1.9 MW 2013 Used Caterpillar G3520C Diesel Generator Set

1.9 MW 2013 Used Caterpillar G3520C Diesel Generator Set

Description

This 1.9 MW diesel generator set, manufactured in 2013, is a robust and reliable solution for industrial, commercial, and utility-scale power generation. Designed for both continuous and standby operation, the unit delivers stable and consistent electrical output under demanding conditions. Its heavy-duty diesel engine and high-quality alternator ensure long-term operational reliability, while the integrated control and monitoring systems provide precise management of the generator’s performance.

KEY FEATURES:

- Rated electrical output: 1.9 MW
- Designed for reliable performance under heavy-load conditions
- Suitable for both standalone and parallel operation

ADVANTAGES

- **Fuel flexibility:** Diesel operation allows deployment where natural gas or other fuels are unavailable
- **Scalable solution:** Multiple units can operate in parallel for larger load demands

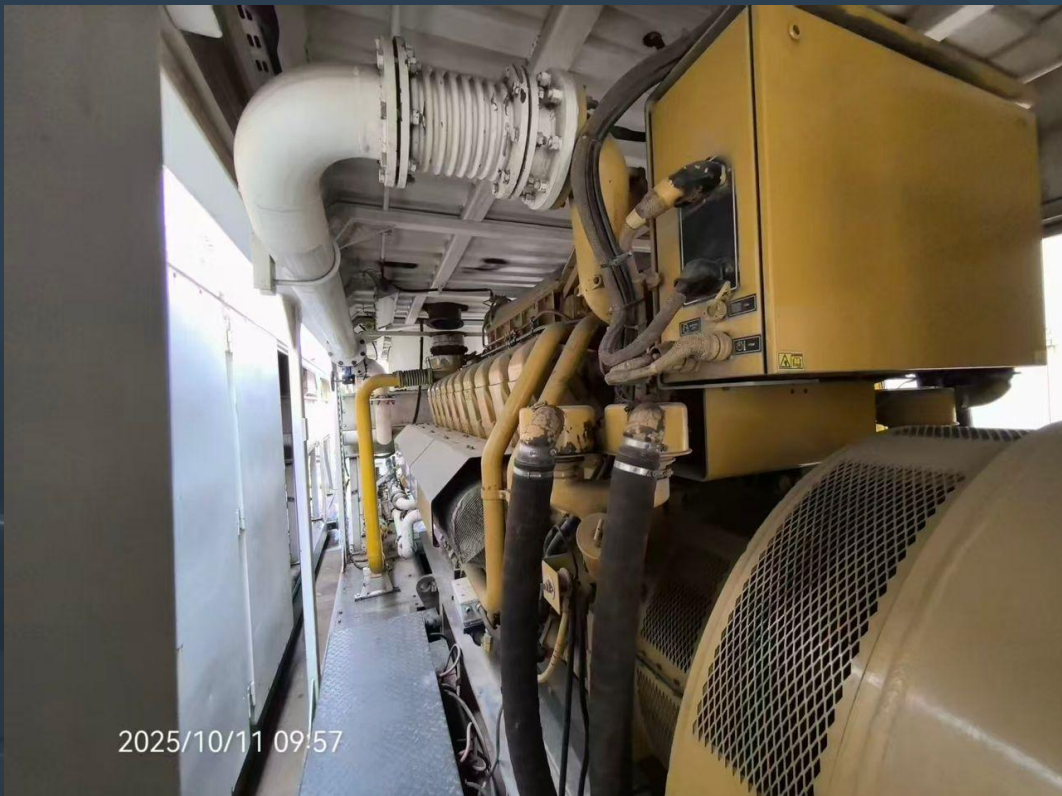

Manufacturer	Caterpillar
Model	G3520C
Year	2013
Condition	Used
Location	Asia
Qty Available	7 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010921
Wattage	1.9 MW
Hours	3000 – 5000 hours
Frequency	50 Hz
Fuel Type	Diesel
Voltage	10500 Volts
Balance of Plant Available? (BOP)	-
