirements. The set is engineered for high efficiency, durability, and ease of maintenance, making it ideal for installations where reliability and operational cost-effectiveness are critical.

Equipped with a heavy-duty alternator and advanced electronic control system, the generator set provides precise monitoring, protection, and optimized engine performance. Its design ensures long operational life, low emissions, and consistent performance under varying load conditions.

KEY FEATURES:

- Rated output: 1 MW
- Heavy-duty alternator for stable power delivery
- Suitable for continuous, prime, and standby power applications
- Compact and robust design for flexible installation

ADVANTAGES

- Low emissions and environmentally compliant operation
- Durable design ensures long service life and minimal downtime
- Reliable performance with proven diesel engine technology

Manufacturer	Caterpillar
Model	C32
Year	2024
Condition	New
Location	Europe
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP01054
Wattage	1 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Diesel
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
